Indian Economy One Shot 2026

Complete Course - Hinglish edition (Roman script)

PCS INSIGHTS | 3:28:12 | youtu.be/r2iOMMlSPIw

10 batches. 119 sections. 405 fact-sheet lines. 200 flashcards. 140 MCQs with explanations.

Ye poora lecture ek hi PDF mein hai - BoP aur convertibility se lekar census 2011, committees aur PYQ tak. Har batch ke shuru mein us batch ka focus, phir granular notes, "trap"/"sudhaar" callouts, fact sheet, flashcards aur practice test.

Kaise padhein: pehle section notes, phir us batch ki fact sheet, phir flashcards se saal pakke karein, aur ant mein MCQ dein. Jo galat ho, usi section ka "Trap" wala hissa dobara dekhein.

Note: ye notes lecture ke auto-transcript se bane hain; jahan lecture mein naam/number bigda, wahan "sudhaar" mark ke saath sahi jaankari di gayi hai.

buniyad

economy ke prakaar · Bharatiya economy · 1991 LPG · sustainable development aur SDG

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 parichay aur roadmap

Intro & scope of the lecture

ye video poori Bharatiya economy ka one-shot revision hai — UPPCS 2026, BPSC 72nd aur anya State PCS ke liye. source: Lucent + NCERT + Ghatna Chakra.

is batch mein kya: batch 1 = video ka pehla chapter: economy ki paribhasha aur prakaar, Bharat = developing/mishrit, 1991 LPG, sustainable development, SDG-17, human capital, inclusive growth. yojana (Planning) se batch 2 shuru hoga.

02 economy kya hai?

What is an economy · scarcity & choice

paribhasha: economy ek aisa system hai jismein desh utpadan (produce), vitaran (distribute) aur upbhog (consume) — teeno kaarya goods aur services (goods & services) ka karta hai.

economy ki concept ka mool simit resources (limited resources) arthat abhav / kami (scarcity) hai — kyunki resources simit hain, isliye tay karna padta hai ki kis cheez ko praathmikta di jaaye.

yahi teen question “kendriya samasya (central problem)” hain — inhi ka uttar economy ki sanrachna tay karta hai.

vargikaran ka aadhar

economy ka vargikaran samanyatah is aadhar par hota hai — utpadan ke sadhanon ka swamitva (ownership of means of production) evam unmein government ki bhoomika.

pariksha sanket: “economy kya hai” — ye seedhe question shayad hi aaye, par scarcity → choice → central problems aur ownership-based classification par aadharit question baar-baar bante hain.

03 janak: economics aur macroeconomics

Father of Economics · Father of Macroeconomics

upadhi (Title) | vyakti | yaad rakhne ki baat

- Father of Economics (economics ke janak) | Adam Smith | kul economics ke janak — yahan “Indian” nahi lagega
- Father of Macroeconomics (samashti economics ke janak) | J.. M.. Keynes (J. M. Keynes) | Keynes naam sunte hi “macro” → yaad rakhein

PYQ — 2024 prarambhik pariksha: question mein kathan diya gaya tha: “Adam Smith — Father of Macroeconomics”, jo galat hai. sahi yugm: Adam Smith = Father of Economics, J. M. Keynes = Father of Macroeconomics.

samanya bhool (Trap): video mein “Father of Indian Economy” jaisa zikr bhi sunai deta hai — vastav mein poocha jata hai “Father of Economics”, aur uttar Adam Smith hi hai. “Father of Indian Economics” ke naam par ulajhein nahi — question mein jo upadhi likhi ho, usi se milayein.

04 economy ke prakaar

Capitalist · Socialist · Mixed · Gandhian

kram yaad rakhein: poonjivadi → samajvadi → mishrit → Gandhivadi/samajvadi. pehle teen “swamitva” ke aadhar par, chautha “decentralisation” ke aadhar par.

1. poonjivadi economy (Capitalist Economy)

2. samajvadi economy (Socialist Economy)

3. mishrit economy (Mixed Economy)

Trap — “State” ka arth: yahan “State” ka matlab Haryana/Punjab/UP jaisa rajya nahi, balki Constitution ke Article 12 mein paribhashit “rajya” hai — jismein government, karyapalika, vidhayika aadi aate hain.

4. Gandhivadi samajvad (Gandhian Socialism)

tulna sarni — ek nazar mein

bindu | poonjivadi | samajvadi | mishrit | Gandhivadi

- swamitva | niji | rajya | niji + rajya | vikendrit/jan
- objective | labh | jan-kalyan | labh + kalyan | self-reliance
- government ki bhoomika | nyoonatam | kendriya/niyantrak | regulator + udyami | sahayak, vikendrikrit
- udaharan | USA | poorv Soviet sangh (aitihasik) | Bharat | Gandhi ka gram-svaraj model

yaad rakhne ki trick: “swamitva dekho, government ki bhoomika dekho” — niji+nyoonatam government = poonjivad; rajya+maximum government = samajvad; dono = mishrit; bikhara hua/sthaniya = Gandhivadi.

05 developed · developing · underdeveloped

Developed · Developing · Underdeveloped economies

Bharat = developing — developed nahi · USA, France = developed ke udaharan · sv-ghoshna = darja tay karne ka aadhar

Bharat developing economy hai — “developed” nahi. developed = USA, France jaise desh; Bharat abhi development ki prakriya mein hai. Bharat mein underdeveloped economy ke bhi kuch lakshan maujud hain, par question mein vikalp diye hon to uttar developing hi hoga.

darja kaun deta hai? — Self-declaration

reform / sateekta: video mein ye “2050 banam 2070” ka udaharan samanya roop se diya gaya hai (kisi vishesh sandhi ka ullekh nahi). pariksha mein ise “period/target mein chhoot” ke udaharan ke roop mein hi likhein, kisi sandhi-vishesh ka dawa na karein.

underdeveloped economy ke lakshan (Features of Underdeveloped Economy)

lakshan | spashtikaran

- jeevan-star nimn | Standard of living = kaise rehte hain, kya khaate hain, kahan rehte hain, kaisa paani/hawa milti hai — ye sab nimn star ke.
- utpadakta nimn | Productivity kam → aay kam → per capita income bhi kam.
- population growth tivr | education/jagarukta kam → family planning ka abhav → uchch population growth.
- unemployment uchch | uchch unemployment + alp-employment (underemployment).
- agriculture ka prabhutv | agriculture (primary) sector ka dabadaba jitna zyada, economy utni pichhadi/underdeveloped; tertiary (seva) aur manufacturing ka hissa jitna zyada, utni unnat.
- poonji nirman nimn | kamaya aur kha liya, investment nahi kiya. Capital formation = machines/capital goods mein investment.
- aay asamanta | Income inequality spasht dikhati hai.
- nirbharta anupaat uchch | Dependency ratio uncha; karyashil population (workforce) mukhyatah primary/agriculture sector mein.

developing economy ke lakshan (Features of Developing Economy)

reform / sateekta — protein ka bindu: lecture mein kaha gaya: “uchch per person protein upalabdhata developed economy ka lakshan hai”. video mein ise “developing” kaha gaya, jo ulajha hua hai — sahi arth: protein-sanpannata developed deshon ka lakshan; Bharat protein-kami wala desh hai (shakahariyon ki baat to chhodie, mansahari bhi roz zaruri protein nahi le pate).

Trap: underdeveloped aur developing ke lakshan lagbhag saman dikhate hain — dono mein bhram na karein. pehchan: question mein “Bharat” poocha jaaye → developing; kisi samanya/saiddhantik economy ki baat ho → underdeveloped ke lakshan chunein.

06 Bharatiya economy ki visheshtayein

lecture ke anusar Bharat ki pehchan teen baton se ki jati hai — agriculture ka prabhutv, nimn per capita income, aur vyapak unemployment. yahi teen sabse zyada poochhe jate hain.

~18% = agriculture ka yogdan Bharat ki GDP mein (lecture ke anusar) · ~45% = population agriculture par dependent — prati 100 mein 45 · 1 = 4 = prachhann unemployment: ek ka kaam, chaar log

visheshataon ki List

dushchakra (Vicious circle) — shram utpadakta

jeevan-star ka maap: kisi desh ka standard of living uski per capita income se darshaya jata hai — tanakhwah zyada to jeevan-star achha, tanakhwah kam to keval guzara.

07 1991 ki nayi economic policy aur LPG

New Economic Policy 1991 · LPG & second-generation reforms

1991 ki nayi economic policy (New Economic Policy, 1991) ki mukhya ranneeti = LPG.

doosri peedhi ke economic reform (Second Generation Reforms)

pariksha sanket: LPG ka poora vistar (kram, tithi 24 July 1991, payment-balance sankat aadi) video mein baad mein aayega — is batch mein keval naam aur kram puchhane yogya hai: L → P → G.

08 sustainable development aur SDG

Sustainable Development · Books & years · SDG-17

paribhasha (yaad honi chahiye): sustainable development = sansadhanon ka aisa upyog jismein bhavishya ki peedhiyon ko bhi dhyan mein rakha jaaye — vartaman needs poori hon, par bhavi peedhiyon ki kshamta khatam na ho.

kitaabein, report aur varsh — sabse zyada poocha jane wala hissa

varsh | naam | lekhak / institution | yaad rakhein

- 1968 | The Population Bomb | Paul Ehrlich — jeev vaigyanik | population visphot par kitaab
- 1968 | The Limits to Growth | Club of Rome | 30 vyakti, 10 deshon ke vaigyanik-arthashastri-shodhakarta, Rome mein mile
- 1972 | Silent Spring | Rachel Carson | paryavaran andolan ki adharashila
- 1987 | Our Common Future | Brundtland Commission ki report | “sustainable development” ki lokapriy paribhasha isi report se

Trap — sabse bada bhram: Our Common Future (Brundtland, 1987) aur Limits to Growth (Club of Rome, 1968) — dono alag hain. “Our Common Future” ko “Limits to Growth” se ya “Limits of Growth” ko Brundtland se milana = galat uttar. yaad rakhein: Brundtland = Common Future = 1987; Rome = Limits = 1968.

paryavaraniya Kuznets curve (Environmental Kuznets Curve — EKC)

EKC paryavaraniya ksharan (environmental degradation) aur per person GDP ke beech sambandh dikhati hai: aay badhane ke saath ksharan pehle badhta hai, ek bindu ke baad ghatane lagata hai — isliye curve ulta-U (inverted U) aakaar ka hota hai.

reform / sateekta: lecture mein ise “U shape” kaha gaya, par manak economics mein EKC ulta-U (inverted U) hoti hai — pehle pradushan badhta hai, development ke saath ghatata hai. pariksha mein “ulta-U” hi sahi uttar mana jata hai.

sustainable development target (SDG)

17 = SDG lakshyon ki sankhya · 2030 = achievement ka target varsh (Agenda 2030) · NITI = Bharat mein nodal institution — NITI Aayog

SDG ki kahani — 17 target ek hi kahani mein

lecture ki trick (swayan lekcharar ke shabdon mein “ye mera avishkar nahi”): ek garib aadmi ki beti ki kahani se sabhi 17 target yaad ho jate hain. vistrit card flashcard mein hain; sar ye:

long-term revision: 16 = Peace, Justice & Strong Institutions, 17 = Partnership for the Goals. ant ke do target sabse zyada bhulae jate hain — inhein kahani ke ant (“shanti se rahenge, saath milkar”) se jod lein.

economic Survey ka fact: “Sustainable Development & Climate Change” chapter pehli baar 2011-12 ke Economic Survey mein shamil kiya gaya tha — ye fact tab poocha gaya jab ye samasamayik (current affairs) mein tha.

09 human capital aur inclusive growth

Human capital · sources · inclusive growth

human capital: vo janashakti jo kushal (skilled), swasth (healthy) aur shikshit (educated) ho — yahi utpadakta badhati hai.

kaushal development programme human capital ko behatar banane ke liye hi chalae jate hain — jaise Prime Minister Kaushal Vikas Yojana (PMKVY), jismein yuvaon ko kaushal prashikshan diya jata hai.

batch ka ant: yahin pehla chapter samapt hota hai (“to ye tha hamara ye wala chapter”). iske baad lecture mein Planning shuru hoti hai — vo batch 2 mein.

10 fact sheet — antim 10 minat ka revision

One-line fact sheet (exam revision)

batch 1 ke sabhi pariksha-yogya fact, ek-ek pankti mein. print/PDF batan se inhein revision sheet ki tarah nikal sakte hain.

• paribhasha — economy = goods aur services ka utpadan + vitaran + upbhog karne wali vyavastha; aadhar = simit resources (scarcity).
• aadhar — economies ka vargikaran = utpadan ke sadhanon ka swamitva + government ki bhoomika.
• sadhan — utpadan ke chaar sadhan = bhoomi, shram, poonji, udyam.
• janak — Adam Smith — Father of Economics.
• janak — J.. M.. Keynes — Father of Macroeconomics.
• PYQ 2024 — “Adam Smith = Father of Macroeconomics” kathan galat tha — yahi ulajhane wala bindu tha.
• prakaar — poonjivadi → niji swamitva, labh-unmukh, nyoonatam government; udaharan USA.
• prakaar — samajvadi → rajya swamitva, centralised economic shakti, jan-kalyan hetu hastakshep.
• prakaar — Bharat = mishrit economy (niji + sarvajanik sector saath).
• prakaar — Gandhivadi samajvad = utpadak sansadhanon ka decentralisation, swarozgar, self-reliance.
• Article — mishrit economy mein “rajya” = Article 12 mein paribhashit rajya (government/karyapalika/vidhayika).
• kalyan — NFSA ke antargat lagbhag 80 crore logon ko riyayati rate par khadyann.
• darja — Bharat = developing economy; darja sv-ghoshna (self-declaration) se.
• labh — developing ghoshit hone par samay-seema/target mein chhoot jaise labh (udaharan 2050 banam 2070).
• lakshan — underdeveloped = nimn jeevan-star, nimn utpadakta, uchch population growth, unemployment, agriculture prabhutv, nimn poonji nirman, aay asamanta, uchch nirbharta anupaat.
• lakshan — developing = agriculture-pradhan vyavsay, prachhann unemployment, nimn human capital, industrial-takniki pichhadapan, import nirbharta, nirakshatra.
• aankde* — agriculture ka GDP mein yogdan ~18%, par population ki nirbharta ~45% (lecture ke anusar).
• shabd — prachhann unemployment = ek ka kaam chaar log karein; teen hatane par utpadan na badale.
• pehchan — Bharat ki teen mukhya pehchan = agriculture prabhutv + nimn per capita income + vyapak unemployment.
• maap — jeevan-star ko per capita income se darshaya jata hai.
• chakra — nimn utpadakta → nimn aay → nimn investment → nimn poonji nirman (dushchakra).
• 1991 — LPG = Liberalisation, Privatisation, Globalisation (isi kram mein).
• reform — doosri peedhi ke reform = tel sector, sarvajanik sector, government aur sarvajanik sansthan, sustainable development.
• 1968 — The Population Bomb — Paul Ehrlich (jeev vaigyanik).
• 1968 — The Limits to Growth — Club of Rome (30 vyakti, 10 desh).
• 1972 — Silent Spring — Rachel Carson.
• 1987 — Our Common Future — Brundtland Commission ki report.
• curve — EKC = paryavaraniya ksharan aur per person GDP ke beech ulta-U sambandh.
• SDG — 17 target, target varsh 2030; Bharat mein nodal = NITI Aayog.
• SDG — NIF pragati report — yojana vibhag (lecture mein UP ka sandarbh); vaishvik SD report lagbhag har 4 varsh.
• Survey — Sustainable Development & Climate Change chapter pehli baar Economic Survey 2011-12 mein.

• human capital — human capital = kushal + swasth + shikshit; source = education, health, chikitsa, on-job prashikshan, prabandhan/soochna, pravasan.
• yojana — PM Kaushal Vikas Yojana — yuvaon ko kaushal prashikshan se human capital mein reform.
• concept — inclusive growth = “sabka saath, sabka development” — bahuayami (education, health, employment, poverty).
* video mein bole gaye anumanit aankde — pariksha mein navintam adhikarik aankde (Economic Survey / MoSPI) hi likhein.

11 flashcard — SDG 17 + fact

Flip cards · SDG story & fact drills

card par klik/taip karein — palatakar uttar dikhega. pehle swayan sochen, phir paltein.

SDG kahani ke 17 card

fact-drill card

keyboard: Tab se card chunein, Enter/Space se paltein.

12 abhyas question — 14 MCQ

Practice test with instant explanations

yojana

svatantrata-poorv yojanayein · panchvarshiya yojanayein 1–12 · Planning Commission · NITI Aayog

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 yojana kya hai?

Meaning & origin of economic planning

batch 2 poora yojana (Planning) chapter hai — UPPCS aur BPSC dono ke liye sabse zyada scoring hissa, kyunki yahan se sawal seedhe period, model aur naam par bante hain.

paribhasha: economic planning = pehle se tay kiye gaye objectives (predetermined objectives) ko, uplabdh sansadhanon ke ishtatam upyog (optimum use of existing resources) se prapt karne ki koshish.

lecture ki sidhi baat: “jaise aap padhne se pehle apna plan banate ho aur use achieve karne ki koshish karte ho — wahi cheez yahan bhi hai.”

reform / sateekta: lecture mein ek jagah “12 panchvarshiya + 6 annual yojanayein” bola gaya, par baad mein khud hi ginti ki — 3 annual (1966–69) + 2 annual (1990–92) = kul 5. pariksha mein 5 annual yojanayein hi sahi mani jati hain.

yojana ka constitutional sanket

1951 = pehli panchvarshiya yojana (1 April 1951) · 12 = panchvarshiya yojanayein (1951–2017) · 5 = annual yojanayein (3 + 2)

02 svatantrata-poorv yojanayein

Pre-independence plan proposals (1914–1950)

yahan se seedhe “kisne banaya, kis saal, kis aadhar par” wale question aate hain. neeche kram theek vaisa hi hai jaisa lecture mein hai.

varsh | yojana / pahal | kiske dwara | mukhya baat

- 1914 | Planned Economy for India | M. Visvesvaraya | pehla proposal; inhein modern planning ka janak (founder of modern planning in India) kaha jata hai
- 1934 | — | Gandhi ji | Congress se istifa (keval tithi-smriti ke liye)
- 1938 | National Planning Committee (National Planning Committee) | Subhas Chandra Bose ne banai; chairman Jawaharlal Nehru | Congress ke bhitar planning ki pehli institutional koshish
- 1944 | Gandhian Plan | Shriman Narayan Agarwal | aadhar: self-reliant gram economy (self-sufficient village economy)
- 1944 | Bombay Plan (= Tata-Birla plan) | 8 industrialists | 15 varshiy yojana, industrial development par zor
- 1944 | Planning & Development Department | british government; pramukh Ardeshir Dalal | sarkari tantr mein yojana vibhag
- 1945 | People's Plan (People's Plan) | M.N. Roy + Bharatiya shramik sangh | Russian planning se inspired
- 1950 | Sarvodaya Plan | Jayaprakash Narayan | Gandhi ka adarsh — aisi society jismein shoshan (exploitation) hi na ho

Bombay Plan ke 8 industrialists: J..ar.di. Tata · ji.di. Birla · Ardeshir Dalal · Purshottamdas Thakurdas · John Mathai · Lala Shriram · Kasturbhai lalabhai · e.di. Shroff.

Trap: yojana “hamesha 5 saal ki” nahi hoti — Bombay Plan 15 saal ka tha. aur Gandhian Plan (1944, Shriman Narayan Agarwal) ko Sarvodaya Plan (1950, Jayaprakash Narayan) se milayein nahi — dono alag hain.

pariksha pattern: “Planned Economy for India” kiski? → M. Visvesvaraya. “Gandhian Plan” kisne banai? → Shriman Narayan Agarwal. “People's Plan” kisse inspired? → Russian planning.

03 Planning Commission aur National Development Council

Planning Commission & NDC

establishment ki steps

Planning Commission ki nature

National Development Council (NDC)

6 August 1952 = NDC ki establishment (Niyogi Committee ki recommendation) · PM = NDC ka chairman — Prime Minister · Super Cabinet = vistrit membership aur adhikar ke kaaran

Trap — do tarikhen: 15 March 1950 = Planning Commission · 6 August 1952 = NDC. dono ki recommendation Niyogi Committee ne ki — par tarikh badalane par uttar galat ho jaayega.

04 pehli aur doosri yojana

First & Second Five Year Plan · Harrod-Domar & Mahalanobis

pehli yojana (1951–56)

Harrod–Domar model: do alag model — sir Roy Harrod (UK) aur evsi Domar (USA) — milakar ye model bana. mool baat: saving aur investment ka growth par sidha prabhav. chakra: saving → bank mein deposit → industrialists ko rin → factory → employment → vetan → maang → utpadan… (ek vicious cycle jo growth mein badalata hai)

doosri yojana (1956–61)

sector | kya aata hai | objective

- K — capital goods sector | machine, steel, power | long-term growth ke liye
- C — consumer goods sector | khana, kapada jaisi consumer vastuein | short-term zarurat ke liye

import substitution ka matlab: jo cheez bahar se mangate hain (import), uska apne desh mein vikalp (substitute) bana do — taaki bahar par nirbharta ghate aur economy self-reliant bane.

Trap — model ki jodi: pehli = Harrod–Domar, doosri = Mahalanobis. pariksha mein ulat-pher kar poocha jata hai — “Mahalanobis model kis yojana mein?” → doosri.

05 tisri yojana aur Plan Holiday

Third plan · wars · Plan Holiday

varsh | ghatna | asar

- 1962 | Bharat–chin yuddh | resources raksha ki or chale gaye
- 1965 | Bharat–Pakistan yuddh | yojana ke resources aur simit

Plan Holiday (1966–69)

yaad rakhne ka kram: 1951–56 → 1956–61 → 1961–66 → teen annual (1966–69) → 1969–74 → 1974–79 → …

Trap: “Plan Holiday” ka matlab yojana band hona nahi — panchvarshiya yojana nahi bani, par annual yojanayein chalati rahin.

06 chauthi aur panchavin yojana

Fourth (Gadgil) & Fifth (Garibi Hatao)

chauthi yojana (1969–74)

panchavin yojana (1974–79)

Trap — alochna: “Garibi Hatao” ki alochna bhi hui — ki slogan poverty hatane ka tha, par vyavahar mein garibon ko hi hataya ja raha hai. ye famous satire pariksha mein vikalp ke roop mein aa sakata hai.

07 chhathi-satavin yojana aur Rolling Plan

Sixth, Seventh & Rolling Plan

Rolling Plan (Rolling Plan, 1978–83): credit: Gunnar Myrdal. Bharat mein lane wali government: Morarji Desai ki Janata Party government. us samay finance Minister: H.M. Patel. vichar: har saal yojana ko aage badhate jana — teen-chaar saal ka target tay kar, agle saal use amended karna.

Perspective Planning: chhathi yojana mein long-term paripreksh planning (Perspective Planning) ka vichar istemal hua — 15–20 saal ki disha tay karke 5 saal ki yojana banana.

Trap — Rolling Plan ka "credit" vichar Gunnar Myrdal ka Bharat mein implemented Morarji Desai government ne (1978–83). dono ko ek hi question mein ulajhaya jata hai.

08 athavin se barahavin yojana

Eighth to Twelfth Plan (1992–2017)

yahan se sawal "kis yojana ka objective kya tha" aur "target vs achievement" par bante hain — khasakar akhiri teen yojanaon ke objective zarur yaad rakhein.

yojana | period | mukhya objective / focus | target → achievement

- athavin | 1992–97 | manav resources development; LPG reform isi daur mein (tab annual yojana chal rahi thi); education aur nirakshatra par zor | 5.6% → 6.8% (target se zyada)
- nauvin | 1997–2002 | jeevan ki quality, utpadak employment, regional balance, self-reliance; 7 Basic Minimum Services | 6.5% → 5.4% (target poora nahi)
- dasavin | 2002–07 | inclusive aur equitable growth (inclusive & equitable growth); education mein laingik antar (gender gap) kam karna | 8.1% → 7.6%
- gyarahavin | 2007–12 | uchch education mein namankan (enrolment) badhana, durasth education ka vistar, tez aur inclusive growth | 9% → 8%
- barahavin | 2012–17 | tez, zyada inclusive aur sustainable growth (faster, more inclusive & sustainable growth) | 8% (agriculture 4%, vinirman 10%) — poori nahi ho pai

athavin yojana ka model: John W. Miller model (John W. Miller model) par aadharit.

Trap — barahavin yojana: ye 2012–17 ke liye bani thi, par 2015 mein NITI Aayog ban jane ke kaaran poori nahi ho saki — yahi sabse zyada poocha jane wala bindu hai.

target kis roop mein the: pehli teen yojanayein = rashtriya aay (national income) ke target; chauthi = net domestic excise (net domestic product); baki = GDP aadharit.

09 NITI Aayog aur tulna

NITI Aayog · Planning Commission vs NITI Aayog

poora naam: National Institution for Transforming India (NITI Aayog) — Bharat ko badalane ke liye rashtriya sansthan. establishment: 1 January 2015, sarkari proposal (Government Resolution) se; isne Planning Commission ko replaced kiya.

Planning Commission banam NITI Aayog

bindu | Planning Commission (1950–2014) | NITI Aayog (2015–)

- viewpoint | top-down — upar policy, neeche implemented | bottom-up — neeche se upar
- sanrachna | Centre government ka body, atyadhik centralised | cooperative federalism — states ki bhagidari
- pratinidhitv | keval Centre ka | Centre + rajya dono ka
- kaarya | 5 varshiy yojanayein banana | alag-alag period (1/3/5 varsh) ke ejende aur yojanayein
- sanghavad | centralised | cooperative federalism ko badhava

lecture ki sidhi salah: "isse zyada cheezein puchhane ki sanbhavna kam hai — itna yaad rakhna more than enough hai."

10 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact, ek-ek pankti mein. print/PDF batan se revision sheet nikal sakte hain.

• paribhasha — economic planning = purvanirdharit objective + uplabdh sansadhanon ka ishtatam upyog.
• mool — planning ka vichar Bharat ka nahi — Soviet sangh (USSR) se liya gaya.
• List — "yojana" Concurrent List mein — Centre aur rajya dono law bana sakte hain.
• ginti — 12 panchvarshiya + 5 annual yojanayein (3 + 2).
• 1914 — Planned Economy for India — M. Visvesvaraya (modern planning ke janak).
• 1938 — National Planning Committee — banai Subhas Chandra Bose ne, chairman Nehru.
• 1944 — Gandhian Plan — Shriman Narayan Agarwal; aadhar: self-reliant gram economy.
• 1944 — Bombay Plan (Tata-Birla) — 8 industrialists, 15 varshiy yojana.
• 1944 — Planning & Development Department — british government, pramukh Ardeshir Dalal.
• 1945 — People's Plan — M.N. Roy + Bharatiya shramik sangh; Russian planning se inspired.
• 1950 — Sarvodaya Plan — Jayaprakash Narayan; shoshan-rahit samaj ka adarsh.

• tithi — 15 March 1950 — Planning Commission, Cabinet proposal se, recommendation Niyogi Committee.
• pad — first chairman Nehru (ex-officio PM) · first Vice-Chairman Gulzarilal Nanda.
• niyukti — Vice-Chairman ko President appointed karte — 5 varsh, PM ki salah par.
• nature — Planning Commission — na constitutional, na statutory; executive + advisory; headquarters New Delhi.
• NDC — 6 August 1952 — chairman PM; members sabhi CM, kendriya Minister, UT administrator; super Cabinet.
• yojana 1 — 1951–56 · Harrod–Domar · target 2.1% (achievement zyada) · agriculture + sharanarthi rehabilitation.
• yojana 2 — 1956–61 · Mahalanobis · 4.5% → 4.3% · bhari industry · K aur C sector.
• yojana 3 — 1961–66 · 5% target · Mahalanobis + SDS pradarshan model + Sukhamoy Chakravarty input-output.
• yuddh — 1962 Bharat-chin · 1965 Bharat-Pakistan — resources raksha mein chale gaye.
• Holiday — 1966–69 Plan Holiday — 3 annual yojanayein; Green Revolution 1966.
• yojana 4 — 1969–74 · Gadgil yojana · buffer stock · banks ka nationalisation.
• yojana 5 — 1974–79 · Garibi Hatao · Minimum Needs Programme · Food for Work · 4.4% → 4.8% (saphal), samay se pehle samapt.
• Rolling — 1978–83 · vichar Gunnar Myrdal · implemented Morarji Desai government · finance Minister H.M. Patel.
• yojana 6 — 1980–85 · poverty unmulan + modernisation · Perspective Planning.
• yojana 7 — 1985–90 · liberalisation ki shuruaat · Indira Awaas aur Jawahar Rozgar Yojana.
• annual — 1990–92 do annual yojanayein — kul annual yojanayein 5.
• yojana 8 — 1992–97 · John W. Miller model · 5.6% → 6.8% · LPG reform isi daur mein.
• yojana 9 — 1997–2002 · jeevan-quality, regional balance · 7 Basic Minimum Services · 6.5% → 5.4%.
• yojana 10 — 2002–07 · inclusive end equitable growth · education mein gender gap · 8.1% → 7.6%.
• yojana 11 — 2007–12 · uchch education namankan, durasth education · 9% → 8%.
• yojana 12 — 2012–17 · tez, inclusive aur sustainable growth · 8% (agriculture 4%, vinirman 10%) · NITI Aayog ke kaaran adhuri.
• target-aadhar — pehli teen = rashtriya aay; chauthi = net domestic excise; baki = GDP.
• NITI Aayog — 1 January 2015 · sarkari proposal · think tank · cooperative federalism · part-time members 2, ex-officio 4 kendriya Minister.

11 flashcard — 12 yojanayein + sansthayein

Flip cards · plans & institutions

card par klik/taip karein — palatakar uttar dikhega. pehle swayan sochen, phir paltein.

12 panchvarshiya yojanayein

sansthayein aur tithiyan

keyboard: Tab se card chunein, Enter/Space se paltein.

12 abhyas question — 14 MCQ

Practice test with instant explanations

poverty aur kalyan

Lorenz/gini · Amartya Sen · assessment committees · MPI · NFSA · MGNREGA

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 poverty kya hai?

Poverty — meaning, types & poverty line

ye chapter poori series ka sabse zyada question-kari hissa hai — “kaun-si committee, kis saal, kitne percent” yahin se seedhe poocha jata hai.

paribhasha: poverty = aisi sthiti jismein vyakti apni basic needs (basic necessities) poori nahi kar pata — roti, kapada, makan yaani food, clothing, shelter.

sabse pehla vaishvik estimate: duniya mein poverty ka pehla global estimate World Development Report 1990 mein aaya — “varld bank ne pehli baar gina ki kitne log garib hain.”

do tarah ki poverty

prakaar | matlab | kaise mapi jati hai

- relative poverty Relative | tulna mein garib — “padosi ke pass badi gadi hai, to aap khud ko garib mahasus karte hain.” ye asamanta (disparity) napti hai, aay-samuhon ke beech ka fasla. | Lorenz curve aur gini coefficient
- absolute poverty Absolute | ek nyoonatam zarurat ka measure — agar roz itna paisa kharch nahi kar pa rahe, ya itni calorie nahi le pa rahe, to aap garib hain. ismein tulna nahi hoti. | poverty line — minimum consumption criteria

Trap: Bharat mein absolute vidhi istemal hoti hai, relative nahi. aur poverty line = “nyoonatam upbhog ka measure” — yahi absolute poverty ka maap hai.

poverty line ka calorie aadhar

2400 = rural sector — per person prati din calorie · 2100 = urban sector — per person prati din calorie · 1979 = Planning Commission karyadal ne ye manak tay kiya (aadhar varsh 1973-74)

ganv mein mehanat zyada hoti hai, isliye wahan calorie ki zarurat bhi zyada mani jati hai — yahi 2400 banam 2100 ka farq hai.

02 asamanta kaise mapte hain

Inequality — Lorenz curve, Gini coefficient & Amartya Sen

Amartya Sen ka yogdan: Inequality-adjusted per capita income — average per capita income ko asamanta ke hisab se theek karke dekhna. vichar: “average aay badh jana kaafi nahi — agar aay barabar banti nahi hai, to vo average dhokha deta hai.”

pariksha pattern: “Lorenz curve / gini coefficient kisse sanbandhit hain?” → aay-asamanta. “Inequality-adjusted per capita income kisne diya?” → Amartya Sen.

03 poverty assessment ka itihas

Committees & estimates — 1962 to Rangarajan

isse pehle sirf Dadabhai Naoroji ne poverty ki baat uthai thi — kitaab: “Poverty and UnBritish Rule in India”. ise tilak se milana mat (ye trap hai). iske baad pehla adhikarik (official) prayas Planning Commission ne July 1962 mein kiya.

varsh | committee / prayas | mukhya baat

- 1962 | Planning Commission (July) | pehla adhikarik estimate — poverty measure ki shuruaat
- 1971 | Dandekar evam Rath | pehli badi committee — calorie aadharit poverty estimate
- 1970s | P.S. Minhas · P.D. Oza | aay-aadharit aur calorie-aadharit vaikalpik estimate
- 1979 | Planning Commission karyadal | 2400 calorie (ganv) / 2100 (shahar), aadhar varsh 1973-74
- 1989 | D.T. Lakdawala committee | rajya-vishisht poverty line (state-specific), price index se jodna
- 2009 | Suresh Tendulkar committee | 6 basic needs par rekha; report 2011-12 → 21.9% garib
- 2012 | C. Rangarajan committee | paise ke aadhar par; report 2014 → 29.5% garib

teen badi committees ek-ek lain mein

Trap — government ne kise mana?: Tendulkar kehte hain 21.9%, Rangarajan kehte hain 29.5%. government ne Tendulkar committee ki recommendation mani, kyunki usmein poverty kam dikhati hai. isliye adhikarik ankada = 21.9%.

reform: lecture mein Rangarajan ke aankde kai baar badal gaye (972/1460, phir 1024/1630). sahi manak: Rs 972 rural aur Rs 1,407 urban per person prati mah (2011-12 ki prices par), estimate 29.5%. pariksha mein yahi likhein.

lecture ki yaad-tarakib: “Rath par danda” (Dandekar-Rath, 1971) → phir danda alag (Lakdawala, 1989) → “wahi danda lakadi ka” (Tendulkar, 2009) → ant mein Rangarajan.

04 bahuayami poverty index

Multidimensional Poverty Index (MPI)

sirf aay se poverty napna galat hai — education, health aur jeevan-star bhi dekhna padta hai. isi ke liye MPI aaya.

kisne banaya: OPHI (Oxford Poverty & Human Development Initiative) + UNDP. isne 2010 se Human Development Report mein purane Human Poverty Index (HPI) ko badal diya (replace).

3 = aayam — education · health · jeevan-star · 10 = sanketak (indicators) · 2010 = HDR mein HPI ki jagah MPI

aayam | sanketak | bhar (weight)
- education | skuli education ke varsh (years of schooling) | 1/6 + 1/6 = 1/3
- school mein upasthiti (attendance)
- health | bal mrityu (child mortality) | 1/6 + 1/6 = 1/3
- nutrition
- jeevan-star | electricity · swachhata · drinking water · Awaas · khana pakane ka fuel · asset | 6 × 1/18 = 1/3

NITI Aayog ka rashtriya MPI alag kyun hai: Bharat ka National MPI (NITI Aayog) isi dhanche par hai, par usmein 12 sanketak hain — antararashtriy MPI ke 10 mein matri health aur bank khata jod diye gaye hain. ye “antararashtriy vs Bharatiya MPI” wala question bahut doharaya jata hai.

pariksha pattern: “MPI mein kitne aayam aur sanketak?” → 3 aayam, 10 sanketak. “kisne prepare kiya?” → OPHI + UNDP. “kiski jagah aaya?” → HPI (2010 se).

05 National Food Security Act

NFSA 2013 & food security schemes

mool vichar: NFSA 2013 — citizens ko sasti keemat par khadyann uplabdh karana, taaki “koi bhukha na mare”. pure Bharat mein implemented.

75% = rural abadi cover · 50% = urban abadi cover · ~2/3 = desh ki kul abadi

baat | vivaran
- quantity | 5 kilo per person prati mah (antyoday family: 35 kilo prati family)
- keemat | chaval Rs 3/kilo · gehun Rs 2/kilo · mota grain Rs 1/kilo
- yaad rakhne ki tarakib | 3-2-1 → chaval 3, gehun 2, mota grain 1
- family ka mukhiya | 18 varsh ya zyada umr ki mahila; na ho to sabse bada purush members
- matritv labh | pregnant aur stanapan karane wali women ko Rs 6,000 ya zyada nakad labh (wage loss ki compensation)
- coverage | target 81.35 crore, vastavik ~80.7 crore
- reform | Targeted PDS mein reform + nakad transfer ki suvidha

khadya suraksha ki doosri yojanayein

Trap: PM Kisan Sampada Yojana ≠ PM-KISAN. Sampada = food prosesing (2017); PM-KISAN = farmers ko sidha paisa (2019). dono ko ek hi maan lena sabse am galati hai.

06 employment aur poverty unmulan yojanayein

Poverty alleviation schemes — chronology

yahan se kronoloji wale question bante hain — “kaun-si yojana pehle ai?” isliye kram yaad rakhna zaruri hai.

varsh | yojana | mukhya baat
- 1979 | TRYSEM (15 August) | Training of Rural Youth for Self Employment; 18–35 varsh ke BPL rural yuvaon ko prashikshan
- 1982-83 | DWCRA | Development of Women & Children in Rural Areas — BPL women ke Self Help Group (SHG)
- 1985 | Indira Awaas Yojana | garibon ke liye Awaas
- 1989 | Jawahar Rozgar Yojana (JRY) | rural employment srijan
- 1993 | PMRY + EAS | Prime Minister's Rozgar Yojana (swarozgar) + Employment Assurance Scheme
- 1997 | SJSRY | Swarna Jayanti Shahari Rozgar Yojana — pehle shahar mein
- 1999 | JGSY + SGSY | gram samriddhi yojana + Swarna Jayanti Gram Swarozgar Yojana — ab ganv mein
- 2000 | annapurna · PMGY · AAY · annual penshan insurance | 2000 “chaar yojanaon ka saal” — isi saal Antyodaya Anna Yojana bhi
- 2005 | Bharat Nirman | rural basic infrastructure (sadak, paani, electricity, Awaas, irrigation, communication)
- 2006 | NREGA | employment ki legal guarantee — agla section poora isi par

kram yaad rakhne ka tarika: shahar pehle, ganv baad mein (SJSRY 1997 → SGSY 1999) — par ye ulta bhi hota hai: NRLM (ganv, 2011) pehle, NULM (shahar, 2013) baad mein. dono jode alag-alag yaad rakhein.

reform: lecture mein ek jagah Jawahar Rozgar Yojana “1999” boli gayi, par sahi varsh 1989 hai (1999 mein JGSY ai). kronoloji wale question mein yahi farq uttar badal deta hai.

07 MGNREGA

MGNREGA — the legal guarantee of work

mukhya provision

kharch ka hissa | kaun uthata hai
- unskilled shram ki wage | Centre — 100%
- material aur kushal/ardh-kushal wage | Centre 75%, rajya 25%
- prashasnik kharch | Centre 6%
- kaam ka distribution | shram : material = 60 : 40

Trap: “NREGA 2005” aur “MGNREGA 2006” dono sahi dikhate hain — law 2005 ka, shuruaat 2 February 2006 se, aur naam mein “mahatma Gandhi” 2009 mein juda. question kis cheez ka poocha gaya hai, vo dekhen.

08 livelihood mishan aur startaap

NRLM · NULM · Startup India · Stand Up India · Skill

ganv ki livelihood — DAY-NRLM

shahar ki livelihood — DAY-NULM

Trap — kram ulta hai: SJSRY (shahar, 1997) → SGSY (ganv, 1999): pehle shahar. par NRLM (ganv, 2011) → NULM (shahar, 2013): pehle ganv. dono kram alag-alag yaad rakhein.

startaap, staind up aur kaushal

yaad rakhne ka tarika: pehle startaap (shuru karo), phir staind up (khade ho jao) — naam ka kram hi tark hai.

09 insurance, penshan aur health yojanayein

Insurance, pension & health schemes (2005–2017)

is hisse mein sawal saal par bante hain — lagbhag sab kuch 2015 ke asapas hai, isliye ek taimalain bana lein.

varsh | yojana | mukhya baat
- 2005 | National Rural Health Mission (NRHM) | ganv mein health suvidha
- 2008 | rashtriya health insurance yojana (RSBY) | BPL families ke liye health insurance
- 2013 | National Urban Health Mission (NUHM) | pehle ganv (2005) → ab shahar
- 2014 | Mission Indradhanush | 7 diseases ke viruddh bachchon ka vaccination
- 2015 | PM suraksha insurance (PMSBY) | durghatna insurance — kam premium, Rs 2 lakh tak cover
- 2015 | PM jeevan jyoti insurance (PMJJBY) | jeevan insurance (life insurance) cover

- 2015 | Atal Pension Yojana (APY) | umr 18–40; 60 saal par penshan; PFRDA administered; isne “swavalamban yojana” ko badala; pati/patni ki mrityu par spouse ko penshan
- 2015 | PM jan medicine yojana | sasti gunavattapurn generic medicines
- 2015 | Beti Bachao Beti Padhao | Haryana se shuru — bal ling anupaat improve
- 2016 | malaria unmulan rashtriya infrastructure | 2016 ka target-infrastructure

2014–2017 ka tez taimalain: 2014 — swachh Bharat · 2015 — PM currency, sukanya samriddhi, startaap/staind up ki ghoshna, PMSBY, PMJJBY, APY · 2016 — ujjvala, e-NAM, startaap launch · 2017 — PM vandna/vyay, KISAN SAMPADA.

Trap — do bime: PMSBY = durghatna insurance, PMJJBY = jeevan insurance. dono 2015 ke hain, isliye naam aapas mein ulajh jate hain — “jeevan jyoti = jeevan insurance” yaad rakhein.

10 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact, ek-ek pankti mein. print/PDF se revision sheet nikal sakte hain.

• paribhasha — poverty = basic needs (roti, kapada, makan) poori na kar pana.
• vaishvik — poverty ka pehla vaishvik estimate — World Development Report 1990.
• do prakaar — relative (tulna/asamanta) aur absolute (nyoonatam zarurat). Bharat mein absolute vidhi.
• calorie — 2400 rural · 2100 urban (Planning Commission karyadal, 1979; aadhar varsh 1973-74).
• asamanta — Lorenz curve aur gini coefficient — aay-asamanta ke maap. gini: 0 = samanta, 1 = poorn asamanta.
• sen — Inequality-adjusted per capita income — Amartya Sen ka yogdan.
• Naoroji — “Poverty and UnBritish Rule in India” — Dadabhai Naoroji (tilak se milayein nahi).
• 1962 — July 1962 — Planning Commission ka pehla adhikarik prayas.
• 1971 — Dandekar evam Rath committee — pehli badi poverty committee.
• 1970s — P.S. Minhas aur P.D. Oza — vaikalpik estimate.
• 1989 — D.T. Lakdawala — rajya-vishisht poverty line, price index se jodi.
• 2009 — Tendulkar committee — 6 basic needs; estimate 21.9% (ganv 25.7%, shahar 13.7%).
• 2012 — Rangarajan committee — Rs 972 ganv / Rs 1,407 shahar per person/mah; estimate 29.5%.
• approval — government ne Tendulkar ki recommendation mani (21.9% kam dikhata hai).
• MPI — OPHI + UNDP; 3 aayam · 10 sanketak; 2010 se HDR mein HPI ki jagah.
• MPI bhar — education 1/3 · health 1/3 · jeevan-star 1/3 (chhah sanketak × 1/18).
• rashtriya MPI — NITI Aayog ka MPI — 12 sanketak (matri health aur bank khata extra).
• NFSA — 2013 — ganv 75%, shahar 50%, kul ~2/3 abadi cover.
• NFSA keemat — chaval Rs 3 · gehun Rs 2 · mota grain Rs 1 prati kilo; 5 kigra per person/mah.
• NFSA mukhiya — 18+ umr ki mahila family ki mukhiya; matritv labh Rs 6,000+.
• AAY — 2000 — 1 crore sabse garib family; ab 35 kigra prati family.
• NFSM — 2007 — NDC ke proposal se; chaval, gehun, dalahan utpadan.
• SAMPADA — 2017 — PM kisan sanpada yojana (food prosesing). PM-KISAN nahi.
• TRYSEM — 15 August 1979 — 18–35 varsh ke BPL rural yuvaon ka prashikshan.
• DWCRA — 1982-83 — rural BPL women ke liye SHG aadharit yojana.
• kram — IAY 1985 → JRY 1989 → PMRY/EAS 1993 → SJSRY 1997 → JGSY/SGSY 1999 → AAY 2000 → Bharat Nirman 2005 → NREGA 2006.
• MGNREGA — 2 February 2006, 200 district, Andhra Pradesh se; 2008 mein pure desh mein (J&K chhodakar).
• MGNREGA naam — 2009 mein “mahatma Gandhi” juda — pehle keval NREGA.
• MGNREGA provision — 100 din · 15 din mein kaam ya bhatta · 5 kimi radius (door ho to 10% zyada) · 1/3 women.
• MGNREGA phanding — unskilled wage 100% Centre · material 75% Centre · prashasan 6% · shram:material = 60:40.
• NRLM/NULM — NRLM 2011 → DAY-NRLM 2015; NULM 2013 (SJSRY 1997 ko badala); phanding 75:25.
• beneficiary — DAY-NRLM: 50% SC/ST, 15% alpasankhyak, 3% divyang.
• startaap — ghoshna 15 August 2015, launch 16 January 2016; staind up India launch 5 April 2016.
• insurance — PMSBY = durghatna insurance, PMJJBY = jeevan insurance (dono 2015).
• atal penshan — 2015 — umr 18–40, 60 par penshan, PFRDA dwara sanchalit.

12 abhyas question — 16 MCQ

Practice test with instant explanations

rashtriya aay

GDP/GNP/NDP/NNP · NFIA · deflator · grin GDP · teen measurement vidhiyan

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 rashtriya aay ki buniyad

Domestic territory · resident · factor income

ye chapter chhota hai, par sabse zyada number wala hai — yahan har sawal “GDP, GNP, NNP” ke formule par banta hai. lecture mein bhi saaf kaha gaya: “jitna zaruri hai, sirf utna hi padha raha hoon.”

shuruaat yahan se: pehle samjho domestic territory (gharelu kshetra) — kyunki GDP isi ke andar bani chizen ginta hai.

sthiti | kya Bharat ki GDP mein gina jaayega? | kyun

- Bharat mein bani ameriki dutavas ki imarat aur uski kamai | nahi | dutavas ki zamin us desh ka hissa mani jati hai — ye amerika ka sector hai
- amerika mein Bharatiya dutavas ki kamai | han | vo Bharat ka hissa hai — “dutavas par hamala = us desh par hamala”
- Bharatiya jahaz, havai jahaz, machhali pakadane wale jahaz, samudri tel-pletaform | han | ye Bharat ke gharelu kshetra (domestic territory) mein gine jate hain

yaad rakhne ki tarakib: dutavas mein “jiski zamin, uski GDP”. Bharat mein ameriki dutavas ke kamare mein paisa kamaya — vo amerika ki GDP mein jaayega, Bharat ki nahi.

factor aay (Factor Income) — chaar sadhan, chaar aay

in charon ko jod do = factor aay. aur ye aay samanya nivasi (normal resident) ko milni chahiye — isliye “kaun nivasi hai” ye bhi dekha jata hai.

Transfer income vs factor income: factor aay = kaam ke badale mili aay (vetan, lagan, byaaj, labh). transfer income = bina kaam ke mili aay (penshan, chhatravritti, upahar) — ise rashtriya aay mein nahi joda jata.

02 antim aur intermediate gooden

Final vs intermediate goods · value added · circular flow

GDP mein sirf final gooden gini jati hain — varna ek hi cheez kai baar gini jaegi (double counting).

lecture ka udaharan: maine ek markar kharida. agar main usse padhata hoon, to vo intermediate good hai — kyunki vo aage seva dene mein istemal ho raha hai. par agar main use apne niji upyog ke liye rakh lun, to wahi markar final good ban jata hai.

Trap: antim ya madhyavarti — ye cheez par nahi, upyog ke objective (purpose) par dependent hai. ek hi vastu do jagah do roop mein ho sakti hai.

price growth (Value Added)

aay ka chakriy pravah (Circular Flow)

ghar (household) aur farm ke beech vastuein-sevaen ek disha mein aur paisa doosri disha mein ghumta rehta hai — yahi circular flow of income hai. NCERT mein iska dayagram diya hua hai; pariksha mein question seedhe “kiske beech pravah” par aata hai.

2 = sector — household aur firm · 2 = pravah — vastu/seva aur dhan · 1 = hi chakra, dono dishaon mein

03 GDP — paribhasha aur formula

Gross Domestic Product & its expenditure formula

paribhasha: GDP = ek varsh mein gharelu kshetra (domestic territory) ke andar bani sabhi goods aur services ka bazaar price (monetary value).

sabse badi baat: GDP mein sector mayne rakhata hai, citizenship nahi. Bharat ki seema ke andar ameriki company ne

karakhana lagaya to uska utpadan Bharat ki GDP mein joda jaayega — chahe malik ameriki ho.

expenditure vidhi se formula (Expenditure Method)

GDP = C + I + G + (X − M) C = niji upbhog (private consumption) · I = investment · G = government expenditure · X − M = export − import (net exports)

ghatak | matlab | udaharan
- C | gharon ka kharch | roti, kapada, mobail, kiraya
- I | capital kharch | machine, factory, nayi imarat
- G | government ka kharch | sadak, salary, raksha
- X − M | videsh se net kamai | export mein se import ghatao

Trap — transfer ginti mein nahi: penshan, chhatravritti, unemployment bhatta GDP mein nahi jode jate — ye badale mein koi vastu/seva paida nahi karte. purani chizon ki bikri (second-hand) bhi nahi jodi jati.

04 GNP, NDP aur NNP

Gross/Net · Domestic/National · NFIA & depreciation

chaar chizen milkar poora khel banati hain: Gross/Net (depreciation) aur Domestic/National (citizenship).

concept | formula | yaad rakhne ki baat
- GDP | desh ki seema mein utpadan | sector aadharit
- NDP | GDP − depreciation | Net = Gross se ghisai hatao
- GNP | GDP + NFIA | NFIA = videsh se net factor aay
- NNP | GNP − depreciation | dono reform ek saath
- NNP at Factor Cost | NNPMP − indirect kar + subsidy | yahi “rashtriya aay” hai

NFIA kya hai: Net Factor Income from Abroad = Bharatiya citizens ki videsh se aay − videshiyon ki Bharat se aay. “kuch log bahar se akar Bharat mein bas gaye, kuch Bharat se bahar chale gaye — dono ka net asar dekhate hain.”

GDP banam GNP — ek lain mein: GDP mein sector mayne rakhata hai (Bharat ki seema mein jo bana), GNP mein citizenship (Bharatiya nagarik ne duniya mein kahin bhi banaya to Bharat ki GNP mein). isliye GNP = GDP + NFIA.

“Gross vs Net” ko ghar ke udaharan se: Gross salary aur Net salary ka farq — beech mein jo katata hai (yahan machines ki ghisai) wahi depreciation hai. use ghatao to “Net” aa jata hai.

reform / sateekta: lecture mein NNP ko kabhi “GNP mein se depreciation” to kabhi seedhe “GDP se” kaha gaya. sahi kram: GDP → (NFIA jodo) GNP → (depreciation ghatao) NNP. dono sudharon ka kram badalane se uttar nahi badalata, par pariksha mein formula theek vaisa hi likhein.

05 factor lagat banam bazaar keemat

Factor cost vs market price

ye pure chapter ka sabse zyada galat hone wala hissa hai — sirf ek formula yaad rakhna hai aur usmein kar/subsidy ka chinh (sign) nahi ulatna.

dono ka matlab: factor lagat (factor cost) = utpadan ki asli lagat — ismein sarkari kar-subsidy nahi jodi jati. bazaar keemat (market price) = grahak jo chukata hai — ismein kar jud jate hain aur subsidy ghat jati hai.

bazaar keemat = factor lagat + indirect kar − subsidy factor lagat = bazaar keemat − indirect kar + subsidy

sthiti | asar | kyun
- government indirect kar (GST) badhati hai | bazaar keemat badhti hai, factor lagat wahi rehti hai | kar grahak deta hai, utpadak ko nahi milta
- government subsidy deti hai | bazaar keemat ghatati hai | government grahak ki jagah kuch keemat chuka deti hai
- kar = subsidy | dono barabar | bazaar keemat = factor lagat

Trap — sabse am galati: log kar ko ghatate hain aur subsidy ko jodte hain. sahi hai: bazaar keemat se factor lagat par jane ke liye kar ghatao, subsidy jodo. yaad rakhein — “kar government leti hai (ghatao),

subsidy government deti hai (jode)”.

kaun-se kar gine jate hain: yahan sirf indirect kar (indirect tax — GST, excise duty) jode/ghatae jate hain, kyunki ve keemat mein shamil hote hain. ayakar jaise direct kar keemat ka hissa nahi hote.

06 anya aay avdharnayein

Personal income · disposable income · per capita · nominal vs real

Trap — personal income mein kya nahi jodte: korporet labh company ke malikon/sheyaradharakon ka hota hai, karmachari ka nahi; korporet kar government ka; samajik suraksha anshadan sharton ke baad milta hai. isliye teeno personal income se bahar.

nominal banam vastavik (Real) aay

prakaar | matlab | inflation ka asar

- nominal aay | chalu varsh ki prices par mapi gayi aay | inflation ka asar dikhata nahi — sankhya badi dikh sakti hai
- vastavik aay | inflation se samayojit (adjusted) aay | asli kray shakti dikhati hai

isliye kaha jata hai — “agar aay 10% badhi aur inflation bhi 10% rahi, to vastavik aay badhi hi nahi.”

ek lain mein: Nominal = jitna paisa mila · Real = us paise se kitna saman mila.

07 GDP deflator aur grin GDP

GDP deflator · green GDP

GDP deflator: ye GDP ka upyog karke inflation napta hai. formula: GDP Deflator = (nominal GDP ÷ vastavik GDP) × 100.

grin GDP: jab GDP mein paryavaraniya lagat (environmental cost) bhi jod/ghata di jati hai — yaani nature ko hue nukasan ka hisab bhi shamil kiya jata hai.

Trap: grin GDP ka matlab “agriculture/Green Revolution wali GDP” nahi hai — ye paryavaraniya lagat ko jodakar nikali gayi GDP hai. aur GDP deflator inflation napta hai, growth nahi.

08 rashtriya aay measure ki teen vidhiyan

Production · Income · Expenditure method

teeno tariqon se uttar ek hi ana chahiye — yahi “rashtriya aay ki teen vidhiyan” ka poora sar hai.

vidhi | kya jodte hain | yaad rakhne ki lain

- utpadan vidhi Production | price growth (value added) — output mein se intermediate consumption ghatakar | “kitna banaya”
- aay vidhi Income | lagan + wage + byaaj + labh (factor aay) | “kitna kamaya”
- expenditure vidhi Expenditure | C + I + G + (X − M) | “kitna kharch kiya”

Bharat mein kaun karta hai: aankde MoSPI / CSO (kendriya sankhyiki office) jari karta hai; GDP ki ganna mein mukhyatah utpadan aur expenditure vidhi ka istemal hota hai.

video ke bahar se, par pariksha mein aata hai: Bharat mein rashtriya aay ka pehla estimate Dadabhai Naoroji ne (1867-68) lagaya; pehli institutional koshish rashtriya aay committee, 1949 (chairman pi. si. Mahalanobis) ne ki; aj aadhar varsh 2011-12 hai. ye fact lecture mein nahi aaye, par PYQ mein dikhate hain.

09 number kaise bante hain — poora udaharan

Worked example: GDP → GNP → NNP → National Income

maan low kisi varsh: GDP (bazaar keemat) = Rs 1,000, depreciation = Rs 100, NFIA = Rs 50, indirect kar = Rs 80, subsidy = Rs 30.

charan | ganna | uttar

- GDPMP | diya hua | 1,000
- GDPFC | 1,000 − 80 + 30 | 950
- NDPMP | 1,000 − 100 | 900
- GNPMP | 1,000 + 50 | 1,050
- NNPMP | 1,050 − 100 | 950
- NNPFC = rashtriya aay | 950 − 80 + 30 | 900

dekha aapne?: GDPFC aur NNPMP donon 950 aaye — yahan sankhyaen jan-bujhakar aisi chuni gayi hain taaki aap apna uttar do tariqe se janch saken. pariksha mein har charan alag likhein, katauti-jod mein gadbad na ho.

panch sabse am jaal

pariksha pattern: “NNP at factor cost kise kehte hain?” → rashtriya aay. “GDP + NFIA = ?” → GNP. “GDP − depreciation = ?” → NDP. teeno seedhe ek-lain question hain.

10 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact formula-sahit. print/PDF se revision sheet nikal sakte hain.

• GDP — ek varsh mein desh ki seema ke andar bani sabhi goods-services ka bazaar price.
• GDP formula — C + I + G + (X − M)
• dutavas — Bharat mein ameriki dutavas ki kamai Bharat ki GDP mein nahi; amerika mein Bharatiya dutavas ki kamai Bharat ki GDP mein han.
• sector vs citizenship — GDP = sector aadharit · GNP = citizenship aadharit.
• NDP — GDP − depreciation
• GNP — GDP + NFIA (videsh se net factor aay)
• NNP — GNP − depreciation = GDP + NFIA − depreciation
• rashtriya aay — NNP at Factor Cost = rashtriya aay
• factor lagat — = bazaar keemat − indirect kar + subsidy
• factor aay — bhoomi → lagan, shram → wage, poonji → byaaj, udyam → labh
• final good — faisla upyog ke objective se — markar padhane mein = intermediate, khud ke liye = final
• price growth — Value of Output − Intermediate Consumption
• chakriy pravah — household aur firm ke beech vastu-seva aur dhan ka pravah
• vyaktigat aay — kar se pehle; ismein avitarit korporet labh, korporet kar, samajik suraksha anshadan nahi
• prayojy aay — Personal Income − direct kar
• per capita income — rashtriya aay ÷ population
• nominal — chalu prices par — inflation ka adjustment nahi
• vastavik — inflation se samayojit aay
• GDP deflator — (nominal GDP ÷ vastavik GDP) × 100 — inflation napta hai
• grin GDP — GDP mein paryavaraniya lagat jodakar nikali gayi aay
• teen vidhiyan — utpadan (value added) · aay (rent+wage+interest+profit) · expenditure (C+I+G+X−M)
• transfer — penshan, chhatravritti, bhatta — rashtriya aay mein nahi
• institution — aankde MoSPI/CSO jari karta hai; aadhar varsh 2011-12
• itihas — pehla estimate Dadabhai Naoroji (1867-68); rashtriya aay committee 1949 (chairman Mahalanobis)

keyboard: Tab se card chunein, Enter/Space se paltein.

12 abhyas question — 14 MCQ

Practice test with instant explanations

inflation

inflation ke prakaar aur kaaran · gap aur philips curve · CPI/WPI/PPI · 4% ± 2%

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 inflation kya hai?

Inflation · deflation · disinflation · reflation

ye chapter chaar shabdon ke farq par khada hai — inflation, deflation, disinflation, reflation. pariksha mein inhi charon ko aapas mein ulat-palat kar poocha jata hai.

inflation: jab prices badhti jaayein. lecture ka sidha udaharan: pehle koi cheez Rs 100 ki thi, ab Rs 104 ki ho gayi — yaani inflation ho gayi.

shabd | keemat ka hal | lecture ka udaharan
- Inflation inflation | prices badh rahi hain | Rs 100 → Rs 104
- Deflation deflation | prices ghat rahi hain | Rs 100 → Rs 98
- Disinflation raftar ghatna | inflation ho rahi hai, par uski raftar ghat rahi hai | Rs 100 → Rs 104 → Rs 112 → Rs 108 (rate ghati)
- Reflation punahsphiti | government/policy ki madad se mang ko phir se zinda karna | GST ki daren ghatai gain taaki log zyada khariden

Trap — deflation banam disinflation: Deflation mein prices neeche jati hain (Rs 100 → Rs 98). Disinflation mein prices upar hi jati hain, bas badhane ki rate slow ho jati hai. dono ko ek samajhna sabse am galati hai.

Reflation kab?: jab economy sust ho aur government chahe ki log kharch karein — kar ghatana, kharch badhana, byaaj rate ghatana. lecture mein yahi udaharan diya: “GST ke rets kat kar diye, taaki economy rivaiv ho aur log zyada demand karein.”

02 tivrata ke aadhar par prakaar

Creeping → walking → running → galloping → hyper

inflation ki gati dekhakar naam tay hota hai — slow se lekar bekabu tak.

prakaar | rate (lecture anusar) | matlab
- creeping | bahut kam / mild | halki inflation — economic growth ke liye zaruri bhi hai
- walking | 3%–10% | chalati hui inflation
- running | 10%–20% | Rs 100 ki cheez Rs 114 ki ho jaaye
- galloping | 20%–30% | bahut tez, daudti hui inflation
- hyper | poori tarah bekabu | “inflation bilkul out of control”

stagflation: teen chizen ek saath: sust growth (stagnant growth) + tez inflation (high inflation) + unchi unemployment (high unemployment). “logon ke pass paisa bhi nahi, inflation bhi high, aur growth bhi ruki hui” — yahi sabse bura sanyojan hai.

Trap: Stagflation ≠ sirf inflation. ismein teeno sharten zaruri hain — growth stagnant, inflation high, unemployment high. ek bhi chhuti to uttar badal jaayega.

reform: lecture mein haiparainaphleshan ka udaharan bolte samay ankada gadabada gaya (“Rs 100 ki cheez Rs 10 ki ho gayi, 60%”). manak paribhasha: haiparainaphleshan = inflation poori tarah niyantran se bahar (bahut tez, mahine-rate-mahine). pariksha mein “out of control” wali paribhasha hi likhein.

03 inflation ke kaaran

Demand-pull · cost-push · imported · structural · wage-price spiral

demand-pul (Demand-pull): mang zyada ho jane se keemat badhna. lecture ka udaharan: kovid ke samay achanak sabane sanitizer kharidna shuru kiya → mang badhi → keemat badh gayi.

kost-push (Cost-push): utpadan ki lagat badhane se keemat badhna. jaise salary badh gayi ya kachcha mal mahanga ho

gaya → lagat badhi → final prais bhi badha.

imported: bahar se aane wali cheez mahangi ho jaaye. udaharan: tel pehle Rs 100 ka aa raha tha, ab Rs 120 ka — to transaport mahanga, aur dudh-dahi-sabzi sab mahangi.

strakcharal (Structural): economy ki structural samasya (jaise apurti shrrinkhala ki kamazori) se paida inflation.

vej-prais spairal (Wage-Price Spiral): mazadur bole “salary badhao” → salary badhi → lagat badhi → biskit Rs 10 se Rs 12 ka ho gaya → ab mazadur ko phir laga ki inflation badh gayi, salary badhao → chakra chalata rehta hai. ise hi vej-prais spairal kehte hain.

Trap — pehchan kaise karein: agar kahani mein “log zyada kharidne lage” hai → demand-pull. agar “lagat/kachcha mal/salary badhi” hai → cost-push. agar “bahar se aaya saman mahanga hua” hai → imported.

04 khuli aur dabi inflation

Open vs suppressed inflation

lecture ki sidhi baat: “bhai inflation to hai, par usko kahin na kahin aisa dikhaya ja raha hai ki vo inflation hai hi nahi.”

teeno saath kyun aate hain: government keemat tay kar deti hai (price control) → cheez kam pad jati hai (rationing) → jo chahiye vo zyada dam par bahar milta hai (black market). isliye suppressed inflation ka doosra naam “chhipi hui inflation” hai — aankde kam dikhate hain, asar wahi rehta hai.

Trap: question mein agar “price niyantran / rashan / kalabazar” shabd aen, to uttar suppressed inflation hai — open nahi.

3 = sanket — price control, rationing, black market · 0 = ankadon mein dikhane wali inflation (dabi hui) · 100% = asar jeb par wahi

05 gap aur philips curve

Inflationary gap · deflationary gap · Phillips curve

inflationary gap: poorn employment (full employment) par economy jitna kama sakti thi usse zyada kama leti hai. lecture ka udaharan: kshamta Rs 100 ki thi, kamaya Rs 120 → Rs 20 ka extra = inflationary gap.

apasphitik gap (Deflationary Gap): poorn employment par kshamta Rs 100 ki thi, par kamaya sirf Rs 90 → Rs 10 ka deficit = deflationary gap.

gap | sthiti | asar
- Inflationary gap | kshamta se zyada utpadan/kharch | prices badhti hain
- Deflationary gap | kshamta se kam utpadan/kharch | unemployment aur susti badhti hai

philips curve (Phillips Curve): short-term (short run) mein inflation aur unemployment ke beech ulta sambandh (inverse relationship). inflation badhe → unemployment ghate; unemployment ghate → inflation badhe. “high inflation, low anaenployament.”

Trap: philips curve ka sambandh ulta hai, sidha nahi — aur ye short-term ke liye hai. long-term mein ye sambandh nahi mana jata.

dono gap ek lain mein: Inflationary = zyada kharch (Rs 120 vs Rs 100) · Deflationary = kam kharch (Rs 90 vs Rs 100). bas tulna Rs 100 (kshamta) se karani hai.

06 price index

CPI · WPI · PPI · GDP deflator

inflation kisi ek number se nahi napi jati — alag-alag index alag-alag star ki prices dekhate hain.

index | kis star ki prices | kise inflation lagati hai
- CPI (Consumer Price Index) | khudra (retail) — jo grahak chukata hai | am consumer
- WPI (thok price index) | thok (wholesale) star | vyapari/utpadak
- PPI (utpadak price index) | utpadak aur industry star | utpadak
- GDP deflator | poori economy | sab — par sabse chauda maap

CPI ke prakaar

kaun-sa sabse zaruri: monetary policy (RBI) mukhyatah CPI sanyukt ko dekhati hai, kyunki vo am aadmi ki inflation dikhata hai. WPI ki ganna vanijy Ministry karta hai, CPI ki sankhyiki Ministry (MoSPI).

reform / sateekta: lecture mein CPI ke kuch rupon ko “inflation” kah diya gaya. dhyan rakhein — CPI ek index hai, inflation usse nikali jati hai (CPI ki growth rate = inflation).

07 inflation target aur indekseshan

Inflation targeting · indexation

inflation lakshyikaran (Inflation Targeting): thodi inflation growth ke liye zaruri hai, isliye RBI ek target rakhata hai. 4% ± 2% — yaani inflation 2% se 6% ki renj mein rahani chahiye.

4% = target inflation rate · ±2% = upar-neeche ki chhoot · 2–6% = svikary renj

video ke bahar se, par pariksha mein aata hai: ye target RBI Act mein 2016 ke amendment ke baad tay hota hai; ise government RBI se salah karke tay karti hai aur monetary policy committee (MPC) — 6 members — is par nirnay leti hai. lecture mein sirf “RBI ka target 4% ± 2%” bataya gaya.

indekseshan (Indexation): “jaise-jaise inflation badhe, waise-waise salary bhi badhti jaaye.” isse karmachari ki asli kray shakti bachi rehti hai — khasakar sarkari karmachariyon ke DA (inflation bhatta) mein yahi tark hai.

sthiti | RBI am taur par kya karta hai

- inflation 6% se upar | byaaj daren badhata hai (inflation par lagam)
- inflation 2% se neeche / susti | byaaj daren ghatata hai (mang badhane ke liye)
- 2–6% ke beech | “aram ki sthiti” — balance banaye rakhata hai

Trap: target 4% hai, “4 se 6” nahi. ±2% ka matlab hai 2% se 6% ki renj — question mein aksar “4–6%” likhakar galat vikalp banaya jata hai.

is chapter ka sar ek lain mein: inflation badhna = inflation · ghatna = deflation · rate ka ghatna = disinflation · mang jagana = reflation · teeno bure saath = stagflation.

08 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact, ek-ek pankti mein. print/PDF se revision sheet nikal sakte hain.

- Inflation — prices badhna — Rs 100 → Rs 104
- Deflation — prices ghatna — Rs 100 → Rs 98
- Disinflation — inflation hai, par rate ghat rahi hai (104 → 112 → 108)
- Reflation — policy se mang jagana — jaise GST daren ghatana
- Stagflation — sust growth + tez inflation + unchi unemployment — teeno saath
- Creeping — mild inflation — growth ke liye zaruri
- Walking — 3%–10%
- Running — 10%–20% — Rs 100 ki cheez Rs 114
- Galloping — 20%–30%
- Hyper — poori tarah out of control
- Demand-pull — mang badhane se — jaise kovid mein sanitizer
- Cost-push — lagat badhane se — salary/kachcha mal mahanga
- Imported — bahar ka tel Rs 100 → Rs 120 → sab mahanga
- Structural — economy ki structural samasya se
- Spiral — vej-prais spairal — salary → lagat → keemat → phir salary
- Suppressed — price control + rationing + black market = chhipi inflation
- Inflationary gap — kshamta Rs 100, utpadan Rs 120 → Rs 20 ka extra
- Deflationary gap — kshamta Rs 100, utpadan Rs 90 → Rs 10 ka deficit
- Phillips curve — inflation aur unemployment mein ulta sambandh (short-term)
- CPI — khudra prices — rural, urban, sanyukt, AL, IW
- WPI — thok star ki prices
- PPI — utpadak aur industry star
- Deflator — (nominal GDP ÷ vastavik GDP) × 100
- Core — khadya aur fuel hatakar nikali inflation

• Headline — sabhi goods ko milakar kul inflation
• Target — 4% ± 2% → 2% se 6% ki renj
• Indexation — inflation ke hisab se salary/DA badhana
• RBI — target se nikle to byaaj daron se lagam lagata hai

10 abhyas question — 14 MCQ

Practice test with instant explanations

banking aur RBI

banking ka itihas · RBI 1935/1949 · M1–M4 · CRR/SLR/repo/OMO

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 Bharat mein banking ka itihas

Banking history: 1770 → 1935

lecture ki pehli lain hi yaad rakhne wali hai — “jo modern banking system hai, vo 1770 se shuru hota hai, Bank of Hindustan se.” yahan se lekar RBI tak ki poori sidhi pariksha mein seedhe tarikh-aadharit question deti hai.

Bank of Hindustan (1770): Bharat mein modern banking ki shuruaat isi bank se mani jati hai. iske baad Presidency Banks aaye — teen Presidency, teen bank.

bank | varsh | khas baat
- Bank of Hindustan bank of hindustan | 1770 | Modern banking ki shuruaat
- Bank of Bengal bank of Bengal | 1806 | pehla Presidency Bank
- Bank of Bombay bank of Bombay | 1840 | doosra Presidency Bank
- Bank of Madras bank of madras | 1843 | tisra Presidency Bank
- Oudh Commercial Bank avadh commercial bank | 1881 | pehla bharatiyon dwara sanchalit bank
- Punjab National Bank Punjab national bank | 1894 | pehla poorn Bharatiya bank

Trap — 1881 banam 1894: 1881 = Oudh Commercial Bank, jo pehla Indian-operated bank tha. 1894 = PNB, jo pehla fully Indian bank tha. question mein “first Indian bank” likhakar dono vikalp rakh diye jate hain — wahan PNB chunein.

video ke bahar se, par pariksha mein aata hai: 1921 mein teeno Presidency Banks milkar Imperial Bank of India bane, aur 1955 mein wahi State Bank of India ban gaya. iske baad 1969 mein 14 bade bank aur 1980 mein 6 bank rashtriyakrit hue — ye lecture mein nahi bola gaya, par banking ka sabse poocha jane wala fact hai.

yaad rakhne ka tariqa: Bengal 1806 → Bombay 1840 → madras 1843 — “Bengal pehle, phir Bombay, phir madras.” aur ant mein PNB 1894 — “pehla poorn Bharatiya.”

02 Reserve bank of India — establishment, Governor aur kaam

RBI: 1935 · Hilton Young · nationalisation 1949

RBI kisi samanya bank ki tarah nahi, balki “banks ka bank” hai. teen aankde zinda rakhein — 1 April 1935, 1 January 1949, 31 regional office.

establishment (1 April 1935): Hilton Young Commission ki recommendation par RBI bana — aur shuru mein ye ek private bank tha. isliye baad mein ise rashtriyakrit karna pada.

1 April 1935 = establishment · 1 January 1949 = nationalisation · 31 = regional office

question | uttar
- kiski recommendation par bana? | Hilton Young Commission
- headquarters | munbai
- pehla Governor | Sir Osborne Smith
- pehla Bharatiya Governor | C. D. Deshmukh
- shuru mein kis tarah ka bank? | Private bank — 1949 mein rashtriyakrit

RBI ke mukhya kaam (lecture ke shabdon mein):
1. currency jari karna aur use niyantrit karna ·
2. credit aur liquidity ko niyantrit karna ·
3. lender of last resort — kisi bank ko kahin se loan na mile to vo RBI ke pass aata hai ·
4. repo–reverse repo daren tay karna ·
5. commercial banks, NBFC aur microfinance ko regulate karna ·

6. payment aur digital mission, small finance bank jaisi pahalen.

Trap: RBI ki establishment 1935 hai aur nationalisation 1949. dono tarikhen ek hi varsh mein nahi hain — question mein “RBI ki establishment 1949 mein hui” likhakar jaal bichhaya jata hai, vo galat hai.

03 note kahan chhapate hain, coins kahan bante hain?

Note presses, mints & currency symbols

ek hi sawal baar-baar aata hai — chaar note pres aur chaar mint. dono ki List alag hai, isliye milana nahi hai.

kya chhapata/banta hai | kahan
- Bank notes note pres | nasik (Maharashtra)
- devas (madhy pradesh)
- haidarabad (telangana)
- Mysuru (Karnataka) — lecture mein “masuru” bola gaya
- Coins mint / mint | munbai
- kolakata
- haidarabad
- noeda

note par kya-kya badala: 1996 ke baad se notes par mahatma Gandhi ka portrait aata hai. usse pehle notes par ashok stanbh hua karta tha. Bharatiya karensi par 15 bhashaen dikhati hain. aur karensi ka Rs chinh do. uday kumar ne diya.

reform — “15 bhashaen”: lecture mein 15 bhashaen batai gayi hain. asal mein note par 15 bhashaen + Hindi + angrezi = kul 17 bhashaen hoti hain (angrezi aur Hindi dono taraf). question mein “15 bhashaen” vikalp ke taur par aata hai, to wahi chunein — par asli ginti 17 hai.

video ke bahar se, par poocha jata hai: Rs 1 ka note Bharat government (finance Secretary ke signature) jari karti hai; Rs 2 aur usse upar ke sabhi note RBI jari karta hai (Governor ke signature). coins bhi Bharat government jari karti hai, par vitaran RBI karta hai.

ek lain mein: note = nasik · devas · haidarabad · Mysuru | coins = munbai · kolakata · haidarabad · noeda. dono mein sirf haidarabad common hai.

04 bank kitne prakaar ke hote hain? RRB aur NABARD

Commercial banks · RRB 1975 · NABARD 1982

Bharat mein commercial banks do kanoonon ke ghere mein chalate hain — panjikaran Companies Act ke tahat, aur niyantran Banking Regulation Act 1949 ke tahat. isi beech RRB aur NABARD jaise alag tarah ke sansthan aate hain.

Commercial bank: jo bank Companies Act ke antargat panjikrit hote hain aur Banking Regulation Act 1949 se niyantrit hote hain. inamen scheduled/non-scheduled, public sector, private aur foreign banks sab aate hain.

prakaar | matlab | udaharan / khas baat
- Scheduled bank | RBI Act ki doosri Schedule mein naam | RBI se udhar lene ki suvidha
- Non-scheduled | Schedule mein naam nahi | chhote/regional bank
- Public sector | government ke swamitva mein | SBI — pehla aur sabse bada sarvajanik bank
- Private / Foreign | niji ya videshi malikana | HDFC, ICICI / Standard Chartered
- Cooperative | cooperative committee ke roop mein | jila cooperative bank
- RRB | rural ilaqon ke liye regional rural bank | 1975 mein shuru
- Payment bank / Small finance bank | nae tarah ke specialized bank | RBI ki pahal

RRB — Regional Rural Bank (2 aktubar 1975): Saraiya aur Narasimham Committee ki recommendation par bane. pehla RRB — Prathama Bank, uttar pradesh (Moradabad) mein. malikana hissa: Centre 50% + rajya 15% + sponsor bank 35%.

50% = Centre government · 15% = rajya government · 35% = sponsor bank

NABARD (1982, munbai): National Bank for Agriculture and Rural Development — agriculture aur rural

development ke liye shirsh (apex) bank. iski pahalen: Project E-Shakti aur Kisan Credit Card.

reform — NABARD “kaipeks bank” nahi, apex bank hai: transcript mein “kaipeks bank” likha aaya hai, jo ASR ki gadbad hai. sahi shabd apex institution hai — yaani sabse upar ki institution, jo neeche ke sansthanon ko dhan uplabdh karati hai.

Trap — NABARD seedhe loan nahi deta: aap NABARD ke daravaze par jakar kisan loan nahi le sakte. NABARD refinance karta hai — jaise RRB ke pass paisa kam pade to NABARD use refinance deta hai. ye sabse zyada poocha jane wala antar hai.

05 anya vittiya sansthayein aur vittiya bazaar

LIC · GIC · IRDA · UTI · NHB · SEBI · microfinance

“inka headquarter aur year yaad rakhna hai — yahan se direct question aa sakata hai.” lecture ka yahi kahna hai, to table ratane layak hai.

institution | varsh | headquarters | kaam
- LIC | 1956 | munbai | jeevan insurance
- UTI | 1964 | munbai | myuchual phand
- GIC | 1972 | munbai | samanya insurance
- NABARD | 1982 | munbai | agriculture aur rural refinance
- NHB | 1988 | New Delhi | Awaas finance
- SEBI | 1992 | munbai | security bazaar ka niyantran
- IRDA | 1999 | haidarabad | insurance niyantran

SEBI (1992): SEBI Act ke tahat bana, headquarters munbai, regional office kolakata, ahamadabad, Delhi aur chennai mein. kaam — stock exchange aur mutual fund ko niyantrit karna.

reform — SEBI ka janm 1988, kanooni shakti 1992: SEBI ki establishment 1988 mein hui thi (prashasnik body ke roop mein), aur 1992 mein SEBI Act ke zariye use vaidhanik shaktiyan milin. lecture mein sirf 1992 bola gaya — question mein “SEBI ki establishment” poochhe to 1988, “SEBI Act / vaidhanik darja” poochhe to 1992.

bazaar | period | niyantrak / udaharan
- Money market | 1 varsh se kam (short term) | RBI — call money, treasury bills
- Capital market | madhyam aur long-term | SEBI — shares, debentures
- Primary market | naya nirgam | company se seedhe share kharidna (IPO)
- Secondary market | pehle jari sheyaron ka karobar | NSE / BSE par kharid-bikri

NSE aur BSE: BSE sabse purana stock exchange hai, isne Sensex nikala (top 30 companies). NSE — headquarters munbai, isne Nifty 1996 mein shuru kiya.

sukshm finance (Microfinance): Bharat mein microfinance sabse pehle SEWA Bank ne gujarat mein shuru kiya. Micro-credit ke liye mohammad yunus ko nobel mila (rural bank, bangladesh).

reform — SEWA ka varsh: lecture mein “1947” bola gaya. asal mein SEWA sangathan 1972 mein aur SEWA Bank 1974 mein bana. pariksha mein “gujarat mein pehla microfinance” poocha jaaye to SEWA Bank hi uttar hai.

do skimen — do varsh: Banking Ombudsman Scheme — 1995: banking shikayat ko jaldi aur saste mein hal karne ke liye. Differential Rate of Interest (DRI) — 1972: sarvajanik sector ke banks ko kaha gaya ki kamazor varg ko 4% byaaj par loan dein.

06 money supply M1–M4, CRR aur SLR

Money supply measures & reserve ratios

Rs 100 bank mein aaya — usmein se kitna RBI ke pass jaayega, kitna bank apne pass rakhega aur kitna loan ke liye bachega? yahi CRR aur SLR ka poora khel hai.

CRR — Cash Reserve Ratio (lagbhag 4%): bank mein deposit Rs 100 mein se 4% yaani Rs 4 bank ko RBI ke pass naqad (cash) rakhna padta hai. is Rs 4 par bank ko koi byaaj nahi milta.

SLR — Statutory Liquidity Ratio (lagbhag 18%): Rs 100 mein se 18% yaani Rs 18 bank ko apne pass hi

alag rakhna hota hai (sarkari securities/sone ke roop mein). ye paisa RBI ke pass nahi jata, aur is par bank ko byaaj bhi milta hai.

Rs 100 ki deposit | raqam | kahan rehti hai | byaaj
- CRR 4% | Rs 4 | RBI ke pass, naqad | nahi
- SLR ~18% | Rs 18 | bank ke pass hi | han
- Loan ke liye bacha | Rs 78 | bazaar mein | bank kamata hai

money supply ke chaar maap:
M1 = Janata ke pass karensi + net demand deposits (jo kabhi bhi nikale ja saken) + RBI ke pass anya deposit — sabse zyada taral
M2 = M1 + dakaghar ki saving deposit
M3 = M1 + banks ki fixed deposits — ise broad money kehte hain
M4 = M3 + dakaghar ki deposit (kul)

lecture ki salah: “M1–M4 ratane ki zarurat nahi, shayad nahi poocha jaaye” — par M1 = narrow money aur M3 = broad money ye do baatein pariksha mein seedhe aati hain. M1 mein karensi + demand deposit hote hain, FD nahi.

Trap — CRR kiske pass, SLR kiske pass: CRR = RBI ke pass · SLR = bank ke apne pass. yahi ek lain sabse zyada galat hoti hai. yaad rakhein: “jo RBI ke pass jata hai vo CRR (Central bank), jo apne pass rehta hai vo SLR (Self).”

RBI daren badalati kyun hai?: agar RBI chahti hai ki bazaar mein zyada paisa jaaye, to SLR Rs 18 se ghatakar 15% kar degi — tab bank ke pass loan dene ke liye Rs 82 bachenge (Rs 78 ki jagah). paisa badhana hai to daren ghatao, paisa ghatana hai to daren badhao.

07 monetary policy ke tool — repo, reverse repo, OMO

Monetary policy instruments & objectives

monetary policy ka maksad ek hi hai — paise ki quantity ko aisa rakhna ki inflation kaabu mein rahe aur growth ruke nahi. RBI ke pass iske liye kai tool hain; har tool ka “tera-mera” samajh lein.

repo rate: maan low Kotak Mahindra Bank ko paise ki zarurat padi. vo RBI ke pass jaayega aur apni sarkari securities (government securities) girvi rakh dega; RBI badale mein paisa de dega. Repo = Repurchase Agreement — bank ko bhavishya mein paisa lautakar apni securities vapas leni hoti hain.

reverse repo: ulti sthiti — banks ke pass zyada paisa hai, to ve use RBI ke pass park kar dete hain; RBI unhen sarkari security deti hai aur byaaj deti hai. reverse repo rate repo se kam hoti hai aur iska kaam extra liquidity sokhna hai.

tool | kya hota hai | kiske liye
- Repo | RBI bank ko security ke badale paisa deti hai | bank ke pass paisa kam ho to
- Reverse repo | RBI bank se paisa lekar security deti hai | bazaar mein paisa zyada ho to
- MSF | SLR ki securities girvi rakhakar loan | jab aur security bachi na ho
- Bank rate | pehle discounting ke liye, ab penalty rate | shart poori na karne par jurmana
- OMO | RBI khula bazaar mein security kharidti/bechati hai | paisa badhana ya ghatana

OMO — Open Market Operation: RBI chahti hai ki bazaar mein paisa badhe (kyunki logon ke pass paisa nahi, mang nahi badh rahi) — to vo sarkari securities kharid legi aur bazaar mein paisa chhod degi. paisa ghatana hai to apni securities bech degi — log paisa denge, liquidity sukh jaegi.

Quantitative banam Qualitative: Quantitative — paise ki quantity seedhe niyantrit: bank rate, MSF, reverse repo, repo, CRR, SLR, OMO. Qualitative — credit ka bahav kisi khas sector ki or modna: “bhai, itna paisa to is sector ko dena hi dena hai” — margin requirement, credit rationing, moral suasion.

policy kab ghoshit hoti hai?: RBI saal mein 6 baar (har 2 mahine mein) monetary policy ki ghoshna karta hai — repo kitna, reverse repo kitna. faisla inflation/deflation ki sthiti dekhakar hota hai.

video ke bahar se, par pariksha mein aata hai: ye faisla monetary policy committee (MPC) leti hai — kul 6 members (3 RBI ke, 3 government dwara namit), chairman RBI Governor. target 4% ± 2% — batch 5 mein yahi vistar se padha tha.

ek lain mein poora tantr: inflation badhi → RBI repo/CRR/SLR badhati hai → loan mahange → mang ghatati → inflation ghatati. susti ai → ulta karti hai.

08 inflation ka asar aur depreciation

Who gains, who loses & devaluation vs depreciation

inflation sabke liye ek jaisi nahi hoti — koi kamata hai, koi harta hai. aur karensi ke price mein badalav seedhe export–import se juda hai.

kaun | inflation mein | deflation mein

- consumer | nuqasan — Rs 100 ki cheez Rs 105 ki | fayda — Rs 100 ki cheez Rs 98 ki
- lender | nuqasan — lautaya paisa kam qimat ka | fayda
- debtor | fayda — kam qimat chukakar qarz utara | nuqasan
- sthir aay wala (fixed income) | nuqasan — aay wahi, prices badhin | fayda

Lender vs debtor — lecture ka chaval wala udaharan: aj Rs 100 udhar diye aur us vaqt Rs 100 mein 2 kilo chaval aata tha. jab paisa vapas mila tab chaval Rs 70/kilo ho gaya — ab usi Rs 100 mein 2 kilo nahi aenge. yaani jisne paisa diya (lender) uska nuqasan, aur jisne liya (debtor) use fayda.

depreciation (Depreciation / Devaluation): ek pen Bharat mein Rs 10 ka hai aur $1 = Rs 50. tab USA wala Rs 50 mein 5 pen kharidta tha. ab dolar Rs 80 ka ho gaya — wahi Rs 50? nahi, wahi $1 ab 8 pen kharidega. yaani Bharat ka export badh jaayega. bazaar ki taqaton se rupya gire = depreciation; government/RBI janabujhakar girae = devaluation.

appreciation: ulta — dolar Rs 50 se Rs 40 ka ho gaya to USA wala 4 pen hi kharidega: export ghatega. aur import sasta ho jaayega — pehle $1 mein ek bairal tel Rs 50 mein milta tha, ab Rs 40 mein milega.

sthiti | Export | Import

- $1 = Rs 50 → Rs 80 (depreciation) | badhta hai | mahanga hota hai
- $1 = Rs 50 → Rs 40 (appreciation) | ghatata hai | sasta hota hai

reform — Bharat mein depreciation ke varsh: lecture mein “1949, 1969, 1991” bola gaya. sahi kram 1949, 1966 aur 1991 hai — 1966 mein rupees ka bada devaluation hua tha (1969 nahi). 1991 wala devaluation LPG sudharon ke saath juda hai.

Trap — depreciation banam devaluation: dono mein karensi ki qimat ghatati hai. farq kaaran ka hai: depreciation bazaar se apne aap, devaluation government/RBI ke faisle se. question mein “market forces” shabd aaye to depreciation.

09 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact, ek-ek pankti mein. print/PDF se revision sheet nikal sakte hain.

- First bank — Bank of Hindustan — 1770 (modern banking ki shuruaat)
- Bengal — Bank of Bengal — 1806, pehla Presidency Bank
- Bombay — Bank of Bombay — 1840
- Madras — Bank of Madras — 1843
- Oudh — Oudh Commercial Bank — 1881, pehla Bharatiya sanchalit
- PNB — Punjab National Bank — 1894, pehla poorn Bharatiya bank
- RBI — 1 April 1935, Hilton Young Commission ki recommendation
- Nationalisation — RBI ka nationalisation 1 January 1949
- RBI HQ — munbai · 31 regional office
- Governor — pehla Governor Sir Osborne Smith · pehla Bharatiya C. D. Deshmukh
- RBI role — Lender of last resort — banks ka akhiri sahara
- Note press — nasik · devas · haidarabad · Mysuru
- Mint — munbai · kolakata · haidarabad · noeda
- Rs 1 note — Bharat government jari karti hai, Rs 2 se upar RBI
- Gandhi — notes par Gandhi ji ka chitr 1996 se; pehle ashok stanbh
- Rs symbol — do. uday kumar (2010)
- Commercial bank — panjikaran Companies Act, niyantran Banking Regulation Act 1949
- SBI — pehla aur sabse bada sarvajanik sector bank

- RRB — 2 aktubar 1975 — Saraiya aur Narasimham Committee
- First RRB — Prathama Bank, uttar pradesh
- RRB share — Centre 50% · rajya 15% · sponsor bank 35%
- NABARD — 1982, munbai — refinance karta hai, seedhe loan nahi deta
- NABARD schemes — Project E-Shakti · Kisan Credit Card
- LIC — 1956, munbai — jeevan insurance
- GIC — 1972, munbai — samanya insurance
- IRDA — 1999, haidarabad — insurance regulator
- UTI — 1964, munbai — myuchual phand
- NHB — 1988, New Delhi — Awaas finance
- SEBI — establishment 1988, kanooni shakti 1992, munbai
- SEBI kaam — Stock exchange aur mutual fund ka niyantran
- BSE / NSE — BSE sabse purana, Sensex (30) · NSE ka Nifty 1996
- Microfinance — Bharat mein pehle SEWA Bank, gujarat · mohammad yunus ko nobel
- Ombudsman — Banking Ombudsman Scheme — 1995
- DRI — 1972 — kamazor varg ko 4% byaaj par loan
- CRR — ~4% — RBI ke pass naqad, byaaj nahi
- SLR — ~18% — bank ke pass hi, byaaj milta hai
- Repo — Repurchase Agreement — security girvi rakhakar RBI se loan
- Reverse repo — bank RBI ke pass paisa rakhe — liquidity sokhane ka tool
- MSF — SLR ki securities girvi rakhakar loan
- Bank rate — ab mukhya roop se penalty rate
- Policy — saal mein 6 baar — har 2 mahine mein ghoshna
- M1 / M3 — M1 = narrow money · M3 = broad money
- Money market — 1 varsh se kam period ka bazaar
- Capital market — madhyam/long-term — SEBI niyantrak
- Devaluation — Bharat mein 1949 · 1966 · 1991
- depreciation ka asar — Export badhta, import mahanga

11 abhyas question — 14 MCQ

Practice test with instant explanations

finance aur kar

fiscal policy · FRBM 2003 · Article 112/202 · VAT · GST · FTP 2023

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 fiscal policy kya hai?

Fiscal policy: taxation, expenditure, debt

lecture ki sabse sidhi paribhasha — “fiscal policy ka simple sa matlab hai taxation.” jaise RBI ki monetary policy hai, waise government ki fiscal policy hai.

Fiscal Policy: government ki ve policies jo public expenditure, taxation, public debt aur deficit financing se judi hon. government kar ke zariye bazaar mein paisa badhati-ghatati hai.

pahalu | Fiscal policy | Monetary policy
- kiski policy? | government (finance Ministry) | RBI
- mukhya tool | kar, sarvajanik kharch, udhari | repo, CRR, SLR, OMO
- sidha asar | mang aur aay par | paise ki apurti aur byaaj rate par

fiscal policy ke maksad (lecture ke shabdon mein):
1. sansadhanon ko achhe se jutana (resource mobilisation) ·
2. sansadhanon ka efficient allocation ·
3. price stability aur inflation par niyantran ·
4. employment paida karna ·
5. balanced regional development — kahin ek hi ilaqa developed na ho jaaye ·
6. capital formation.

Trap — dono policies ka malik kaun: Fiscal policy = government, Monetary policy = RBI. question mein “RBI ki fiscal policy” likhakar jaal bichhaya jata hai — RBI ki policy monetary hi hoti hai.

yaad rakhne ka tariqa: Fiscal = Finance Ministry (government) · Monetary = Money (RBI). dono ek hi target ki taraf — inflation kaabu mein, growth ruke nahi.

02 FRBM Act 2003 aur deficits ke prakaar

Fiscal discipline & deficits

2003 se pehle government bahut udhar le rahi thi. us par lagam lagane ke liye FRBM Act aaya — aur yahin se deficits (deficit) ke sawal shuru hote hain.

FRBM Act, 2003: Fiscal Responsibility and Budget Management Act — iska kanooni infrastructure fiscal deficit ko niyantrit karne ke liye bana. lecture mein kaha gaya: “fiscal deficit ka target rakha — ye GDP ke 3% se zyada nahi hona chahiye.”

2003 = FRBM Act · 3% = fiscal deficit ki seema (GDP ka) · 2016 = NK Singh Committee

NK Singh Committee (2016): isne sujhaya ki debt-to-GDP ratio 60% se zyada na ho — jismein Centre 40% aur rajya 20%. saath mein ek independent fiscal council banaya jaaye taaki is par monitoring rahe.

anupaat | seema
- kul debt-to-GDP | 60%
- Centre government | 40%
- rajya sarakaren | 20%

video ke bahar se, par pariksha mein aata hai: deficits chaar tarah ke poochhe jate hain — Fiscal deficit = kul kharch − kul aay (udhar chhodakar) · Revenue deficit = revenue kharch − revenue aay · Primary deficit = fiscal deficit − byaaj payment · Effective revenue deficit = revenue deficit − states ko diye capital grants. lecture mein sirf “fiscal deficit = budget wali video mein” kahakar chhoda gaya hai.

Trap — 3% aur 60% mein ulajhna nahi: 3% = fiscal deficit ki seema (FRBM 2003) · 60% = debt-to-GDP ka sujhav (NK Singh 2016). dono alag chizen hain aur alag samitiyon se judi hain.

03 budget — constitutional provision aur pehla budget

Budget: Article 112 / 202

lecture mein budget ki do hi baatein zor se boli gain — Article 112 (Centre) aur Article 202 (rajya), aur 1947 ka pehla budget.

question | uttar
- Centre ka budget kis Article mein? | Article 112 — “Annual Financial Statement”
- rajya ka budget kis Article mein? | Article 202
- svatantr Bharat ka pehla budget | R. K. Shanmukham Chetty — 26 November 1947

video ke bahar se, par pariksha mein aata hai: Railway budget ko 2017 mein am budget mein mila diya gaya. budget ke saath aane wale document — Finance Bill (kar proposal), Appropriation Bill (kharch ki approval), aur Macro Economic Framework Statement. 1 February ko budget pesh karne ki tradition 2017 se shuru hui (pehle February ke akhir mein).

budget kitne tarah ka hota hai?: Balanced budget — aay = kharch · Surplus budget — aay zyada · Deficit budget — kharch zyada. Bharat jaise developing desh mein am taur par deficit budget hi rehta hai, kyunki development ke liye udhar lena padta hai.

budget ke do hisse: Revenue budget — kar aur gair-kar aay, aur vetan-subsidy jaisa roz ka kharch. Capital budget — udhar, capital receipts aur sadak-bandh jaise capital expenditure. deficits ki ginti inhi do hisson se hoti hai.

ek lain mein: 112 = Centre · 202 = rajya · 1947 = pehla budget (Chetty). teen tarikhen-Article, ek hi sans mein yaad kar lein.

04 direct kar (Direct Taxes)

Income · Corporation · Capital gains

“Direct tax vo jo aap seedhe government ko dete ho.” lecture mein inki poori List boli gayi — aur saath mein ek bada apavad bhi.

Direct Tax: jo kar seedhe government ko chukaya jata hai aur jiska bhar tala nahi ja sakata — jaise income tax, corporation tax. Bharat mein direct tax bahut kam log dete hain.

kar | kis par? | kaun lagata hai
- Income Tax | vyakti ki aay | Centre government
- Corporation Tax | company ke munafe | Centre government
- Minimum Tax | companies par nyoonatam kar | Centre
- Capital Gains Tax | asset/share bechane ke labh par | Centre
- Wealth Tax | net velth par (ab hata) | Centre
- State Duty | stanp duty | rajya

Trap — agriculture aay par income tax nahi: “Agriculture par koi bhi income tax nahi lagata” — lecture ki saaf lain. par dhyan dein: agriculture aay par Centre income tax nahi leta; is par kar lagane ka adhikar rajya government ke pass hai (aur vyavahar mein lagbhag sabhi states ne chhoot di hai).

reform — jo kar ab hat chuke hain: lecture mein teen kar “abolish” batae gaye — Expenditure Tax, Estate Duty (uttaradhikar par) aur Wealth Tax. yaad rakhein: wealth tax 2015-16 se samapt kar diya gaya aur uski jagah super-rich par surcharge lagaya gaya. pariksha mein “kaun ab nahi hai” poocha jaaye to yahi teen.

yaad rakhne ka tariqa: Direct tax = “jiska bojh usi par” — jo kamata hai wahi deta hai. Indirect tax = “jo kharidta hai wahi deta hai” — isliye ise “gareeb ka tax” bhi kehte hain.

05 indirect kar (Indirect Taxes)

Excise · Customs · Service tax · VAT

“agar aap koi bhi product market se kharidte ho, agar aap ji rahe ho Bharat mein — to aap indirect tax de hi rahe ho.” isliye iska radius bahut bada hai.

Indirect Tax: jo kar goods aur services par lagata hai aur jiska bhar grahak par padta hai — jaise maigi ka

kar | kab lagata hai | khas baat
- Central Excise | vastu ke utpadan par | Bharat mein bani chizar
- Customs Duty | Import / Export par | seema par karte hi
- Service Tax | seva lene par | 1994–95 mein shuru
- GST | vastu aur seva ki supply par | 1 July 2017 se
- VAT | value addition par | rajya star ka kar

Ad valorem banam Specific duty: Ad valorem — value (qimat) ke hisab se lagane wala kar (jaise 18% GST). Specific duty — quantity ke hisab se, jaise prati tan ya prati litar.

VAT — Value Added Tax: kar sirf jodi gayi qimat par. lecture ka udaharan: Rs 100 ka bred kharida aur Rs 200 mein becha — value addition Rs 100 hua, VAT isi Rs 100 par. ye pehli baar frans mein aaya; Bharat mein sabse pehle Haryana (2003) aur uttar pradesh mein 2008 mein implemented hua.

Trap — VAT aur GST ek nahi: VAT rajya star ka kar tha aur sirf goods par lagata tha. GST uska bada roop hai — pure desh mein ek, aur vastu + seva dono par. question mein “VAT kahan pehli baar implemented” poochhe to Haryana, “GST kab implemented” poochhe to 1 July 2017.

06 GST — ek desh, ek kar

Goods & Services Tax · 101st Amendment

GST ka poora infrastructure teen aksharon mein samajh lein — CGST (Centre), SGST (rajya), IGST (inter-state).

GST kab aur kaise?: 1 July 2017 se, 101st Constitution Amendment Act ke zariye. ye ek hi kar hai jo goods aur services ki supply par lagata hai — pehle ke excise duty, seva kar, VAT aadi ki jagah.

kism | kaun lagata hai | kab
- CGST | Centre government | rajya ke andar ki supply
- SGST | rajya government | rajya ke andar ki supply
- IGST | Centre | antar-rajyiy (inter-state) trade

1 July 2017 = GST implemented · 101van = Constitution amendment · 0 · 5 · 12 · 18 · 28 = slab (%)

GST ke bahar kya hai?: lecture ki saaf lain — alkohal par aur diesel/petroleum utpadon par GST nahi lagata (panch petroleum excise GST ke dayre se bahar hain; un par rajya VAT aur Centre excise duty lagate hain).

video ke bahar se, par pariksha mein aata hai: GST Council — Article 279A ke tahat, chairman kendriya finance Minister. faisle 3/4 bahumat se hote hain, jismein Centre ka bhar 1/3 aur sabhi states ka milakar 2/3 vot. GST ko “one nation, one tax” bhi kaha jata hai.

Trap: GST 101st Constitution Amendment se aaya — “122van” ya “100van” likha vikalp galat hai. aur GST supply par lagata hai, sirf “utpadan” ya sirf “bikri” par nahi.

07 kar ki teen shaklen — regressive, proportional, progressive

Tax structures · PAN · Foreign Trade Policy 2023

kar ka naam nahi, uska infrastructure dekhie — aay badhane par rate badhti hai, ghatati hai, ya wahi rehti hai? isi se teeno naam tay hote hain.

kism | aay badhane par rate | kis par bhar zyada
- Regressive | ghatati hai | garib par zyada
- Proportional | wahi rehti hai (flat tax) | sab par barabar
- Progressive | badhti hai | amir par zyada

Regressive tax: “Tax rate decrease ho jaaye as income increases” — yaani jaise-jaise aay badhe, rate kam ho jaaye. isse bojh garib par zyada padta hai. Proportional mein flat rate rehta hai aur progressive mein aay badhane par rate bhi badhti hai.

PAN — Permanent Account Number: Income Tax Department jari karta hai. card par naam, date of birth, PAN number aur signature hote hain. bank khata, ITR, badi kharid — sab mein yahi pehchan hai.

videsh trade policy (Foreign Trade Policy) 2023 — 31 March 2023 ko piyush goyal ji ne launch ki. target — 2030 tak 2 triliyan dolar ka export. chaar stanbh: 1. incentives dena · 2. export promotion · 3. collaboration aur ease of doing business · 4. emerging areas mein export ke opportunities banana.

Trap — regressive ka ulta nahi samajhen: Regressive kar mein rate garib par kam nahi, balki bojh zyada hota hai (kyunki uski aay ka bada hissa kharch hota hai). question mein “regressive = amir par zyada bhar” likha ho to vo galat hai — vo progressive hai.

yaad rakhne ka tariqa: Regressive = Reverse (aay badhi, rate ghati) · Proportional = Plain/flat · Progressive = Progress (aay badhi, rate badhi).

08 chapter ka sar — tarikhen, Article aur antar

Quick revision table

poora chapter ek table mein —jo bhi padha, use yahan se pakka kar lein.

bindu | yaad rakhne wali baat

- Fiscal policy | government ki policy — tax, expenditure, debt, deficit financing
- Monetary policy | RBI ki policy — repo, CRR, SLR, OMO
- FRBM Act | 2003, fiscal deficit GDP ka 3% tak
- NK Singh Committee | 2016, debt-to-GDP 60% (Centre 40 + rajya 20), fiscal council
- Centre ka budget | Article 112
- rajya ka budget | Article 202
- pehla budget | R. K. Shanmukham Chetty, 1947
- Direct tax | Income, Corporation, Capital gains — bhar kamane wale par
- agriculture aay | Centre income tax nahi leta
- Indirect tax | Excise, Customs, Service tax, GST — bhar kharidne wale par
- Service tax | 1994–95 mein shuru
- Ad valorem vs specific | value vs quantity
- VAT | pehle frans mein; Bharat mein Haryana 2003, UP 2008
- GST | 1 July 2017, 101st Amendment
- GST ke hisse | CGST · SGST · IGST; slab 0/5/12/18/28
- GST ke bahar | alkohal aur petroleum excise
- kar ke dhanche | Regressive (garib par bhar) · Proportional (flat) · Progressive (amir par bhar)
- PAN | jari karta hai Income Tax Department
- FTP 2023 | 31 March 2023, target 2030 tak $2 triliyan export

is chapter ki teen sabse badi tarikhen: 2003 (FRBM) · 2016 (NK Singh) · 1 July 2017 (GST). aur do Article — 112 (Centre), 202 (rajya).

09 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact, ek-ek pankti mein. print/PDF se revision sheet nikal sakte hain.

- Fiscal policy — government ki policy — taxation, expenditure, debt, deficit financing
- Fiscal vs monetary — Fiscal = government · Monetary = RBI
- FRBM — 2003 — fiscal deficit ko niyantrit karne ka kanoon
- Fiscal deficit — GDP ke 3% se zyada nahi (FRBM target)
- NK Singh — 2016 — FRBM review committee
- Debt ratio — 60% debt-to-GDP — Centre 40% + rajya 20%
- Fiscal council — NK Singh ne independent fiscal council ka sujhav diya
- Article 112 — Centre ka budget — Annual Financial Statement
- Article 202 — rajya ka budget
- pehla budget — R. K. Shanmukham Chetty, 1947
- Budget types — Balanced (aay=kharch) · Surplus · Deficit
- Budget parts — Revenue hissa · Capital hissa
- Direct tax — seedhe government ko — bhar kamane wale par
- Income tax — Centre lagata hai
- agriculture aay — agriculture par income tax nahi; adhikar rajya ke pass
- Corporation tax — company ke munafe par, Centre dwara
- Capital gains — asset/share bechane ke labh par kar

• hate hue kar — Expenditure tax · Estate duty · Wealth tax
• Indirect tax — vastu/seva par — bhar kharidne wale par
• Central excise — vastu ke utpadan par
• Customs — Import aur Export par
• Service tax — 1994–95 mein shuru
• Ad valorem — value (qimat) ke hisab se
• Specific duty — quantity (quantity) ke hisab se
• VAT — value addition par; pehle frans mein
• VAT in India — Haryana 2003 · UP 2008
• GST — 1 July 2017
• GST kanoon — 101st Constitution Amendment Act
• GST hisse — CGST (Centre) · SGST (rajya) · IGST (antar-rajyiy)
• GST slab — 0 · 5 · 12 · 18 · 28 percent
• GST ke bahar — alkohal aur petroleum excise
• GST Council — Article 279A, chairman kendriya finance Minister (bahar se)
• Regressive — aay badhe to rate ghate — bhar garib par
• Proportional — Flat rate — sab par barabar
• Progressive — aay badhe to rate badhe — bhar amir par
• PAN — Income Tax Department jari karta hai
• FTP 2023 — 31 March 2023, piyush goyal
• FTP target — 2030 tak $2 triliyan export
• FTP ke 4 stanbh — Incentives · export promotion · ease of doing business · emerging areas

11 abhyas question — 14 MCQ

Practice test with instant explanations

agriculture aur industry

crops aur revolutions · bhoomi reform · agriculture bord · NFSA 2013 · steel plant · yojanayein

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 agriculture ka mahatv — ankadon mein

Agriculture: share in GDP, workforce & growth

lecture ki sabse pehli lain hi pariksha ka sawal hai — “1950 mein agriculture ka GDP mein 52% share tha, ab lagbhag 20%” aur “46% abadi kheti par dependent”.

52% = 1950 mein GDP mein hissa · ~20% = ab GDP mein hissa · 46% = abadi kheti par dependent

hissa ghatna achha hai ya bura?: economic drishti se achha — theory kahati hai ki jab kheti mein lagi abadi ka percent ghatata hai, to iska matlab log dusre utpadak kshetron (industry, seva) mein kaam kar rahe hain. par kheti par dependent 46% abadi abhi bhi bahut badi hai.

fact | ankada
- 1950 mein agriculture ka GDP mein hissa | 52%
- ab agriculture ka GDP mein hissa | lagbhag 20%
- kheti par dependent abadi | 46%
- sarvadhik agriculture shramik kis rajya mein | uttar pradesh — lagbhag 59.3%
- agriculture ko rinatmak growth kis yojana mein mili | tisri panchvarshiya yojana (1961–65)

tisri yojana mein rinatmak growth kyun?: un varshon mein chin se yuddh (1962) aur Pakistan se yuddh (1965) chal rahe the, saath mein sukha. isliye 1966 ke baad Green Revolution, “jay javan jay kisan” ka slogan aur khadyann mein self-reliance par zor diya gaya — lal bahadur shastri ji ke samay.

Trap — rinatmak growth ka matlab: “Negative growth” ka matlab utpadan ghatna hai — jaise pichhle saal 100 tan tha to is saal 98 tan. ye “growth slow hona” nahi, balki pichhe jana hai. kovid mein sabhi kshetron mein rinatmak growth thi, sirf agriculture ko chhodakar.

02 crops, revolutions aur “bullock capitalist”

Food vs commercial crops · revolutions

agriculture ke do bade divisions yaad rakhein — food crop (khud khane ke liye) aur commercial/cash crop (bechane ke liye), aur saath mein rangon wali revolutions.

crop | fact
- Rice | mukhya khadyann; sabse bada utpadak pashchim Bengal
- Wheat | sabse bada utpadak uttar pradesh
- Sugarcane | Bharat doosra sabse bada utpadak — brazil ke baad
- Coffee | desh ka 70% utpadan Karnataka se; vishv mein sabse bada utpadak brazil
- Black soil | kapas ke liye mashahur

Commercial / cash crop: jo crop bazaar mein bechane ke maksad se ugai jaaye — kapas, ganna, alu, repasid, jut, tanbaku, rabad, chay, kofi. Food crop (gehun, chaval) khud khane ke liye mani jati hai, bhale kuch bik jaaye.

revolution | kisse judi
- Green | khadyann — gehun, chaval
- Yellow | tilahan (oil seeds)
- Blue | matsy (fisheries)
- Silver | ande aur poultry
- Red | tamatar
- Silver fibre | kapas
- Golden fibre | jut
- Grey | urvarak (fertilizers)
- Brown | alu (potato)
- Pink | pyaz aur jhinga (onion, shrimp)

agriculture utpadon ki mang — inelastic. khane-pine ki zaruri chizon ki mang inelastic hoti hai: chaval Rs 50/kilo se Rs 90/kilo ho jaaye, to family 10 kilo ki jagah 8–9 kilo kharidega — par kharidega zarur. isliye zyada utpadan hone par bhi kisan ki aay/munafa gadabada jata hai.

Bullock capitalist: ve kisan jo “possess means but are not rich” hain — self-employed aur self-financed. bullock cart se mandi tak mal le jate hain, munafe ko zamin-trade-bail mein lagate hain aur dhire-dhire chhote zamindar ban jate hain. ye shabd Lloyd aur Susanne Rudolph ne 1987 mein gadha.

Trap: “kaun commercial crop hai?” mein alu, ganna, kapas, repasid — charon commercial hain. gehun-chaval ko food crop mana jata hai, isliye unhen commercial ki List mein na likhein.

03 bhoomi reform aur jot ka aakaar

Land reforms & land holding categories

bhoomi reform ke chaar-panch hisse hain, aur jot (holding) ki panch shreniyan — dono par direct question bante hain.

bhoomi reform ke ghatak:
1. zamindari unmulan — middlemen (intermediaries) hatana ·
2. bhoomi jot par siling — ek vyakti maximum itni hi zamin rakh sakata hai ·
3. Tenancy reform — kiraye par zamin lene valon (tenants) ke niyam ·
4. Security of tenure — kitne samay ke liye kiraya tay hai ·
5. Ownership on tenant — tenant ko malikana haq milega ya nahi.

shreni | jot ka aakaar
- Marginal | 1 hekteyar se kam
- Small | 1–2 hekteyar
- Semi-medium | 2–4 hekteyar
- Medium | 4–10 hekteyar
- Large | 10 hekteyar se zyada

Small aur marginal = 89%: Economic Survey ke anusar small aur marginal kisan milkar lagbhag 89% hain — isliye dono ko ek saath “small & marginal” kaha jata hai. Semi-medium aur medium zyadatar Punjab-Haryana jaise kshetron mein dikhate hain, aur large lagbhag nagany hai.

agriculture ki utpadakta kam kyun?:
1. bhoomi par population ka dabav ·
2. Disguised unemployment — ek chhote kaam par chaar log lage hain; teen ko hata dein to bhi koi farq nahi padega ·
3. jot ka aakaar chhota — bade measure (economies of scale) ka fayda nahi ·
4. inhi reasons se rural poverty bhi bani rehti hai, kyunki sabse zyada kisan ganvon mein rehte hain aur ganv kheti par dependent hai.

ek lain mein: poverty hatani hai to jis sector mein log sabse zyada lage hain, use behatar banao ya uska vikalp do — lecture ka yahi formula hai.

04 agriculture bord, export aur “virtual water”

Commodity boards · exports

“agar aapko agriculture bord yaad hai, to yahan se direct question aa jaayega.” saal + headquarters — dono poochhe jate hain.

bord | varsh | headquarters
- Coffee Board | 1942 | bengaluru
- Rubber Board | 1947 | kottayam (keral)
- Tea Board | 1954 | kolakata
- Tobacco Board | 1976 | guntur (Andhra Pradesh)
- Spices Board | 1987 | kochchi (keral)
- Fisheries Board | 2006 | haidarabad
- Meat & Poultry Board | 2009 | Delhi
- Grape Processing Board | 2009 | pune

- Jute Board | 2009 | kolakata

video ke bahar se, par pariksha mein aata hai: lecture mein ek “naya bord” bataya gaya jiska headquarters nizamabad (telangana) hai — vo National Turmeric Board hai, jo 2024 mein bana. isi tarah National Fisheries Development Board ka headquarters haidarabad mein hai, jabaki machhali export ka bord MPEDA kochchi mein.

question | uttar
- sabse zyada videshi currency kamane wala (kofi, basamati, kapas, chay mein se) | basamati chaval
- sabse valuable agriculture export | chaval
- pasandida am ki kism | alfanso
- malabari silk mein agrani rajya | Karnataka

Virtual water — varchual water: 1 kilo chaval ugane mein 3,000 se 5,000 litar paani lagata hai. jab hum vo chaval bahar bhejte hain, to asal mein hum paani bhi export kar rahe hote hain — isi ko virtual water kehte hain.

yaad rakhne ka tariqa: 42-47-54 — kofi 1942, rabar 1947, chay 1954. baad wale sab 2006-2009 ke asapas (machhali 2006, meet/angur/jut 2009).

05 khadya suraksha — NFSA 2013 aur “3A”

National Food Security Act

tarikh, percent, kilo aur rupees — charon ek saath yaad rakhne hain. 10 September 2013, 75 : 50, 5 kilo, Rs 2 / Rs 3 / Rs 1.

National Food Security Act (10 September 2013): lagbhag 80 crore logon ko riyayati rate par grain — 75% rural aur 50% urban abadi ko cover karta hai. har vyakti ko prati mah 5 kilo grain milta hai.

75% = rural coverage · 50% = urban coverage · 5 kilo = per person prati mah

grain | rate
- gehun | Rs 2 prati kilo
- chaval | Rs 3 prati kilo
- mota grain (coarse grain) | Rs 1 prati kilo

rashan card par kiska naam?: family ki sabse umradaraz mahila jiski ayu 18 varsh ya zyada ho, wahi head of household mani jati hai aur rashan card usi ke naam hota hai. women aur bachchon ke nutrition par vishesh dhyan diya gaya, kyunki hidden hunger ki samasya hai.

khadya suraksha ke aayam (3A + 2): Availability — grain uplabdh ho · Accessibility — pahunch mein ho (40 kimi door na jana pade) · Affordability — qimat vahaniy ho · iske alava Utilization aur Stability bhi aayam hain.

Trap — “Accountability” aayam nahi hai: question mein chaar options mein accountability dal diya jata hai — vo khadya suraksha ka aayam nahi hai. teen anivary aayam availability, accessibility, affordability hain.

chhota fact: Delhi pehla rajya tha jisne e-Ration Card seva shuru ki thi — lecture mein ise “current affairs” batakar halke mein chhoda gaya, par ek-pankti question ban sakata hai.

06 industry — steel plant, together sanyantr aur sansthan

Industry: steel plants & industrial centres

“kiski madad se bana?” — ye sawal steel plant par har saal aata hai. teen naam, teen desh.

steel plant | kis desh ki madad se | rajya
- bhilai | USSR (Soviet sangh) | chhattisagadh
- durgapur | UK (briten) | pashchim Bengal
- raurakela | Germany | odisha

steel plant kab shuru hue?: teeno bade steel plant doosri panchvarshiya yojana ke antargat banaye gaye — jiska model Mahalanobis tha aur jo bhari industry par zor deti thi.

vastu / sansthan | kahan

- Bharat ka pehla industry | kutir industry (cottage industry)
- National Newsprint Mill | nepanagar, madhy pradesh
- jut ka pramukh Centre | titagadh, pashchim Bengal
- resham (silk) | bengaluru
- un (wool) | Punjab
- kalin (carpet) | badohi, uttar pradesh
- Diamond Institute | surat

yaad rakhne ka tariqa: bhilai = USSR (“bhai Soviet”), durgapur = UK (durga mata ka mandir, briten), raurakela = Germany (kela kha raha hai — ro-kela).

saath mein ye bhi: WTO — 1995, jineva; Bharat 1995 se members · SAARC — 1985, kathamandu · ASEAN — 1967, jakarta · World Bank — 1945, vashingatan disi. batch 9 mein inhein vistar se padhenge.

07 rural development aur employment ki yojanayein

Rural development & employment programmes

“yahan se ya to chronology puchhi jati hai ya seedhe saal.” isliye poori List kram se yaad karein.

yojana | varsh | khas baat
- Community Development Programme (CDP) | 2 aktubar 1952 | samudayik development ki shuruaat
- Balwant Rai Mehta Committee | 1957 | panchayti raj ki recommendation
- Drought Prone Area Programme (DPAP) | 1973–74 | sukha-pravan sector
- Minimum Needs Programme | 1975 | nyoonatam needs
- Ashok Mehta Committee | 1977 | panchayti raj par doosri committee
- Food for Work Programme | 1977–78 | kaam ke badale grain
- TRYSEM | 1979 | rural yuvaon ka swarozgar prashikshan
- IRDP | 1980 | samanvit rural development
- NREP | 1980 | rashtriya rural employment
- Jawahar Rozgar Yojana (JRY) | 1989 | rural employment
- PMRY | 1993 | Prime Minister's Rozgar Yojana
- RIDF (NABARD) | 1995–96 | rural avsanrachna development kosh
- EGP | 1995 | employment srijan programme
- SJSRY | 1997 | urban employment (shahar pehle)
- SGSY | 1999 | svarn jayanti gram swarozgar
- PMGY | 2000–01 | gramoday yojana
- MGNREGA | 2005 (implemented 2006) | 100 din ka guaranteed employment
- NRLM → DAY-NRLM | jun 2011 | rural livelihood mishan

reform — MGNREGA ke din aur saal: lecture mein “125 din” bola gaya, par MGNREGA mein 100 din ka guaranteed employment hai. kanoon 2005 mein bana aur 2 February 2006 se implemented hua (pehle 200 districts mein, Andhra Pradesh se shuruaat).

S.K. Dey kaun?: samudayik development (community development) ka shilpakar inhi ko kaha jata hai. Bharat mein sahakarita aur panchayti raj se jude shuruati prayogon mein inka naam aata hai.

Trap — urban pehle, gram baad mein: SJSRY 1997 urban employment yojana hai aur SGSY 1999 rural — yaani “pehle shahar, phir ganv”. question mein in dono ko ulatakar poocha jata hai.

08 samajik sector — education, health, Awaas

Education · health · housing · sanitation

yahan saal aur naam-parivartan dono poochhe jate hain — khasakar Mid-Day Meal → PM POSHAN aur RTE 2009 vs implemented 2010.

yojana / kanoon | varsh | khas baat
- Mid-Day Meal Scheme | 1995 | 2021 mein naam PM POSHAN; education Ministry ke antargat
- Sarva Shiksha Abhiyan | 2001 | 6–14 varsh ke bachchon ki education
- Right to Education Act | 2009 (implemented 2010) | 6–14 varsh, muft aur anivary education
- Swachh Bharat Mission | 2 aktubar 2014 | swachhata aur shauchalay
- AMRUT | 2015 | urban avsanrachna
- Pradhan Mantri Awas Yojana | 2015 | sabke liye Awaas

- Samagra Shiksha | 2018 | SSA + RMSA + education ka integration
- PAHAL (LPG DBT) | 2014 | duniya ki sabse badi direct benefit transfer — giniz record
- Aam Aadmi Bima Yojana | 2007 | asangathit sector ka insurance
- Swavalamban | 2010 | asangathit sector ki penshan

PAHAL kyun mashahur?: LPG subsidy ko seedhe beneficiary ke khaate mein bhejne wali ye yojana duniya ki sabse badi direct benefit transfer mani gayi aur ise giniz varld record bhi mila.

Trap — do saal, ek kanoon: RTE Act bana 2009 mein, par implemented 1 April 2010 se hua. question mein “RTE kab implemented hua” poochhe to 2010, “kab parit hua” poochhe to 2009.

do jode yaad rakhein: 1995 → 2021 (Mid-Day Meal → PM POSHAN) aur 2001 → 2018 (SSA → Samagra Shiksha). dono “purana naam naya naam” wale question hain.

09 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact, ek-ek pankti mein. print/PDF se revision sheet nikal sakte hain.

• 1950 — agriculture ka GDP mein hissa 52%
• ab — agriculture ka GDP mein hissa lagbhag 20%
• abadi — 46% log kheti par dependent
• UP — sarvadhik agriculture shramik — 59.3%
• 3rd Plan — 1961–65 mein agriculture ki rinatmak growth
• 1966 — Green Revolution — “jay javan jay kisan”
• Rice — sabse bada utpadak — pashchim Bengal
• Wheat — sabse bada utpadak — uttar pradesh
• Sugarcane — Bharat doosra — brazil ke baad
• Coffee — desh ka 70% — Karnataka; vishv mein shirsh — brazil
• Black soil — kapas ke liye famous
• Cash crops — kapas · ganna · alu · repasid · jut · tanbaku · rabad · chay · kofi
• Green — khadyann (gehun, chaval)
• Blue — matsy (fisheries)
• Silver — ande aur poultry
• Golden fibre — jut
• Grey — urvarak (fertilizers)
• Bullock capitalist — Rudolph couple, 1987
• mang — agriculture utpadon ki mang inelastic hoti hai
• bhoomi reform — zamindari unmulan · siling · tenancy · security · ownership
• Marginal — 1 hekteyar se kam
• Small — 1–2 hekteyar
• Semi-medium — 2–4 hekteyar
• Medium — 4–10 hekteyar
• Large — 10 hekteyar se zyada
• 89% — Small + marginal farmers ka hissa
• Disguised — zarurat se zyada log ek hi kaam par
• Coffee Board — 1942 — bengaluru
• Rubber Board — 1947 — kottayam
• Tea Board — 1954 — kolakata
• Tobacco Board — 1976 — guntur
• Spices Board — 1987 — kochchi
• Fisheries Board — 2006 — haidarabad
• Meat & Poultry — 2009 — Delhi
• Grape Board — 2009 — pune
• Jute Board — 2009 — kolakata
• Turmeric Board — 2024 — nizamabad (bahar se)
• Export — sabse zyada videshi currency — basamati chaval
• am — pasandida kism — alfanso; resham — Karnataka
• Virtual water — 1 kilo chaval = 3,000–5,000 litar paani
• NFSA — 10 September 2013 — 75% rural, 50% urban
• rashan — 5 kilo per person prati mah

• daren — gehun Rs 2 · chaval Rs 3 · mota grain Rs 1
• mukhiya — 18+ ki sabse umradaraz mahila
• 3A — Availability · Accessibility · Affordability (+ utilization, stability)
• aayam nahi — Accountability khadya suraksha ka aayam nahi
• Bhilai — USSR ki madad — chhattisagadh
• Durgapur — UK ki madad — pashchim Bengal
• Rourkela — Germany ki madad — odisha
• pehla industry — kutir industry · Newsprint — nepanagar (MP)
• Centre — jut titagadh · kalin badohi · un Punjab · Diamond surat
• WTO — 1995, jineva; Bharat 1995 se members
• SAARC / ASEAN — SAARC 1985 kathamandu · ASEAN 1967 jakarta
• World Bank — 1945, vashingatan disi
• CDP — 2 aktubar 1952 · S.K. Dey shilpakar
• panchayti raj — Balwant Rai Mehta 1957 · Ashok Mehta 1977
• TRYSEM / IRDP — 1979 · 1980 (NREP bhi 1980)
• JRY / PMRY — 1989 · 1993
• SJSRY / SGSY — 1997 urban · 1999 rural
• RIDF — 1995–96, NABARD ke antargat
• MGNREGA — 2005 kanoon, 100 din employment
• NRLM — jun 2011 → DAY-NRLM
• Mid-Day Meal — 1995 → PM POSHAN 2021
• SSA → Samagra — 2001 → 2018
• RTE — kanoon 2009, implemented 2010 — 6–14 varsh
• Swachh Bharat — 2 aktubar 2014 · AMRUT aur PMAY 2015
• PAHAL — 2014 — LPG DBT, giniz record

10 flashcard — 20 shabd, 20 uttar

Flip cards · crops, boards & schemes

card par klik/taip karein — palatakar uttar dikhega. pehle khud sochen, phir paltein.

crops, bord aur bhoomi

khadya suraksha, industry aur yojanayein

keyboard: Tab se card chunein, Enter/Space se paltein.

11 abhyas question — 14 MCQ

Practice test with instant explanations

health aur yojanayein

HDI 130/193 · GNH · NHP 1983 → ayushman · kaushal · janadhan · 2015 ki yojanayein

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 HDI aur khushhali ke index

Human Development Index · GNH

“Bharat ki rank kitni hai?” — ye sawal har saal aata hai. HDI ke teen aayam aur navintam rank, dono zabani yaad hone chahiye.

HDI ke teen aayam:
1. Health — janm ke samay jeevan pratyasha (life expectancy at birth) ·
2. Education — average aur apekshit skuli varsh (mean & expected years of schooling) ·
3. Standard of living — per capita income (GNI per capita).

130 = Bharat ki rank (HDR 2025) · 193 = kul desh · 3 = HDI ke aayam

report ka shirshak bhi poocha jata hai: HDR 2025 ka shirshak — “A Matter of Choice: People and Possibilities in the Age of AI”. lecture ki salah: “rank 130 hai, ye question chhapega — chhap gaya samajh low.”

Gross National Happiness (GNH): bhutan ne 1972 mein apanaya — tatkalin raja Jigme Singye Wangchuck. ye teen baton par aadharit hai — life satisfaction, life expectancy aur environment.

Trap — HDI kaun nikalta hai: HDI UNDP ki Human Development Report mein aata hai — vishv bank ya IMF ki report mein nahi. aur HDI mein “khushi” ya “asamanta” aayam nahi hai; ve alag index hain.

ek lain mein: HEALTH + EDUCATION + LIVING STANDARD = HDI · 130/193 = Bharat · UNDP = jarikarta · GNH = bhutan 1972.

02 health policy aur mishan

Health policy & missions (1975–2020)

health ki yojanaon mein sabse zyada ulajhan 1975, 2005 aur 2011 mein hoti hai — ye teeno ek hi kahani ke teen padav hain.

policy / yojana | varsh | kiske liye
- Integrated Child Development Services (ICDS) | 1975 | bachchon aur mataon ka nutrition
- National Health Policy | 1983 | pehli baar rashtriya health policy
- National Rural Health Mission (NRHM) | 2005 | rural health — policy ke lagbhag 22 saal baad
- Janani Suraksha Yojana (JSY) | 2005 | surakshit prasav ko protsahan
- Janani Shishu Suraksha Karyakram (JSSK) | 2011 | man aur navajat — JSY ke 6 saal baad
- Mission Indradhanush | 2014 | vaccination (immunisation)
- Ayushman Bharat | 2018 | health insurance — PM-JAY
- PM Garib Kalyan Package | 2020 | kovid mein health karmiyon ka insurance

kahani ek lain mein: pehle sirf policy ai (1983), phir socha “ganv ke liye alag honi chahiye” — isliye NRHM 2005. usi saal JSY, aur 6 saal baad JSSK — yaani man ka bhi, shishu ka bhi.

yaad rakhne ki trick: ICDS 1975 = “ek saath 5 bachchon ki dekhrekh” · JSY 2005 = man · JSSK 2011 = man + shishu.

Trap: “National Health Policy kab ai?” ka jawab 1983 hai — 2002 ya 2017 wale amended sanskaran bhi hain, par pehli policy 1983 ki hai. aur NRHM 2005, NHP 2005 nahi.

03 kaushal development aur atal innovation mishan

Skill development

kaushal development ke do saal alag-alag hain — Ministry aur mishan ka. yahi sabse zyada gadabadaya jata hai.

Skill Development Mission: 2015 mein aaya aur Ministry of Skill Development and Entrepreneurship ke antargat aata hai (Ministry 2014 mein bana). pehle 2007 mein ek “Skill Development Initiative” bhi thi, par pariksha mein mishan 2015 hi poocha jata hai.

Atal Innovation Mission (AIM): NITI Aayog ki flagship yojana — school aur kolej star par navachar aur udyamashilta (Atal Tinkering Labs).

World Youth Skills Day: har saal 15 July ko manaya jata hai — lecture mein ise “ek lain, bas yaad rakho” kaha gaya.

Trap — 2014 banam 2015: Ministry of Skill Development & Entrepreneurship = 2014 · Skill Development Mission = 2015. question mein “mishan kab shuru hua” poochhe to 2015.

04 vittiya samaveshan — “sabke khaate mein paisa”

Financial inclusion & the 2015 story

lecture mein ise “pure paper ki sabse important scheme-lain” kaha gaya. kahani 2014 se shuru hoti hai — nayi government ai, to pehle sabke khaate mein paise bheje.

Pradhan Mantri Jan Dhan Yojana (2014): har family ka bank khata — vittiya samaveshan ki ninv. isi saal Make in India bhi aaya, taaki desh self-reliant bane.

yojana | varsh | kiske liye
- Jan Dhan Yojana | 2014 | bank khata / vittiya samaveshan
- Mudra Bank / Mudra Yojana | 2015 | chhote karobar ko loan
- PM Jeevan Jyoti Bima Yojana | 2015 | jeevan insurance (18–50 varsh)
- PM Suraksha Bima Yojana | 2015 | durghatna insurance
- Atal Pension Yojana | 2015 | asangathit sector ki penshan
- Sukanya Samriddhi Yojana | 2015 | balika ki saving
- Stand Up India | 2016 | SC/ST aur mahila udyami

kahani ki tarah yaad karein: khata khula (Jan Dhan 2014) → beti paida hui (Beti Bachao 2015) → uski saving (Sukanya 2015) → ghar mila (PMAY 2015) → suraksha ke liye insurance (Jeevan Jyoti / Suraksha 2015) → karobar ke liye loan (Mudra 2015) → ganv mein electricity (DDUGJY 2015). ek hi saal mein poori zindagi ki yojanayein.

Trap — 2014 banam 2015: Jan Dhan aur Make in India = 2014; Mudra, Jeevan Jyoti, Suraksha, Atal Pension, Sukanya, PMAY, AMRUT, DDUGJY, Sugamya = 2015. question mein “kaun 2014 ki hai” poochhe to Jan Dhan chunein.

05 beti bachao, beti padhao aur bal kalyan

Beti Bachao · Sukanya · ICDS

“Haryana mein sex ratio achha nahi tha, to panipat se shuruaat ki gayi” — is ek vakya mein do fact hain: 2015 aur panipat.

Beti Bachao Beti Padhao (2015): balika janm ko protsahan aur uski education. shuruaat panipat, Haryana se hui, kyunki wahan sex ratio kam tha.

Sukanya Samriddhi Yojana (2015): balika ke naam par saving khata — education aur vivah ke kharch ke liye. BBBP ke saath hi shuru hui, isliye dono 2015 mein yaad rakhein.

ICDS (1975) — jodne wali kadi: bal kalyan ki sabse purani yojana — anganavadi ke zariye bachchon, pregnant women aur mataon ko nutrition. janani suraksha (2005) aur janani shishu suraksha (2011) ise aage badhati hain.

teen saal, ek sidhi: 1975 ICDS (bachcha) → 2005 JSY (man) → 2011 JSSK (man + shishu). iske upar 2015 mein BBBP aur sukanya.

06 Awaas, shahar, electricity aur paani

Housing · urban · energy · water

“shahar ki zindagi behatar banane ke liye” AMRUT, “divyangon ke liye” sugamy Bharat, “ganv mein

yojana | varsh | kaam
- Swachh Bharat Mission | 2 aktubar 2014 | swachhata
- Pradhan Mantri Awas Yojana | 2015 | sabke liye Awaas
- AMRUT | 2015 | urban avsanrachna
- Sugamya Bharat Abhiyan | 2015 | divyangajanon ke liye sugamyata
- Deendayal Upadhyaya Gram Jyoti Yojana | 2015 | rural vidyutikaran
- Pradhan Mantri Ujjwala Yojana | 2016 | muft LPG kanekshan
- Jal Jeevan Mission | 2019 | har ghar nal se jal

Sugamya Bharat (Accessible India): divyangajanon ke liye sarvajanik bhavanon, parivahan aur vebasaiton ko sugamy banana — 2015 mein shuru, divyangajan adhikar Act 2016 se juda.

Trap — Ujjwala 2016, 2015 nahi: 2015 ki lanbi List mein Ujjwala ko mila dena sabse am galati hai. Ujjwala 2016 ki hai (uttar pradesh ke baliya se shuru).

07 insurance, penshan aur samajik suraksha

Insurance · pension · social security

samajik suraksha mein teen jode yaad rakhein — 2007/2010 ka purana joda, 2014/2015 ka naya joda, aur 2015 ka insurance-trayi.

yojana | varsh | cover
- Aam Aadmi Bima Yojana | 2007 | asangathit sector ke shramikon ka insurance
- Swavalamban | 2010 | asangathit sector ki penshan (APY ka purvavarti)
- PAHAL (LPG DBT) | 2014 | subsidy seedhe khaate mein — giniz record
- PM Jeevan Jyoti Bima | 2015 | jeevan insurance — 18 se 50 varsh
- PM Suraksha Bima | 2015 | durghatna insurance — 18 se 70 varsh
- Atal Pension Yojana | 2015 | 18 se 40 varsh — 60 ke baad penshan
- Pradhan Mantri Fasal Bima Yojana | 2016 | crop insurance

APY ki teen sankhyaen: pravesh ayu 18–40 varsh · penshan 60 varsh se · regulator PFRDA. swavalamban (2010) isi ki purvavarti yojana thi.

Fasal Bima (2016): prakritik apda, kit aur rog se crop nuqasan par insurance — premium mein kisan ka hissa bahut kam, baki government uthati hai.

Trap — teen insurance ek saal mein: Jeevan Jyoti (jeevan), Suraksha (durghatna) aur Atal Pension — teeno 2015 mein, par alag-alag umr seema ke saath. umr puchhi jaaye to jeevan insurance 18–50, durghatna 18–70, APY 18–40.

08 chapter ka sar — saal ke hisab se

Quick revision timeline

pure chapter ko saal ki sidhi par rakh dein — 1975 se 2020 tak.

saal | kya hua
- 1972 | bhutan ne GNH apanaya
- 1975 | ICDS — bachchon aur mataon ka nutrition
- 1983 | pehli National Health Policy
- 2005 | NRHM aur Janani Suraksha Yojana
- 2007 | Aam Aadmi Bima Yojana
- 2010 | Swavalamban (penshan)
- 2011 | Janani Shishu Suraksha Karyakram
- 2014 | Jan Dhan · Make in India · PAHAL · Mission Indradhanush · Swachh Bharat
- 2015 | Skill Mission · Mudra · Jeevan Jyoti · Suraksha · Atal Pension · Sukanya · BBBP · PMAY · AMRUT · Sugamya · DDUGJY
- 2016 | Ujjwala · Fasal Bima · Stand Up India
- 2018 | Ayushman Bharat
- 2019 | Jal Jeevan Mission · HDI rank ki charcha
- 2020 | PM Garib Kalyan Package

is chapter ke teen sabse zyada poochhe jane wale: HDI 130/193 · 2015 ki yojanayein (Mudra, APY,

Sukanya, BBBP, PMAY) · ICDS 1975 / NRHM 2005 / Ayushman 2018.

akhiri Trap: 2015 ki List mein Ujjwala aur Fasal Bima nahi aate — dono 2016 ke hain. aur Ayushman 2018, Jal Jeevan 2019.

09 fact sheet — antim 10 minat ka revision

One-line fact sheet

pure chapter ke pariksha-yogya fact, ek-ek pankti mein. print/PDF se revision sheet nikal sakte hain.

- HDI — teen aayam — health, education, standard of living
- Bharat — HDI rank 130 (193 deshon mein), HDR 2025
- HDR shirshak — “A Matter of Choice: People and Possibilities in the Age of AI”
- jarikarta — UNDP
- GNH — bhutan, 1972 — raja Jigme Singye Wangchuck
- GNH aadhar — life satisfaction · life expectancy · environment
- ICDS — 1975 — bachchon aur mataon ka nutrition (anganavadi)
- NHP — pehli National Health Policy — 1983
- NRHM — 2005 — rural health mishan
- JSY — 2005 — janani suraksha yojana
- JSSK — 2011 — janani shishu suraksha programme
- Indradhanush — 2014 — vaccination mishan
- Ayushman — 2018 — health insurance (PM-JAY)
- PMGKP — 2020 — kovid mein health karmiyon ka insurance
- Skill Mission — 2015; Ministry 2014
- AIM — Atal Innovation Mission — NITI Aayog
- 15 July — World Youth Skills Day
- Jan Dhan — 2014 — har family ka bank khata
- Make in India — 2014
- Mudra — 2015 — chhote karobar ko loan
- Jeevan Jyoti — 2015 — jeevan insurance, 18–50 varsh
- Suraksha Bima — 2015 — durghatna insurance, 18–70 varsh
- Atal Pension — 2015 — 18–40 varsh, 60 par penshan, PFRDA
- Sukanya — 2015 — balika ki saving
- BBBP — 2015 — shuruaat panipat se
- Stand Up India — 2016 — SC/ST aur mahila udyami
- PMAY — 2015 — sabke liye Awaas
- AMRUT — 2015 — urban avsanrachna
- Sugamya Bharat — 2015 — divyangajanon ke liye sugamyata
- DDUGJY — 2015 — rural vidyutikaran
- Ujjwala — 2016 — muft LPG kanekshan
- Jal Jeevan — 2019 — har ghar nal se jal
- Swachh Bharat — 2 aktubar 2014
- AABY — 2007 — asangathit shramikon ka insurance
- Swavalamban — 2010 — asangathit sector ki penshan
- PAHAL — 2014 — LPG DBT, giniz record
- Fasal Bima — 2016 — crop insurance yojana

10 flashcard — 20 shabd, 20 uttar

Flip cards · years & schemes

card par klik/taip karein — palatakar uttar dikhega. pehle khud sochen, phir paltein.

saal aur index

yojana aur maksad

keyboard: Tab se card chunein, Enter/Space se paltein.

11 abhyas question — 14 MCQ

Practice test with instant explanations

bahy sector aur population

BoP · vinimay rate · FEMA · IMF–World Bank · WTO · census 2011 · PYQ committees

Is batch ke flashcards aur test is PDF ke andar hi diye gaye hain (neeche).

01 balance of payments (BoP) ka infrastructure

Balance of Payments · current & capital account

BoP ka matlab sirf itna hai — poori duniya ke saath hamara hisab: kiske saath deficits mein hain, kiske saath fayde mein. baqi sab isi ki shakhaen hain.

do khaate, bas do:
Current account = merchandise (goods ka export–import) + invisibles (services, factor income, transfers).
Capital account = bahar se poonji ka ana-jana — FDI/FPI, external commercial borrowing, NRI deposits.

shabd | matlab | yaad rakhne ki baat
- Balance of trade | sirf goods ka export − import | sabse chhota hissa
- Net exports | Export − Import | BoT ka hi doosra naam
- Current account deficit (CAD) | import of goods + services > export | Rs 200 mangaya, Rs 100 becha → Rs 100 CAD
- Visible | goods (jo dikhate hain) | Visible = merchandise
- Invisible | services + income + transfers | Invisible export = services ka export
- Factor income | land, labour, capital, entrepreneur se kamai | Interest, profit, rent, wages
- Transfer | gift · grant · remittance | badale mein kuch nahi milta
- Capital account | FDI, FPI, ECB, NRI deposits | ECB ko RBI regulet karta hai

2 = BoP ke khaate · RBI = ECB ka regulator · CAD = Current Account Deficit

lecture ki mukhya lain: “mostly hamara current account negative rehta hai, but capital account positive rehta hai — to overall hamara positive mein aa jata hai.” yahi poora BoP hai.

Trap — tariff aur drawback: Tariff = seema par karte saman par tax, jo domestic industry ko bachane ke liye lagata hai (danping ke samne). Rs 50 ka desi saman, chin Rs 20 ka de raha → government Rs 30 tax lagakar dono ko 50-50 par le aati hai. Duty drawback = niryatak ko import duty ka refund.

ek lain mein: BoP = Current + Capital · Current = merchandise + invisibles · Capital = FDI/FPI/ECB/NRI · ECB → RBI.

02 rupees ki parivartaniyta aur vinimay rate

Convertibility · exchange rate · devaluation · FEMA 1999

yahan zyadatar galati depreciation aur devaluation mein hoti hai — farq sirf itna hai ki kaun gira raha hai.

parivartaniyta (convertibility):
Current account — poori convertibility, 1994 mein hasil. aap jitna chahe currency badalava lein — koi seema nahi.
Capital account — poori nahi; bahar loan lena, videsh mein property kharidna — in par seema hai. isi ke liye tarapur committee bani, jisne sharten tay kin ki kab poori hogi.

shabd | matlab | kaun karta hai
- Depreciation | $1 Rs 50 → Rs 80 (market forsez se) | bazaar (demand–supply)
- Appreciation | $1 Rs 150 → Rs 140 (rupya mazboot) | bazaar
- Devaluation | government/RBI jan-bujhakar rupya girae | government · RBI
- Floating / flexible rate | roz demand–supply se tay hone wali rate | bazaar
- FEMA | Foreign Exchange Management Act, 1999 | forex bazaar ko vyavasthit karna

devaluation ki ginti: Bharat ne currency chaar baar devalue ki — 1949, 1966 aur 1991 mein do baar. asar: export sasta, import mahanga.

ganit ek lain mein: $100 ka tel, $1 = Rs 50 → Rs 5,000. rupya Rs 80 ka hua → wahi tel Rs 8,000. yaani

import mahanga, isliye inflation bhi badhati hai.

videshi currency bhandar (forex reserves) — 4 chizen: 1. Foreign currency assets · 2. Gold · 3. SDR (IMF) · 4. Reserve position in IMF.

Trap: “RBI ne rupya giraya” = devaluation · “bazaar se gira” = depreciation. aur Bharat ki World Bank classification = low & lower-middle income desh; external debt ka sabse bada hissa commercial banks ka.

03 export-import sansthayein, EPZ–SEZ aur globalisation

EXIM Bank · ECGC · MPEDA · EPZ 1965 · SEZ 2005

is hisse mein saare question saal + headquarters ke hain — ratane ke liye chaar lain hi kafi hain.

institution / zon | varsh | headquarters / sthan
- EXIM Bank of India | 1982 | export-import finance
- ECGC | 1957 | export credit aur insurance
- MPEDA | 1972 | kochchi, keral
- eshiya ka pehla EPZ | 1965 | kandala (gujarat)
- pehla niji EPZ | — | surat
- SEZ Act | 2005 | pure desh mein implemented

EPZ kya hai: ek khas ilaqa jahan ease of doing business ke liye chhoot milti hai — yaani SEZ jaisa hi, bas export par kendrit. 1965, kandala = eshiya ka pehla EPZ — ye fact zarur yaad rakhein.

globalisation: duniya bhar mein goods, services, capital aur culture ka adan-pradan. udaharan — pizza (itli ka khana) ya videshi TV series. Bharatiya economy mein globalization ka matlab — nyoonatam pratibandh, taaki koi bhi akar trade kar sake; saath mein liberalisation aur privatisation.

Trap — 1991 ke baad ka asar: liberalisation ke baad GDP mein agriculture ka hissa ghata hai (ye baat batch 8 mein 52% → ~20% ke roop mein ai thi). aur 1965 = EPZ, 2005 = SEZ Act — dono ulajhae jate hain.

04 bretan vuds aur vishv bank samuh

Bretton Woods 1944 · World Bank Group (5 arms)

ek conference, do sansthayein — aur unse bana panch angon ka samuh. naam aise hain ki aapas mein ulajhate hain, isliye neeche ek-ek ka “kaam” likha hai.

Bretton Woods Conference, 1944: poora naam — United Nations Monetary and Financial Conference. isse do sansthayein banin: IMF aur IBRD (IBRD ko hi vishv bank kaha jata hai). dono ko “Bretton Woods twins” kehte hain, dono ka headquarters vashingatan DC, USA.

ang | poora naam | kaam (yaad rakhne ki kunji)
- IBRD | International Bank for Reconstruction & Development | middle income + garib deshon ko loan — “bank” yaani loan
- IDA | International Development Association | byaaj-mukt loan aur grant — “development” yaani muft madad
- IFC | International Finance Corporation | niji sector ke saath — “finance” yaani private
- MIGA | Multilateral Investment Guarantee Agency | insurance/guarantee niveshakon ko — “guarantee” = insurance
- ICSID | International Centre for Settlement of Investment Disputes | investment vivad ka nibatara — Bharat members nahi hai

5 = World Bank Group ke ang · 1944 = Bretton Woods · 189 = members (lagbhag)

membership ke niyam: World Bank Group mein shamil hona hai to pehle IMF ka members hona zaruri hai. IBRD se loan lena hai to desh ko IMF ka members hona hi padega. President hamesha USA se banta hai.

vishv bank ki riporten: World Development Report · Global Economic Prospects · Ease of Doing Business (band kar di gayi) · International Debt Statistics · Human Capital Index · Logistics Performance Index.

Trap — sheyaradharakon ka kram: lecture mein “USA → UK → France” kaha gaya; adhikarik kram mein sabse bada USA hai, phir japan/chin/Germany jaise desh aate hain. pariksha mein poocha jaaye to pakka fact yahi hai — sabse bada = USA, aur President USA se.

05 antararashtriy currency kosh (IMF)

IMF · quota · SDR 1969 · facilities

IMF ka ek hi kaam hai — BoP sankat mein desh ko udhar dena. baqi saare question usi ke ird-gird hain: kota, vot, SDR.

1944 = establishment (Bretton Woods) · 190 = members · 2.6% = Bharat ka vot share · 1969 = SDR ki shuruaat

kota (quota) = teen chizen tay karta hai: aapka yogdan, aapki voting power aur aapki finance tak pahunch. kota GDP, economy ke khulapan aur reserves se banta hai aur har 5 saal mein samiksha hoti hai. sabse bada kota/vote USA ka (16%), chin tisre number par, Bharat 2.6%.

SDR — Special Drawing Right: IMF ka reserve asset, 1969 mein bana — “paper gold” bhi kehte hain. ismein 5 currencies hain: USD, EUR, chini yuan (CNY), JPY, GBP.

IMF se judi chizen | vivaran

- mukhya kaam | BoP sankat mein financial assistance
- Facilities | Stand-by Arrangement · Flexible Credit Line · Extended Fund Facility — “facility” shabd = IMF
- riporten | World Economic Outlook · Global Financial Stability Report · Fiscal Monitor
- objective | monetary cooperation, financial stability, trade suvidha, employment aur growth, poverty kam karna

Trap — IMF vs World Bank: IMF = BoP crisis ke liye loan (short-term) · World Bank = development ke liye loan (long-term). dono vashingatan DC mein, par kaam alag.

ek lain mein: IMF 1944 · headquarters Washington DC · members 190 · kota → vote + finance · SDR 1969 (5 currencies).

06 development bank — NDB, ADB, AIIB, BIS

NDB 2014 · CRA · ADB 1966 · AIIB 2016 · BIS 1930

chaar bank, chaar saal, chaar shahar — isliye yahan sirf varsh + headquarters + members par focus karein.

institution | varsh | headquarters | members / khas baat

- NDB (New Development Bank) | 2014 (6van BRICS shikhar, fortaleza–brazil) | shanghai | pehle chairman K.V. kamath; saman ansh, saman vot — koi veto nahi
- CRA (Contingency Reserve Arrangement) | BRICS ke andar | — | short-term BoP sankat ke liye liquidity support
- ADB (Asian Development Bank) | 1966 | manila, Philippines | 68 members; sabse bade sheyaradharak japan aur USA
- AIIB (Asian Infrastructure Investment Bank) | 2016 | bijing, chin | 105 members; sabse bada chin, doosra Bharat; vote = share capital
- BIS (Bank for International Settlements) | 1930 | besal, svitzaralaind | 60 kendriya bank members — “banks ka bank”

NDB ka membership sawal: lecture mein 9 members batae gaye (brazil, rus, Bharat, chin, dakshin aphrika + bangladesh, UAE, misr…). members sankhya badhti rehti hai, par pariksha mein sabse zyada poocha jata hai — saman voting, koi veto nahi aur headquarters shanghai.

Trap — ADB vs AIIB: ADB 1966, manila (japan–USA ka dabadaba) · AIIB 2016, bijing (chin ka dabadaba, Bharat doosra). dono ko “eshiyai bank” kahakar ulajhaya jata hai — saal yaad rakhein: 66 aur 16.

07 WTO, agriculture agreement aur vaishvik sangathan

GATT 1948 → WTO 1995 · AoA boxes · WEF · SAARC/BIMSTEC/ASEAN

WTO ka sabse poocha jane wala hissa Agreement on Agriculture (AoA) ke boks hain — rang yaad rakhein, baqi apne-aap aa jaayega.

boks | kya hai | sthiti

- Green box | research, training, infrastructure ki subsidy | anumat — trade distorting nahi
- Amber box | MSP jaisi subsidy | dhire-dhire kam karani hoti hai; developed 5%, developing 10% (de minimis)
- Blue box | zamin ko khali chhodne par muavza | trade distorting hokar bhi anumat
- Red box | — | aisa kuch nahi hota; poori tarah pratibandhit samajhen

WTO ka janm: GATT (General Agreement on Tariffs and Trade) 1948 mein implemented hua; WTO 1995 mein marakesh samajhaute ke tahat bana, headquarters jeneva, svitzaralaind. AoA ke teen hisse — market access, domestic support, export competitiveness. Bharat ki National IPR Policy 2016.

sangathan | varsh | headquarters / note
- SAARC | 1985 | kathamandu
- BIMSTEC | 1997 | —
- ASEAN | 1967 | bainkok (jakarta se jodakar ulajhaya jata hai)
- OPEC | 1960 | tel niryatak deshon ka samuh
- GCC | 1981 | khadi sahayog Council
- SCO | 2001 | shanghai sahayog sangathan — Bharat-Pakistan poorn members
- WEF | 1971 | klos shvab; Global Gender Gap aur Global Risk Report

Global Gender Gap Index — 4 pairamitar (WEF): 1. Economic participation & opportunity · 2. Educational attainment · 3. Health & survival · 4. Political empowerment. ye chaar hi yaad rakhein — yahin se question banta hai.

report kiski hai — ek nazar mein: HDR → UNDP · World Economic Outlook, GFSR, Fiscal Monitor → IMF · World Investment Report → UNCTAD · Emissions Gap Report → UNEP · Global Risk, Gender Gap → WEF · World Development Report, Global Economic Prospects → World Bank · World Social Protection Report, Global Wage Report → ILO.

Trap: Amber box mein de minimis — developed deshon ke liye 5%, developing (Bharat) ke liye 10%. aur WTO 1995 mein bana, GATT 1948 mein implemented — dono ko na milayein.

08 population ke siddhant

Malthus · optimum population · demographic transition

teeno siddhanton ke sirf naam aur ek-ek lain poochhe jate hain — isliye naam-varsh pehle pakka karein.

siddhant | kisne diya | mool baat
- Malthusian theory | T.R. Malthus — “An Essay on the Principle of Population”, 1798 | population geometric (2, 4, 8, 16) badhti hai, khana arithmetic (2, 3, 4, 5) → khane wale zyada, khana kam. hal: birth control
- Optimum population theory | Edwin Cannan | sansadhanon ke hisab se sabse behatar abadi
- Social adjustment theory | Henry George | samajik adjustment se abadi ka samanjasy
- Demographic transition theory | Thompson | chaar stej — birth aur death rate ka utar-appreciation

chaar stej, ek lain mein: 1. Birth high + death high → abadi sthir (purane zamane mein 8 bachche, 4 bachate) · 2. Death rate gira (aspatal, vaiksin), birth high → population explosion · 3. Birth rate bhi girne laga, abadi phir bhi badh rahi · 4. dono low → phir sthir.

Bharat kis stej mein: Bharat tisri stej mein hai — “high growth with a sign of slowing down”. birth rate gir raha hai, par abadi badh rahi hai.

teen aur paribhashaen: Natural growth = birth − death; ismein migration aur marriage nahi gine jate. Stable population = jahan birth aur death rate sthir/barabar hon. Demographic features = density, sex ratio, literacy, age structure, rural–urban distribution. Standard of living ismein nahi aata — ye trap hai.

09 census ka itihas aur growth ki gati

Census 1872 · 1881 · 1921 · decadal growth

yahan sirf teen saal zinda rakhne hain — 1872, 1881, 1921 — aur do dashakiy aankde.

fact | vivaran
- pehla prayas | 1872, lord meyo ke samay
- pehli niyamit aur samakalik census | 1881 — “pehle M (Mayo), phir R (regular)”
- gap | har 10 varsh
- 2011 ki theme | “Our Census, Our Future”
- 2021 | sthagit; 2027 ki yojana (karent affairs)
- 1921 — Year of Great Divide | ekamatr census jismein abadi ghati — kaaran: flu mahamari aur akal; 1921 ke baad lagatar growth
- sabse zyada dashakiy growth | 1961–71 → 24.8%
- sabse zyada exponential growth | 1971–81
- sabse kam dashakiy growth | 2001–11 → 17.7%
- 2011 ki abadi | 121 crore; women 48% (aj ~150 crore)
- ghanatv (2011) | 382 vyakti prati varg ki.mi.

yaad rakhne ka tarika: “M pehle, R baad mein” — Mayo (1872) pehle, Regular census (1881) baad mein. aur 1921 ko hi “great divide” kehte hain, 1901 ya 1931 ko nahi.

Trap: 24.8% wala dashak 1961–71 hai; exponential growth 1971–81 mein. dono alag-alag sawal hain — isliye dono lainen yaad rakhein.

10 rajya-var population aur ghanatv (2011)

State & UT extremes · density · BIMARU

yahan har sawal “sabse zyada / sabse kam” wala hota hai — isliye teen-teen ki jodi banakar yaad karein.

shreni | sabse zyada | sabse kam
- population (rajya) | uttar pradesh (16.5%) → Maharashtra → bihar | sikkim
- population (UT) | Delhi | lakshadvip
- ghanatv (rajya) | bihar — 1,106 /varg ki.mi. | arunachal pradesh — 17
- ghanatv (UT) | puducheri — 2,547 | andaman-nikobar — 46
- dashakiy growth (2001–11) | meghalay | nagalaind — ekamatr rajya jahan rinatmak growth

teen states mein ek-tihai: UP + Maharashtra + bihar = Bharat ki abadi ka lagbhag 33% (ek-tihai se zyada). ye ek-lainar bahut poocha jata hai.

BIMARU: Bihar · Madhya Pradesh · Rajasthan · Uttar Pradesh — ek samay inhein “bimaru” rajya kaha gaya (slow pragati, unchi prajanan rate). inamen sabse ghani abadi bihar ki hai.

Trap — UT ke aankde: puducheri sabse ghna UT (2,547) hai, par sabse ghna rajya bihar hai. aur lakshadvip sabse kam abadi wala UT hai — par saksharata mein sabse aage (neeche dekhen).

11 saksharata aur sex ratio

Literacy 74% · sex ratio 943 · child sex ratio 919

do aankde zabani yaad kar lein — 74 · 80 · 64 aur 943 · 919. baqi sab inhi ke as-pass hai.

74% = kul saksharata (2011) · 80 / 64 = purush / mahila saksharata · 943 = sex ratio · 919 = bal sex ratio (0–6)

prabhavi saksharata (effective literacy): 7 varsh ya usse badi abadi mein padhne-likhane valon ka anupaat. 2011 mein — kul 74%, purush 80%, mahila 64%.

sex ratio: prati 1,000 purushon par women ki sankhya. Bharat — 943 · keral — 1,084 (sarvadhik rajya) · puducheri — 1,037 (sarvadhik UT) · Haryana — 879 (nyoonatam rajya) · daman-div — ~618 (nyoonatam UT) · rural ~950, urban ~930.

kam sex ratio ke kaaran: uchch matri mrityu rate · kanya shishu mrityu rate · bhrun hatya (female foeticide) · prakritik roop se purush janm-rate thodi unchi.

saksharata ka sawal | uttar
- sarvadhik sakshar rajya | keral — 94%
- doosra sarvadhik | mizoram
- nyoonatam sakshar rajya | bihar — 61%
- sarvadhik sakshar UT | lakshadvip (aur abadi mein sabse chhota bhi)
- nyoonatam sakshar UT | dadra nagar haveli
- rural saksharata mein shirsh | keral; urban saksharata mein mizoram
- pehla poorn sakshar zila | barddhaman, pashchim Bengal (keral ke baad)
- sabse tez saksharata growth | 1991–2001
- NLMA / rashtriya saksharata mishan | 5 mai 1988, rajiv Gandhi; target 2007 tak 75%

Trap: sex ratio 943 hai, bal sex ratio 919 — dono alag. bal sex ratio mein sarvadhik meghalay, nyoonatam Haryana. aur “1000 par 943” ka matlab 1,000 purushon par 943 women.

12 SC–ST, dharm, NPP aur janasankhyikiy labhansh

SC 16.6% · ST 8.6% · religion · demographic dividend

is section ke saare question “sabse zyada kis rajya mein” wale hain — isliye table hi sab kuch hai.

shreni | fact
- SC abadi | kul ka 16.6%; percent mein sarvadhik Punjab (31.9%); absolute sankhya mein sarvadhik uttar pradesh;

- ST abadi | kul ka 8.6%; sankhya mein sarvadhik madhy pradesh; percent mein sarvadhik meghalay (~86%); nyoonatam percent UP (0.6%)
- ST shuny wale | Punjab, Haryana, Delhi, chandigadh, puducheri — uttari belt
- dharm ka kram | hindu > muslim > isai > sikh > bauddh > jain (jain sabse ant mein)
- sarvadhik muslim abadi | uttar pradesh
- isai percent | nagalaind (~88%)
- dharm-var sex ratio | isai sarvadhik 1,023 · muslim ~950 · sikh sabse kam 903
- rashtriya population policy | February 2000
- TFR (2011) | 2.4 — yaani prati mahila average bachche
- mrityu panjikaran | 21 din ke bhitar; pehla rajya Karnataka
- janasankhyikiy labhansh | karyashil abadi 15–59 varsh (Bharat ki paribhasha); UN ke anusar 15–64
- ashrit abadi | 0–14 aur 60+; vriddhashrit anupaat ~14%

labhansh ka tark: Bharat mein ashrit abadi kam hai kyunki 15–59 varsh ki karyashil abadi mazboot hai — yahi “demographic dividend” hai. ise “bonas” kehte hain, “bojh” nahi.

Trap: SC ka percent Punjab mein sabse zyada, par sankhya UP mein — dono alag sawal. ST bhi wahi kahani: sankhya MP, percent meghalay.

13 committees aur arthashastri — PYQ table

Committees, concepts & personalities

lecture ka kahna tha — “ye saare PYQ hain, ek bhi maine apni or se banakar nahi bola.” isliye poori table padh lein.

committee / vyakti | kisse juda
- ke. kasturirangan | NEP 2020 ki draphting — painal 2017, NEP svikrit 29 July 2020
- kasturirangan committee (doosra kaam) | pashchimi ghat ka sanrakshan
- Gadgil committee | pashchimi ghat sanrakshan (2011) — kasturirangan se pehle
- Sarkaria Commission | Centre-rajya sambandh
- rajamannar Commission | Centre-rajya sambandh
- Rangarajan committee | poverty measurement
- parekh committee | avsanrachna finance
- narasimhan committee | banking reform
- datt committee | industrial licensing, 1969
- vanchu committee | direct kar
- Chakravarty committee | monetary policy
- parthasarathi committee | taxation
- ashok gulati | agriculture arthashastri
- M.. govinda rav | fiscal policy
- aravind Panagariya | planning aur rajya reform (NITI Aayog)
- raghuram rajan | vittiya sector reform
- jayant patil | alpavarsha/sukha sector development
- vimal jalan | expenditure prabandhan Commission ke pehle chairman

concept / fact | kiska
- Marginal man | Robert E. Park
- Missing women | Amartya Sen
- Global village | parivahan aur communication ke development par aadharit
- UN Human Rights Commission, 1946 | Bharat ki hansa mehta members
- Competition Commission of India | 2003; pehle chairman ashok chavla
- pita — modern economics | Adam Smith (“Wealth of Nations”)
- Prisoner's dilemma | Game theory ki concept
- vaigyanik prabandhan ka janak | F.W. Taylor
- Trusteeship (nyasita) | mahatma Gandhi
- Environmental Kuznets Curve | ulta-U aakaar
- EPR (Extended Producer Responsibility) | E-Waste Rules, 2011
- BIS manak chinh | auto tayar-tyub ke liye anivary
- ISO 14000 | pradushan niyantran pranali
- Agmark | agriculture utpadon ki quality mohar

- Ecomark | paryavaran-mitr excise
- GI tag — nizamabad kali mitti | uttar pradesh

policies aur “janak”: National Agriculture Policy 2000 · Marine Fishing Policy 2004 · New Foreign Trade Policy 2014 · Green Revolution ke janak M.S. Swaminathan · shvet (dudh) revolution vargiz kuriyan · banks par samajik niyantran Morarji Desai · RBI Governor aur finance Minister dono rahe — C.D. deshamukh.

Trap — do “nizamabad”: nizamabad kali mitti (GI) = uttar pradesh · Turmeric Board = nizamabad, telangana (batch 8). dono alag states mein — isliye ulajhaya jata hai.

14 fact sheet — pure batch ka nichod

One-line fact sheet · final revision

BoP se lekar census tak — pure batch ke pariksha-yogya fact, ek-ek pankti mein. print/PDF se revision sheet nikal sakte hain.

• BoP — current account + capital account
• Current account — merchandise + invisibles (services, factor income, transfers)
• Capital account — FDI, FPI, ECB, NRI deposits
• ECB — RBI regulet karta hai
• Balance of trade — goods ka export − import
• Invisible — services; invisible export = services ka export
• Current account convertibility — 1994 mein poori hui
• Capital account convertibility — abhi poori nahi — tarapur committee
• FEMA — 1999 — Foreign Exchange Management Act
• Devaluation — 1949 · 1966 · 1991 (do baar) = kul chaar baar
• Devaluation asar — export sasta, import mahanga
• Forex reserves — currency assets · gold · SDR · IMF reserve position
• EXIM Bank — 1982
• ECGC — 1957 — export credit aur insurance
• MPEDA — 1972, kochchi
• pehla EPZ — eshiya ka pehla — kandala, 1965
• SEZ Act — 2005
• Bretton Woods — 1944, UN Monetary & Financial Conference
• World Bank Group — IBRD · IDA · IFC · MIGA · ICSID (5 ang)
• ICSID — Bharat members nahi
• WB membership — pehle IMF ka members hona zaruri; President hamesha USA se
• IMF — 1944, Washington DC, 190 members
• IMF kota — contribution + voting power + finance access; har 5 saal samiksha
• vot share — USA 16%, Bharat 2.6%; chin tisre number par
• SDR — 1969; USD, EUR, CNY, JPY, GBP
• NDB — 2014 (fortaleza), shanghai, saman vot, pehle chairman K.V. kamath
• CRA — BRICS — short-term BoP ke liye liquidity
• ADB — 1966, manila, 68 members, japan-USA shirsh
• AIIB — 2016, bijing, 105 members; chin pehla, Bharat doosra

Practice test with instant explanations

(ok) kors poora

All 10 batches · what to revise

ye lecture ka akhiri batch hai — BoP, vinimay rate, antararashtriy sansthayein, census, committees aur PYQ. poora 3:28:12 ka video ab 10 batches mein cover ho chuka hai.

economy ke prakaar, 1991 LPG, SDG, yojanayein, poverty aur kalyan yojanayein.

rashtriya aay (GDP/GNP/NNP) aur inflation (CPI/WPI, 4% ± 2%).

banking, RBI, currency, fiscal policy, kar aur GST.

agriculture, industry, yojanayein; health, kaushal, vittiya samaveshan.

BoP, vinimay rate, WTO, IMF–World Bank, census aur committees.

ankadon par ek chetavni: census ke aankde 2011 ke hain (2021 sthagit, 2027 ki yojana) — pariksha se pehle navintam adhikarik source dekh lein.

Flashcards aur practice test - batch-wise

Har batch ke 20 flashcards aur 14 MCQ. Pehle khud socho, phir uttar dekho.

Batch 1

• 1 - poverty khatam (aadmi ne kaam shuru kiya) -> No Poverty — poverty unmulan
• 2 - bhukhmari shuny (bachchi ko khana mila) -> Zero Hunger
• 3 - achha health (sehat achhi rahi) -> Good Health & Well-being
• 4 - gunavattapurn education (school mein dakhila) -> Quality Education
• 5 - laingik samanta (ladake-ladakiyan saath padhe) -> Gender Equality
• 6 - swachh jal aur swachhata (haath-munh dhoya) -> Clean Water & Sanitation
• 7 - sasti aur swachh urja (school mein solar painal) -> Affordable & Clean Energy
• 8 - uchit kaarya aur growth (pass hokar achhi naukri) -> Decent Work & Economic Growth
• 9 - industry aur navachar (naukri industry mein mili) -> Industry, Innovation & Infrastructure
• 10 - asamanta mein kami (samaj mein izzat badhi) -> Reduced Inequalities
• 11 - sustainable shahar aur samuday (badi city mein base) -> Sustainable Cities & Communities
• 12 - jimmedar upbhog (chizon ka soch-samajhakar upyog) -> Responsible Consumption & Production
• 13 - jalvayu karravai (jalvayu ka prakop) -> Climate Action
• 14 - jaliy jeevan (baadh se samudri jeevan khatam) -> Life Below Water
• 15 - thaliy jeevan (zamin par jeevan khatam) -> Life on Land
• 16 - shanti, nyay, sansthayein (shanti se rehne ka nirnay) -> Peace, Justice & Strong Institutions
• 17 - lakshyon ke liye saajhedari (sab milkar) -> Partnership for the Goals
• 1968 - The Population Bomb (Paul Ehrlich) ->
• 1968 - The Limits to Growth (Club of Rome (30 vyakti · 10 desh)) ->
• 1972 - Silent Spring (Rachel Carson) ->
• 1987 - Our Common Future (Brundtland Commission ki report) ->
• 17 · 2030 - SDG (target sankhya · target varsh (nodal: NITI Aayog)) ->
• ulta-U - paryavaraniya Kuznets curve (paryavaraniya ksharan aur per person GDP) ->
• L · P · G - 1991 NEP (liberalisation · privatisation · globalisation) ->
• 2011-12 - Economic Survey (pehli baar Sustainable Development & Climate Change chapter) ->

MCQ (answer neeche):

Q1. economy ki kendriya samasyaon ka mool kaaran kya hai?
A) bazaar mein pratispardha ka abhav B) sansadhanon ki simitta (scarcity) C) sarkari niyantran D) population ka kam hona
Q2. “Father of Economics” kise kaha jata hai?
A) J.. M.. Keynes B) Adam Smith C) alphred marshal D) miltan phridamain
Q3. “Father of Macroeconomics” kaun hain?
A) Adam Smith B) devid rikardo C) J.. M.. Keynes D) Paul Ehrlich
Q4. 2024 ki prarambhik pariksha mein kaun-sa kathan galat tha?
A) Adam Smith — Father of Economics B) Adam Smith — Father of Macroeconomics C) J. M. Keynes — Father of Macroeconomics D) Adam Smith ko economics ka janak kaha jata hai
Q5. mishrit economy ki feature nahi hai:
A) niji aur sarvajanik sector ka sah-astitv B) kalyanakari hastakshep C) utpadan ke sadhanon par poorn rajya-swamitva D) bazaar aur planning dono ka upyog
Q6. Gandhivadi samajvad ka kendriya vichar kya hai?
A) utpadan ke sadhanon ka kendrikaran B) utpadak sansadhanon ka decentralisation C) import substitution D) poorn privatisation
Q7. Bharat ko “developing economy” ka darja kis aadhar par prapt hota hai?
A) vishv bank ka pramanapatr B) sanyukt rashtr ka sankalp C) sv-ghoshna (self-declaration) D) IMF ki membership
Q8. underdeveloped economy ka lakshan nahi hai:
A) nimn jeevan-star B) uchch nirbharta anupaat C) uchch poonji nirman rate D) agriculture ka prabhutv
Q9. lecture ke anusar Bharat mein agriculture ka GDP mein yogdan aur population ki agriculture-nirbharta kramashah lagbhag kitni hai?
A) 45% aur 18% B) 18% aur 45% C) 30% aur 60% D) 10% aur 55%
Q10. “Silent Spring” (1972) ki lekhika kaun hain?
A) Rachel Carson B) Paul Ehrlich C) Brundtland D) Club of Rome

Q11. “Our Common Future” (1987) kiski report hai?
A) Club of Rome B) Brundtland Commission C) IPCC D) UNEP
Q12. “The Limits to Growth” (1968) kisne prastut ki?
A) Club of Rome B) Brundtland Commission C) Paul Ehrlich D) Rome Club ki mahila shakha
Q13. SDG ki sankhya, target varsh tatha Bharat mein nodal institution — sahi yugm chunein:
A) 17 / 2030 / NITI Aayog B) 15 / 2025 / finance Commission C) 17 / 2035 / Planning Commission D) 21 / 2030 / MoSPI
Q14. “Sustainable Development & Climate Change” chapter pehli baar kis Economic Survey mein aaya?
A) 2005-06 B) 2011-12 C) 2016-17 D) 2020-21

Q1: B - simit sansadhanon ke kaaran hi “kya utpadan karein, kaise karein, kiske liye karein” — ye chayan ki samasyaen uthati hain.
Q2: B - Adam Smith — Father of Economics. yahan “Indian” shabd nahi joda jata.
Q3: C - J.. M.. Keynes — samashti economics (macroeconomics) ke janak.
Q4: B - Adam Smith ko “Father of Macroeconomics” kahna galat hai — ve Father of Economics hain, macro ke janak Keynes hain.
Q5: C - poorn rajya-swamitva samajvadi economy ka lakshan hai; mishrit vyavastha mein dono sector rehte hain (Bharat).
Q6: B - utpadak sansadhanon ka decentralisation + swarozgar + self-reliance — Gandhivadi model ki pehchan.
Q7: C - ye atm-ghoshna hai; developing ghoshit karne par samay-seema/target mein chhoot jaise labh milte hain.
Q8: C - underdeveloped economy mein poonji nirman ki rate nimn hoti hai (kamaya aur kha liya, machines mein investment nahi).
Q9: B - ~18% GDP yogdan par ~45% population dependent — yahi antar prachhann unemployment aur nimn utpadakta ki jad hai.
Q10: A - Rachel Carson — paryavaran andolan ki prerak kitaab.
Q11: B - Brundtland Commission ki report — sustainable development ki famous paribhasha isi se ai. ise Limits to Growth (Club of Rome, 1968) se na milayein.
Q12: A - Club of Rome — 10 deshon ke 30 vaigyanik/arthashastri/shodhakarta, Rome mein.
Q13: A - 17 target, 2030 tak; Bharat mein nodal institution NITI Aayog (NITI Aayog).
Q14: B - Economic Survey 2011-12 — lecture mein ye fact spasht bataya gaya.

Batch 2

• yojana 1 - 1951–56 (Harrod–Domar · 2.1%) -> agriculture development, sharanarthi rehabilitation, balanced development — target se zyada achievement
• yojana 2 - 1956–61 (Mahalanobis · 4.5% → 4.3%) -> bhari industry, tez industrialisation, import substitution; rashtriya aay mein 25% growth ka target
• yojana 3 - 1961–66 (5% target · SDS model) -> self-reliance; 1962 chin aur 1965 pak yuddh se resources ghate, target chuka
• Plan Holiday - 1966–69 (3 annual yojanayein) -> yuddhon ke baad resources-kami; isi daur mein Green Revolution (1966) shuru
• yojana 4 - 1969–74 (Gadgil yojana) -> buffer stock ki concept, banks ka nationalisation; target poora nahi
• yojana 5 - 1974–79 (Garibi Hatao · 4.4% → 4.8%) -> Minimum Needs Programme, Food for Work; Janata Party ne samay se pehle samapt kiya
• Rolling Plan - 1978–83 (Gunnar Myrdal) -> Morarji Desai government; finance Minister H.M. Patel
• yojana 6 - 1980–85 (poverty unmulan + modernisation) -> Perspective Planning (long-term pariprekshy) ka vichar
• yojana 7 - 1985–90 (modernisation + self-reliance) -> liberalisation model ki shuruaat; Indira Awaas aur Jawahar Rozgar Yojana; target prapt
• annual yojanayein - 1990–92 (2 annual yojanayein) -> 3 (1966–69) + 2 (1990–92) = kul 5 annual yojanayein
• yojana 8 - 1992–97 (John W. Miller · 5.6% → 6.8%) -> manav resources development; LPG reform isi daur mein hue
• yojana 9 - 1997–2002 (7 Basic Minimum Services · 6.5% → 5.4%) -> jeevan ki quality, utpadak employment, regional balance, self-reliance
• yojana 10 - 2002–07 (inclusive end equitable growth · 8.1% → 7.6%) -> inclusive aur equitable growth; education mein laingik antar kam karna
• yojana 11 - 2007–12 (9% → 8%) -> uchch education mein namankan badhana, durasth education ka vistar, tez aur inclusive growth
• yojana 12 - 2012–17 (8% · agriculture 4% · vinirman 10%) -> tez, zyada inclusive aur sustainable growth; 2015 mein NITI Aayog banane se yojana adhuri rahi
• 1914 - Planned Economy for India (M. Visvesvaraya) -> modern planning ke janak — pehla likhit proposal
• 1938 - National Planning Committee (Nehru (chairman)) -> Subhas Chandra Bose ne committee banai
• 1944 - Gandhian Plan (Shriman Narayan Agarwal) -> self-reliant gram economy

• 1944 - Bombay Plan (8 industrialists) -> Tata-Birla plan, 15 varshiy
• 1945 - People's Plan (M.N. Roy) -> Bharatiya shramik sangh; Russian planning se inspired
• 1950 - Sarvodaya Plan (Jayaprakash Narayan) -> shoshan-rahit samaj ka Gandhivadi adarsh
• 15 March 1950 - Planning Commission (Cabinet proposal) -> Niyogi Committee ki recommendation; pehle chairman Nehru
• 6 August 1952 - NDC (Niyogi Committee) -> chairman PM · sabhi CM members · "super Cabinet"
• 1 January 2015 - NITI Aayog (sarkari proposal) -> think tank · cooperative federalism · part-time members 2

MCQ (answer neeche):

Q1. Bharat mein economic planning ka pehla likhit proposal (1914) kisne diya?
A) Jawaharlal Nehru B) M. Visvesvaraya C) Shriman Narayan Agarwal D) M.N. Roy
Q2. Gandhian Plan (1944) kisne prepare ki?
A) Jayaprakash Narayan B) Shriman Narayan Agarwal C) M.N. Roy D) Ardeshir Dalal
Q3. Bombay Plan (1944) ke bare mein kaun-sa kathan sahi hai?
A) ye 5 varshiy yojana thi, 4 industrialists ne banai B) ye 15 varshiy yojana thi, 8 industrialists ne banai C) ise Congress ne banaya D) iska chairman Nehru the
Q4. Planning Commission ki establishment kab aur kis prakaar hui?
A) 15 March 1950 · Cabinet proposal se B) 26 January 1950 · Constitution se C) 6 August 1952 · sansadiy law se D) 1 April 1951 · President ke Ardeshir se
Q5. National Development Council (NDC) ki establishment kab hui?
A) 15 March 1950 B) 1 April 1951 C) 6 August 1952 D) 1 January 2015
Q6. pehli panchvarshiya yojana kis model par aadharit thi?
A) Mahalanobis model B) Harrod–Domar model C) Gadgil yojana D) John W. Miller model
Q7. doosri yojana (1956–61) ka aadhar aur mukhya focus kya tha?
A) Harrod–Domar · agriculture B) Mahalanobis · bhari industry C) Gadgil · buffer stock D) Miller · education
Q8. "Plan Holiday" (1966–69) ke dauran kya hua?
A) koi yojana nahi chali, sab band raha B) teen annual yojanayein chalin C) panchavin yojana shuru hui D) Rolling Plan implemented hua
Q9. chauthi panchvarshiya yojana (1969–74) kis yojana par aadharit thi?
A) Gadgil yojana B) Sarvodaya Plan C) People's Plan D) Bombay Plan
Q10. "Garibi Hatao" slogan kis yojana ka tha aur uska ant kaise hua?
A) chauthi · target poora karke B) panchavin · Janata Party ne samay se pehle samapt kiya C) chhathi · NITI Aayog ne roka D) satavin · swayan poori hui
Q11. Rolling Plan (1978–83) ka vichar kiska tha?
A) P.C. Mahalanobis B) Gunnar Myrdal C) vee. ke. ar. vee. rav D) Sukhamoy Chakravarty
Q12. svatantrata ke baad Bharat mein kul kitni annual yojanayein chalin?
A) 2 B) 3 C) 5 D) 7
Q13. athavin panchvarshiya yojana (1992–97) kis model par aadharit thi?
A) John W. Miller model B) Mahalanobis model C) Harrod–Domar model D) Gadgil model
Q14. barahavin panchvarshiya yojana (2012–17) poori kyun nahi ho pai?
A) yuddh ke kaaran B) 2015 mein NITI Aayog ne Planning Commission ka sthan le liya C) states ne mna kar diya D) target bahut kam tha

Q1: B - "Planned Economy for India" (1914) — M. Visvesvaraya; inhein modern planning ka janak (founder of modern planning in India) kaha jata hai.
Q2: B - Gandhian Plan — Shriman Narayan Agarwal; aadhar self-reliant gram economy. Jayaprakash Narayan ki Sarvodaya Plan 1950 ki hai — dono alag.
Q3: B - Tata-Birla plan = 8 industrialists (J..ar.di. Tata, ji.di. Birla, Ardeshir Dalal aadi) + 15 varsh ki period — isliye "har yojana 5 saal ki" maan lena trap hai.
Q4: A - 15 March 1950, Cabinet proposal (Cabinet Resolution) se — isliye ye na constitutional hai na statutory, balki executive body. recommendation Niyogi Committee ki thi.
Q5: C - 6 August 1952 — chairman Prime Minister; members sabhi Chief Minister, kendriya Minister aur UT administrator; vistrit membership ke kaaran ise "super Cabinet" kaha jata hai.
Q6: B - Harrod–Domar model (sir Roy Harrod — UK, evsi Domar — USA): saving aur investment ka growth par sidha prabhav. target 2.1% tha, jo prapt se zyada raha.
Q7: B - P.C. Mahalanobis ka model — tez industrialisation, bhari industry, import substitution; K (capital goods) aur C (consumer goods) sector. target 4.5%, achievement 4.3%.
Q8: B - 1962 (chin) aur 1965 (pak) yuddhon se resources khatam — panchvarshiya yojana nahi bani, par teen annual yojanayein chalin; isi samay Green Revolution (1966) shuru hui.
Q9: A - Gadgil yojana — isi yojana mein buffer stock ki concept ai aur banks ka nationalisation hua; target poora nahi hua.

Q10: B - panchavin yojana (1974–79); Garibi Hatao ; Minimum Needs Programme ; Food for Work; target 4.4% → achievement 4.8% (saphal), par Janata Party government ne ise samay se pehle samapt kar diya.
Q11: B - vichar Gunnar Myrdal ka; Bharat mein Morarji Desai ki government ne implemented kiya (finance Minister H.M. Patel).
Q12: C - 3 annual (1966–69) + 2 annual (1990–92) = 5. lecture mein ek jagah “6” bola gaya, par ginti se 5 sahi hai.
Q13: A - John W. Miller model; target 5.6% ke mukable 6.8% growth — target se zyada. LPG reform bhi isi daur mein hue.
Q14: B - 12vin yojana ka target 8% (agriculture 4%, vinirman 10%) tha, par 1 January 2015 ko NITI Aayog banane aur Planning Commission dissolved hone se ye yojana adhuri rah gayi — yahi sabse zyada poocha jane wala bindu hai.

Batch 3

• 1901 - Poverty & UnBritish Rule (Dadabhai Naoroji) -> Bharat mein poverty ki baat sabse pehle uthane wali kitaab — tilak se milayein nahi
• 1962 - Planning Commission (July 1962) -> poverty measure ka pehla adhikarik (official) prayas
• 1971 - Dandekar evam Rath (V.M. Dandekar · N. Rath) -> pehli badi poverty committee — calorie aadharit estimate
• 1970s - P.S. Minhas (Minhas Committee) -> vaikalpik aay/calorie aadharit estimate
• 1970s - P.D. Oza (Oza Committee) -> poverty estimate par svatantr adhyayan
• 1979 - Planning Commission karyadal (aadhar varsh 1973-74) -> 2400 calorie (ganv) aur 2100 (shahar) ka manak tay
• 1989 - D.T. Lakdawala (Lakdawala Committee) -> rajya-vishisht poverty line + price index se jodna
• 2009 - Suresh Tendulkar (report 2011-12) -> 6 basic needs; poverty 21.9% (ganv 25.7%, shahar 13.7%)
• 2012 - C. Rangarajan (report 2014) -> Rs 972 ganv / Rs 1,407 shahar per person/mah; poverty 29.5%
• 1979 - TRYSEM (18–35 varsh ke BPL rural yuvaon ko swarozgar prashikshan (15 August 1979)) ->
• 1982-83 - DWCRA (rural BPL women ke liye SHG aadharit development yojana) ->
• 1985 - Indira Awaas Yojana (garib families ke liye Awaas) ->
• 1989 - Jawahar Rozgar Yojana (rural employment srijan (JRY)) ->
• 1993 - PMRY + EAS (Prime Minister's Rozgar Yojana + Employment Assurance Scheme) ->
• 1997 - SJSRY (Swarna Jayanti Shahari Rozgar Yojana — pehle shahar mein) ->
• 1999 - JGSY + SGSY (gram samriddhi yojana + Swarna Jayanti Gram Swarozgar Yojana) ->
• 2000 - Antyodaya Anna Yojana (1 crore sabse garib family; ab 35 kigra prati family) ->
• 2005 - Bharat Nirman (rural basic infrastructure — sadak, paani, electricity, Awaas) ->
• 2006 - MGNREGA (2 February 2006 · 200 district · 100 din · 15 din mein kaam ya bhatta) ->
• 2007 - National Food Security Mission (NDC ke proposal se — chaval, gehun, dalahan utpadan) ->
• 2011 - NRLM (National Rural Livelihood Mission → 2015 mein DAY-NRLM) ->
• 2013 - NULM (urban livelihood mishan; SJSRY (1997) ko badala; 75:25 phanding) ->
• 2017 - PM kisan sanpada yojana (food prosesing; pehle naam “sanpada yojana” — PM-KISAN nahi) ->

MCQ (answer neeche):

Q1. poverty ka pehla vaishvik (global) estimate kis mein aaya?
A) World Development Report 1990 B) Human Development Report 1990 C) World Development Report 2000 D) Economic Survey 1991
Q2. Lorenz curve aur gini coefficient kisse sanbandhit hain?
A) unemployment measure se B) aay-asamanta measure se C) inflation measure se D) GDP ki ganna se
Q3. gini coefficient ka maan 0 hone ka kya arth hai?
A) poorn asamanta B) poorn samanta C) poverty line se neeche D) aankde uplabdh nahi
Q4. “Inequality-adjusted per capita income” ki concept kisne di?
A) Amartya Sen B) jagadish bhagavati C) manamohan sinh D) pi. si. Mahalanobis
Q5. “Poverty and UnBritish Rule in India” kiski rachna hai?
A) Bal Gangadhar Tilak B) Dadabhai Naoroji C) mahatma Gandhi D) ar. si. datt
Q6. poverty measure ka pehla adhikarik (official) prayas kisne aur kab kiya?
A) Planning Commission, July 1962 B) Dandekar-Rath committee, 1971 C) Lakdawala committee, 1989 D) Tendulkar committee, 2009
Q7. Planning Commission ke 1979 karyadal ne calorie manak kya tay kiye?
A) 2200 ganv / 2000 shahar B) 2400 ganv / 2100 shahar C) 2100 ganv / 2400 shahar D) 2500 ganv / 2200 shahar
Q8. Dandekar evam Rath committee kis varsh ai?
A) 1962 B) 1971 C) 1979 D) 1989
Q9. rajya-vishisht poverty line (state-specific poverty line) kis committee ne sujhai?
A) Lakdawala committee (1989) B) Tendulkar committee (2009) C) Rangarajan committee (2012) D) Minhas

Q10. Tendulkar committee ke anusar Bharat mein poverty kitni thi?
A) 21.9% B) 29.5% C) 37.2% D) 13.7%
Q11. Rangarajan committee (2012) ne poverty ki jo seema di, vo kya thi?
A) Rs 972 ganv / Rs 1,407 shahar per person prati mah B) Rs 1,024 ganv / Rs 1,630 shahar C) Rs 446 ganv / Rs 578 shahar D) Rs 500 ganv / Rs 800 shahar
Q12. bahuayami poverty index (MPI) mein kitne aayam aur sanketak hain?
A) 3 aayam, 10 sanketak B) 3 aayam, 12 sanketak C) 2 aayam, 8 sanketak D) 4 aayam, 10 sanketak
Q13. National Food Security Act (NFSA) 2013 ke bare mein kaun-sa sahi hai?
A) ganv 75% aur shahar 50% abadi; 5 kigra per person; Rs 3/Rs 2/Rs 1 prati kilo B) ganv 50% aur shahar 75%; 10 kigra per person C) sirf BPL families ko 25 kigra D) keval urban kshetron mein implemented
Q14. MGNREGA ke bare mein kaun-sa kathan galat hai?
A) ye 2 February 2006 se 200 districts mein shuru hui B) ye 100 din ka employment deti hai C) kaam 15 din mein na milne par unemployment bhatta milta hai D) ismein kam-se-kam adhe beneficiary women honi chahiye
Q15. traisem (TRYSEM) yojana kab shuru hui aur kiske liye thi?
A) 15 August 1979 — 18–35 varsh ke BPL rural yuvaon ke prashikshan hetu B) 1982 — rural women ke liye C) 1989 — rural employment hetu D) 2006 — 100 din ke employment hetu
Q16. Atal Pension Yojana (APY) mein pravesh ki umr seema aur penshan shuru hone ki umr kya hai?
A) 18–40 varsh; penshan 60 par B) 18–50 varsh; penshan 58 par C) 21–40 varsh; penshan 65 par D) 25–45 varsh; penshan 60 par

Q1: A - vishv bank ki World Development Report 1990 mein poverty ka pehla vaishvik estimate diya gaya — ye Bharat ka nahi, duniya ka ankada tha.
Q2: B - dono aay-asamanta (income inequality) ke maap hain. Lorenz curve grafikal tarika hai, gini coefficient usi se nikla 0–1 ka number.
Q3: B - 0 = poorn samanta (sabaki aay barabar), 1 = poorn asamanta (saari aay ek ke pass). Bharat mein gini 0.3 ke asapas rehta hai.
Q4: A - Amartya Sen — average per capita income ko asamanta ke hisab se theek karke dekhne ki concept, taaki amir-garib ka farq chhipe nahi.
Q5: B - Dadabhai Naoroji — inhone Bharat mein poverty ki baat sabse pehle uthai. lecture mein saaf kaha gaya: ise tilak se milana mat.
Q6: A - July 1962 mein Planning Commission ne pehla adhikarik estimate diya. Naoroji ka kaam usse pehle tha, par vo adhikarik nahi tha.
Q7: B - 2400 calorie rural aur 2100 urban (aadhar varsh 1973-74) — ganv mein mehanat zyada hoti hai, isliye zarurat bhi zyada mani gayi.
Q8: B - 1971 — ye pehli badi poverty committee thi. lecture ki tarakib: “Rath par danda” (Rath + Dandekar).
Q9: A - D.T. Lakdawala committee (1989) — har rajya ke liye alag poverty line, aur use Consumer Price Index se joda.
Q10: A - 21.9% (ganv 25.7%, shahar 13.7%) — report 2011-12 ki. 6 basic needs ke aadhar par ye rekha tay hui. 29.5% Rangarajan committee ka estimate hai.
Q11: A - Rs 972 (rural) aur Rs 1,407 (urban) per person prati mah, estimate 29.5%. government ne poverty kam dikhane wali Tendulkar committee ko svikar kiya.
Q12: A - 3 aayam (education, health, jeevan-star) aur 10 sanketak; prepare kiya OPHI + UNDP ne aur 2010 se isne HPI ki jagah lee. NITI Aayog ke rashtriya MPI mein 12 sanketak hain.
Q13: A - rural 75%, urban 50% (kul ~2/3 abadi), 5 kigra per person prati mah, chaval Rs 3 / gehun Rs 2 / mota grain Rs 1 — yaad rakhein 3-2-1.
Q14: D - women ka hissa kam-se-kam ek-tihai (1/3) hai, adha nahi. baki teeno kathan sahi hain — 200 district, 100 din, 15 din mein kaam ya bhatta.
Q15: A - TRYSEM = Training of Rural Youth for Self Employment, 15 August 1979, target 18–35 varsh ke BPL rural yuva. 1982-83 ki DWCRA women ke liye thi.
Q16: A - 18 se 40 varsh ke beech jud sakte hain, 60 varsh par penshan shuru hoti hai; ye PFRDA dwara sanchalit hai aur 2015 mein swavalamban yojana ki jagah ai.

Batch 4

• GDP - = C + I + G + (X − M) (expenditure vidhi) -> desh ki seema mein bani goods-services ka bazaar price
• NDP - = GDP − depreciation (Net Domestic Product) -> machines ki ghisai ghatane par
• GNP - = GDP + NFIA (Gross National Product) -> sector nahi, citizenship dekhta hai
• NNP - = GNP − depreciation (Net National Product) -> dono reform ek saath
• NNPFC - = NNPMP − IT + Subsidy (rashtriya aay) -> rashtriya aay = NNP at Factor Cost
• DPI - = Personal Income − direct kar (prayojy aay) -> jeb mein aane wala paisa
• Deflator - = (Nominal ÷ Real) × 100 (GDP deflator) -> GDP se inflation napna
• Value Added - = Output − Intermediate Consumption (price growth) -> Double counting se bachav

• dutavas - ameriki dutavas (Bharat mein) (Bharat ki GDP mein nahi) -> vo amerika ka sector mana jata hai
• 4 factor aay - bhoomi · shram · poonji · udyam (lagan · wage · byaaj · labh) -> kaam ke badale milne wali aay
• markar - padhane mein = intermediate (khud ke upyog mein = final) -> faisla upyog ke objective se
• Transfer income - penshan · chhatravritti · bhatta (rashtriya aay mein nahi) -> koi vastu/seva paida nahi hoti
• Personal Income - kar se pehle ki aay (avitarit labh, korporet kar, samajik suraksha anshadan nahi) -> vyakti ko jo vastav mein milta hai
• Per capita - rashtriya aay ÷ population (average nagarik ki aay) -> growth rate development nahi dikhati
• Nominal vs Real - chalu prices vs inflation-samayojit (Real = asli kray shakti) -> dono mein farq hi asli sawal hai
• Green GDP - GDP mein paryavaraniya lagat (nature ke nukasan ka hisab) -> agriculture se sambandh nahi
• 3 vidhiyan - utpadan · aay · expenditure (teeno ka uttar ek hi) -> MoSPI/CSO jari karta hai

MCQ (answer neeche):

Q1. Bharat mein ameriki dutavas ki kamai Bharat ki GDP mein kyun nahi jodi jati?
A) kyunki vo ameriki company hai B) kyunki dutavas ki zamin us desh ka hissa mani jati hai C) kyunki wahan koi utpadan nahi hota D) kyunki GDP mein sirf sarkari kharch judta hai

Q2. ek markar “final good” hai ya “intermediate good” — ye kisse tay hota hai?
A) vastu ki keemat se B) vastu ke aakaar se C) upyog ke objective se D) vastu kisne banai, isse

Q3. expenditure vidhi se GDP ka sahi formula kaun-sa hai?
A) C + I + G + (X − M) B) C + I + G + (M − X) C) C + I + G − T D) W + R + I + P

Q4. GNP nikalne ke liye GDP mein kya joda jata hai?
A) Depreciation B) subsidy C) NFIA (videsh se net factor aay) D) indirect kar

Q5. NDP ka formula kya hai?
A) GDP − depreciation B) GDP + depreciation C) GDP − indirect kar D) GDP + NFIA

Q6. “rashtriya aay” (National Income) vastav mein kya hai?
A) GDP at market price B) GNP at market price C) NNP at factor cost D) NNP at market price

Q7. factor lagat (factor cost) nikalne ka sahi formula kaun-sa hai?
A) bazaar keemat + indirect kar − subsidy B) bazaar keemat − indirect kar + subsidy C) bazaar keemat − direct kar D) bazaar keemat + subsidy + kar

Q8. vyaktigat aay (Personal Income) mein nimn mein se kya shamil nahi hota?
A) wage B) lagan C) avitarit korporet labh D) byaaj

Q9. prayojy aay (Disposable Income) kaise nikalati hai?
A) Personal Income − direct kar B) Personal Income + subsidy C) NNP − depreciation D) GDP ÷ population

Q10. per capita income ka formula kya hai?
A) GDP × population B) rashtriya aay ÷ population C) GNP + NFIA D) NDP − kar

Q11. nominal (nominal) aur vastavik (real) aay mein mukhya antar kya hai?
A) nominal mein inflation ka adjustment hota hai B) vastavik aay inflation se samayojit hoti hai C) dono ek hi hain D) vastavik aay sirf government nikalti hai

Q12. GDP deflator kya mapta hai?
A) unemployment B) inflation (GDP ke aadhar par) C) aay-asamanta D) videshi trade

Q13. “grin GDP” ka sahi arth kya hai?
A) agriculture sector ki GDP B) paryavaraniya lagat shamil karke nikali gayi GDP C) harit urja se bani GDP D) GDP ka hara rang wala sanskaran

Q14. rashtriya aay measure ki teen vidhiyan kaun-si hain?
A) utpadan, aay aur expenditure B) utpadan, kar aur subsidy C) aay, saving aur investment D) expenditure, export aur import

Q1: B - Domestic territory mein vo zamin shamil nahi hoti — dutavas apne desh ka hissa mana jata hai. isliye amerika mein Bharatiya dutavas ki kamai Bharat ki GDP mein judti hai.
Q2: C - padhane mein istemal = madhyavarti (intermediate), niji upyog = antim (final). ek hi markar dono ho sakata hai — faisla objective par.
Q3: A - GDP = niji upbhog + investment + government expenditure + (export − import). dhyan dein: ghatana import ko hai, export ko nahi.
Q4: C - GNP = GDP + NFIA. GDP sector dekhta hai, GNP citizenship — isliye videsh se aane-jane wali factor aay ka net asar joda jata hai.
Q5: A - Net = Gross − depreciation. isliye NDP = GDP − depreciation.
Q6: C - rashtriya aay = NNP at Factor Cost. ye sabse zyada poocha jane wala ek-lain fact hai.
Q7: B - kar government leti hai (ghatao), subsidy government deti hai (jodo). isliye: bazaar keemat − indirect kar + subsidy = factor lagat.
Q8: C - avitarit korporet labh company ke pass rehta hai, vyakti ko nahi milta; isi tarah korporet kar aur samajik suraksha anshadan bhi bahar rehte hain.

Q9: A - Personal Income mein se direct kar (jaise aayakar) ghatane par jo bachata hai, wahi jeb mein aane wala paisa = disposable income.
Q10: B - kul rashtriya aay ko population se bhaag dein — yahi average nagarik ki aay (per capita income) hai.
Q11: B - Nominal = chalu prices par (inflation ka asar chhipa), Real = inflation ghatakar — yaani asli kray shakti.
Q12: B - GDP Deflator = (nominal GDP ÷ vastavik GDP) × 100 — ye poori economy ki prices se inflation napta hai.
Q13: B - Green GDP mein nature ko hue nukasan (environmental cost) ka hisab bhi joda jata hai — ye agriculture ya Green Revolution se sanbandhit nahi.
Q14: A - Production (value added), Income (rent+wages+interest+profit) aur Expenditure (C+I+G+X−M) — teeno se ek hi uttar ana chahiye.

Batch 5

• Inflation - Rs 100 → Rs 104 (prices badhna) -> inflation
• Deflation - Rs 100 → Rs 98 (prices ghatna) -> deflation
• Disinflation - 104 → 112 → 108 (rate ghat rahi hai, inflation band nahi) -> inflation ki raftar slow
• Reflation - GST daren ghatana (policy se mang jagana) -> punahsphiti
• Stagflation - growth + inflation + unemployment (teeno saath) -> sabse kharab sanyojan
• Creeping - mild (growth ke liye zaruri) -> sabse halki
• Suppressed - price control · rationing · black market (inflation chhipai gayi) -> dabi hui inflation
• Walking - 3%–10% (slow par lagatar) -> chalati inflation
• Running - 10%–20% (Rs 100 → Rs 114) -> daudti inflation
• Galloping - 20%–30% (bahut tez) -> sarapat inflation
• Hyper - niyantran se bahar (sabse khataranak) -> out of control
• Demand-pull - mang badhi (sanitizer, kovid) -> keemat badhi
• Cost-push - lagat badhi (salary/kachcha mal) -> keemat badhi
• Imported - bahar se mahanga aaya (tel Rs 100 → Rs 120) -> sab mahanga
• Wage-price spiral - salary → lagat → keemat → phir salary (chakra) -> chalata rehta hai
• Inflationary gap - kshamta Rs 100, utpadan Rs 120 (Rs 20 extra) -> prices badhti hain
• Deflationary gap - kshamta Rs 100, utpadan Rs 90 (Rs 10 deficit) -> unemployment badhti hai
• Phillips curve - inflation ↔ unemployment (ulta sambandh) -> short-term mein
• Core inflation - khadya + fuel hatakar (asli inflation) -> asthir vastuein chhodo
• Target - 4% ± 2% (2% se 6%) -> RBI ka target

MCQ (answer neeche):

Q1. “inflation” (inflation) ka sabse sahi udaharan kaun-sa hai?
A) Rs 100 ki cheez Rs 98 ki ho gayi B) Rs 100 ki cheez Rs 104 ki ho gayi C) Rs 100 ki cheez Rs 100 hi rahi D) Rs 100 ki cheez bazaar se gayab ho gayi
Q2. Deflation (deflation) ka arth kya hai?
A) prices badhna B) prices ghatna C) inflation ki rate ghatna D) unemployment badhna
Q3. Disinflation aur Deflation mein mukhya antar kya hai?
A) koi antar nahi B) Disinflation mein prices badhti rehti hain par rate ghatati hai; Deflation mein prices ghatati hain C) Disinflation sirf khadya padarthon mein hoti hai D) Deflation keval yuddh ke samay hoti hai
Q4. government GST ki daren ghatakar logon ki mang badhana chahti hai — ye kiski misal hai?
A) Deflation B) Reflation C) Stagflation D) Hyperinflation
Q5. stagflation (stagflation) ki teeno sharten kaun-si hain?
A) tez growth + kam inflation + kam unemployment B) sust growth + tez inflation + unchi unemployment C) prices ghatna + growth + employment D) keval tez inflation
Q6. creeping inflation (creeping inflation) ke bare mein kya sahi hai?
A) ye sabse khataranak inflation hai B) ye halki inflation hai aur economic growth ke liye zaruri mani jati hai C) ismein prices ghatati hain D) ye keval yuddhakal mein hoti hai
Q7. running inflation (running inflation) ki rate am taur par kitni mani jati hai?
A) 0–3% B) 3–10% C) 10–20% D) 20–30%
Q8. kor inflation (core inflation) mein kin chizon ko chhod diya jata hai?
A) khadya padarth aur fuel B) kapade aur makan C) education aur health D) keval fuel
Q9. kovid ke samay achanak sanitizer ki mang badhane se prices badhin — ye kis prakaar ki inflation hai?
A) Cost-push B) Demand-pull C) Imported D) Structural
Q10. kachcha mal ya salary mahangi hone se paida hone wali inflation kaun-si hai?
A) Demand-pull B) Cost-push C) Imported D) Suppressed
Q11. bahar se aane wala tel Rs 100 se Rs 120 ka ho jaaye aur usse dudh-sabzi sab mahangi ho jaayein — ye kya hai?
A) Imported inflation B) Demand-pull inflation C) Deflation D) Disinflation

Q12. “inflation hai, par price niyantran, rashaning aur kalabazar ki wajah se dikhati nahi” — ise kya kehte hain?
A) Open inflation B) Suppressed inflation C) Creeping inflation D) Structural inflation
Q13. philips curve (Phillips curve) kis sambandh ko dikhata hai?
A) inflation aur unemployment ke beech sidha sambandh B) inflation aur unemployment ke beech ulta sambandh (short-term) C) GDP aur population ka sambandh D) kar aur subsidy ka sambandh
Q14. Bharat mein inflation ka target (inflation target) kya hai?
A) 4% ± 2% (yaani 2% se 6%) B) 6% ± 2% (4% se 8%) C) 2% ± 1% (1% se 3%) D) koi tay target nahi

Q1: B - inflation = prices ka badhna. Rs 100 → Rs 104 inflation hai; Rs 100 → Rs 98 deflation (deflation).
Q2: B - Deflation mein prices neeche jati hain — jaise Rs 100 ki cheez Rs 98 ki ho jaaye.
Q3: B - Disinflation: Rs 100 → Rs 104 → Rs 112 → Rs 108 — inflation chal rahi hai, bas raftar kam hui. Deflation mein prices seedhe girti hain (Rs 100 → Rs 98).
Q4: B - policy ke zariye mang ko phir se zinda karna = reflation. lecture mein yahi GST daren ghatane ka udaharan diya gaya.
Q5: B - Stagflation = stagnant growth + high inflation + high unemployment. teeno saath hone par hi ye shabd implemented hota hai.
Q6: B - Creeping = mild/halki inflation. lecture mein saaf kaha gaya: “thodi bahut inflation economic growth ke liye nesesri hai.”
Q7: C - Walking 3–10%, Running 10–20%, Galloping 20–30%. lecture ka udaharan: Rs 100 ki cheez Rs 114 ho jaaye — ye running hai.
Q8: A - khadya aur fuel ki prices bahut asthir hoti hain, isliye unhen hatakar nikali gayi inflation = core inflation. sab kuch milakar = headline inflation.
Q9: B - mang badhane se keemat badhi = demand-pull inflation. ismein kaaran mang hai, lagat nahi.
Q10: B - utpadan ki lagat badhane se keemat badhi = cost-push inflation. agar salary → lagat → keemat → phir salary ka chakra bane to vo vej-prais spairal kahalata hai.
Q11: A - imported vastu ki keemat badhane se phailne wali inflation = imported inflation. Bharat mein kachche tel ka udaharan sabse am hai.
Q12: B - Suppressed (dabi hui) inflation — teen sanket: price control, rationing, black market. ankadon mein inflation kam dikhati hai, asar wahi rehta hai.
Q13: B - philips curve short-term mein inflation aur unemployment ka ulta sambandh dikhata hai — inflation badhe to unemployment ghate.
Q14: A - target 4% hai, ±2% ki chhoot ke saath — yaani 2% se 6% ki renj. “4 se 6%” likha vikalp jaal hai.

Batch 6

• Bank of Hindustan - 1770 (modern banking ki shuruaat) -> pehla bank
• Bank of Bengal - 1806 (pehla Presidency Bank) -> Bengal
• Oudh Commercial - 1881 (pehla Bharatiya sanchalit) -> avadh
• Punjab National Bank - 1894 (pehla poorn Bharatiya bank) -> PNB
• RBI - 1 April 1935 (Hilton Young Commission) -> establishment
• RBI nationalisation - 1 January 1949 (shuru mein private bank tha) -> 1949
• RRB - 2 aktubar 1975 (Saraiya aur Narasimham) -> Prathama Bank
• NABARD - 1982 (munbai · refinance) -> agriculture aur rural
• IRDA - 1999 (haidarabad) -> insurance regulator
• SEBI - 1988 / 1992 (munbai · share bazaar) -> stock exchange
• CRR - ~4% (RBI ke pass, byaaj nahi) -> cash reserve
• SLR - ~18% (bank ke pass hi) -> statutory liquidity
• Repo - Repurchase Agreement (security girvi, paisa RBI se) -> lending rate
• Reverse repo - liquidity sokhna (bank RBI ke pass paisa rakhe) -> repo se kam rate
• MSF - SLR security girvi (akhiri vikalp) -> marginal standing
• OMO - open market operation (RBI security kharide/beche) -> paisa badhana/ghatana
• M1 - narrow money (karensi + demand deposit) -> sabse taral
• M3 - broad money (M1 + FD) -> sabse zyada prayukt
• Money market - 1 varsh se kam (short term) -> RBI ka radius
• Devaluation - 1949 · 1966 · 1991 (export badhe, import mahanga) -> government ka faisla

MCQ (answer neeche):

Q1. Bharat mein modern banking ki shuruaat kis bank se mani jati hai?
A) Bank of Hindustan (1770) B) Bank of Bengal (1806) C) Punjab National Bank (1894) D) Imperial Bank (1921)
Q2. pehla poorn Bharatiya bank kaun tha?
A) Oudh Commercial Bank (1881) B) Punjab National Bank (1894) C) Bank of Madras (1843) D) Allahabad Bank (1865)

Q3. RBI ki establishment kab aur kiski recommendation par hui?
A) 1 April 1935 — Hilton Young Commission B) 1 January 1949 — Narasimham Committee C) 1 April 1935 — Saraiya Committee D) 2 aktubar 1975 — Hilton Young Commission
Q4. RBI ka nationalisation kab hua?
A) 1935 B) 1949 C) 1969 D) 1975
Q5. RBI ke pehle Governor kaun the?
A) C. D. Deshmukh B) Sir Osborne Smith C) Hilton Young D) P. C. Bhattacharya
Q6. note (bank notes) kin chaar jagahon par chhapate hain?
A) nasik, devas, haidarabad, Mysuru B) munbai, kolakata, haidarabad, noeda C) nasik, munbai, Delhi, chennai D) devas, kolakata, noeda, Mysuru
Q7. coins (coins) kahan bante hain?
A) nasik, devas, haidarabad, Mysuru B) munbai, kolakata, haidarabad, noeda C) keval munbai aur kolakata D) keval noeda
Q8. pehla Regional Rural Bank (RRB) kaun tha aur kahan?
A) Prathama Bank — uttar pradesh B) Grameen Bank — bihar C) Saraiya Bank — gujarat D) Prathama Bank — madhy pradesh
Q9. NABARD ke bare mein kaun-si baat sahi hai?
A) ye seedhe farmers ko loan deta hai B) ye refinance karta hai, seedhe loan nahi deta C) ye insurance niyantrit karta hai D) ye note chhapta hai
Q10. CRR ki raqam kahan rakhi jati hai?
A) bank ke apne pass, sarkari securities mein B) RBI ke pass naqad, bina byaaj C) share bazaar mein D) dakaghar mein
Q11. “Repo Rate” mein “repo” ka poora arth kya hai?
A) Repayment Policy B) Repurchase Agreement C) Reserve Position D) Reverse Payment
Q12. Reverse Repo ka mukhya kaam kya hai?
A) bazaar mein paisa badhana B) bazaar se extra liquidity sokhna C) note chhapna D) coins jari karna
Q13. M1 aur M3 mein kya sahi hai?
A) M1 = broad money, M3 = narrow money B) M1 = narrow money, M3 = broad money C) dono ek hi hain D) M3 mein fixed deposit nahi aati
Q14. karensi ke depreciation (devaluation) ka export par kya asar hota hai?
A) Export badhta hai B) Export ghatata hai C) koi asar nahi D) Export shuny ho jata hai

Q1: A - lecture ki pehli lain: “modern banking system 1770 se start hota hai, Bank of Hindustan se.
Q2: B - 1881 mein Oudh Commercial pehla bharatiyon dwara sanchalit bank tha, par pehla poorn Bharatiya bank PNB (1894) hai.
Q3: A - RBI 1 April 1935 ko Hilton Young Commission ki recommendation par bana; 1 January 1949 ko rashtriyakrit hua.
Q4: B - RBI shuru mein private bank tha, isliye 1 January 1949 ko rashtriyakrit kiya gaya.
Q5: B - pehle Governor Sir Osborne Smith; pehle Bharatiya Governor C. D. Deshmukh.
Q6: A - note pres — nasik, devas, haidarabad, Mysuru. doosra vikalp mint (mint) ki List hai, jahan coins bante hain.
Q7: B - chaar mint — munbai, kolakata, haidarabad, noeda. note pres aur mint ki suchiyan alag hain.
Q8: A - RRB 2 aktubar 1975 se shuru; pehla RRB Prathama Bank, uttar pradesh (Moradabad) mein.
Q9: B - NABARD (1982, munbai) apex institution hai — RRB jaise sansthanon ko refinance deta hai, seedhe grahak ko loan nahi.
Q10: B - CRR ~4% — RBI ke pass cash ke roop mein, is par bank ko byaaj nahi milta. SLR ~18% bank apne pass rakhata hai.
Q11: B - Repo = Repurchase Agreement — bank sarkari security girvi rakhakar RBI se paisa leta hai aur baad mein vapas kharidta hai.
Q12: B - banks ke pass zyada paisa ho to ve use RBI ke pass park karte hain; RBI isse excess liquidity sokh leti hai.
Q13: B - M1 = karensi + demand deposit (narrow money); M3 = M1 + bank fixed deposits (broad money).
Q14: A - $1 = Rs 50 se Rs 80 ho jaaye to videshi ko Bharatiya saman sasta padta hai — export badhta hai, import mahanga hota hai.

Batch 7

• FRBM Act - 2003 (fiscal deficit 3%) -> kanoon
• NK Singh Committee - 2016 (debt 60% = 40 + 20) -> FRBM review
• Article 112 - Centre ka budget (Annual Financial Statement) -> Constitution
• Article 202 - rajya ka budget (rajya vidhanamandal) -> Constitution
• pehla budget - 1947 (R. K. Shanmukham Chetty) -> svatantr Bharat
• Service tax - 1994–95 (seva par kar) -> shuruaat
• VAT in India - Haryana 2003 (UP mein 2008) -> pehla rajya

• GST - 1 July 2017 (101van amendment) -> ek desh ek kar
• FTP 2023 - 31 March 2023 (piyush goyal) -> $2 triliyan target
• Direct tax - kamane wale par bhar (income, corporation) -> seedhe government ko
• Indirect tax - kharidne wale par bhar (GST, excise, customs) -> vastu/seva par
• Ad valorem - value par (qimat ka %) -> jaise 18% GST
• Specific duty - quantity par (prati tan/litar) -> quantity par
• Regressive - aay badhe, rate ghate (garib par bhar) -> R = Reverse
• Progressive - aay badhe, rate badhe (amir par bhar) -> P = Progress
• CGST · SGST · IGST - Centre · rajya · antar-rajyiy (ek hi GST ke hisse) -> teen naam
• GST slab - 0 · 5 · 12 · 18 · 28 (panch slab) -> % mein
• GST ke bahar - alkohal + petroleum (panch petroleum excise) -> chhoot

MCQ (answer neeche):

Q1. Fiscal policy kiski policy hoti hai?
A) RBI ki B) government ki (taxation aur expenditure) C) SEBI ki D) vishv bank ki
Q2. FRBM Act kab aaya?
A) 1991 B) 2003 C) 2016 D) 2017
Q3. FRBM Act ke anusar fiscal deficit kitna hona chahiye?
A) GDP ke 3% se zyada nahi B) GDP ke 6% se zyada nahi C) GDP ke 60% se zyada nahi D) koi seema nahi
Q4. NK Singh Committee (2016) ne debt-to-GDP ratio kitna sujhaya?
A) 40% B) 60% (Centre 40% + rajya 20%) C) 80% D) 20%
Q5. Centre ka budget Constitution ke kis Article mein hai?
A) Article 112 B) Article 202 C) Article 279A D) Article 356
Q6. rajya ke budget ka constitutional aadhar kaun-sa Article hai?
A) 112 B) 202 C) 110 D) 280
Q7. svatantr Bharat ka pehla budget kisne pesh kiya?
A) R. K. Shanmukham Chetty B) C. D. Deshmukh C) Morarji Desai D) P. Chidambaram
Q8. inamen se kaun direct tax hai?
A) Customs duty B) Corporation tax C) GST D) Central excise
Q9. agriculture aay par income tax ke bare mein kya sahi hai?
A) Centre government lagati hai B) agriculture aay par income tax nahi lagata C) sirf 10% lagata hai D) GST ke tahat aata hai
Q10. Service tax Bharat mein kab shuru hua?
A) 1991–92 B) 1994–95 C) 2003–04 D) 2017–18
Q11. “Ad valorem” duty kis par lagata hai?
A) quantity (quantity) par B) price (value) par C) vazan par D) duri par
Q12. Bharat mein VAT sabse pehle kis rajya ne implemented kiya?
A) uttar pradesh B) Haryana C) Maharashtra D) gujarat
Q13. GST kab aur kis Constitution amendment se implemented hua?
A) 1 July 2017 — 101van amendment B) 1 April 2017 — 122van amendment C) 1 January 2018 — 100van amendment D) 15 August 2016 — 101van amendment
Q14. inamen se kis par GST nahi lagata?
A) mobail fon B) alkohal aur petroleum excise C) kapade D) restorent ka khana

Q1: B - Fiscal policy government ki hoti hai — tax, public expenditure, public debt aur deficit financing. RBI ki policy monetary policy kahalati hai.
Q2: B - FRBM (Fiscal Responsibility and Budget Management) Act 2003 — fiscal deficit ko niyantrit karne ka kanooni infrastructure.
Q3: A - lecture mein saaf kaha gaya — fiscal deficit GDP ke 3% se zyada nahi hona chahiye. 60% wala ankada debt-to-GDP ka hai.
Q4: B - kul 60% — Centre 40% aur rajya 20%; saath mein ek independent fiscal council ka sujhav bhi.
Q5: A - Article 112 — Annual Financial Statement (Centre). rajya ke budget ka Article 202 hai.
Q6: B - Article 202 — rajya ka budget. 112 Centre ka hai, isliye dono ko na milayein.
Q7: A - R. K. Shanmukham Chetty ne 1947 mein svatantr Bharat ka pehla budget pesh kiya.
Q8: B - Corporation tax company ke munafe par seedhe government ko diya jata hai — direct tax. baki teeno indirect hain.
Q9: B - agriculture aay par Centre income tax nahi leta; ye rajya ke adhikar sector mein hai, aur vyavahar mein chhoot hai.

Q11: B - Ad valorem = value (qimat) ke hisab se, jaise 18% GST. Quantity ke hisab se lagane wala specific duty hai.
Q12: B - Haryana ne 2003 mein sabse pehle VAT implemented kiya; uttar pradesh mein ye 2008 mein aaya.
Q13: A - GST 1 July 2017 se 101st Constitution Amendment Act ke zariye implemented hua.

Q14: B - alkohal aur panch petroleum excise GST ke dayre se bahar hain — un par rajya VAT aur Centre excise duty lagata hai.

Batch 8

• Rice - pashchim Bengal (sabse bada utpadak) -> khadyann
• Wheat - uttar pradesh (sabse bada utpadak) -> khadyann
• Coffee - Karnataka 70% (vishv mein brazil) -> nakadi crop
• Coffee Board - 1942 (bengaluru) -> sabse purana bord
• Rubber Board - 1947 (kottayam) -> keral
• Tobacco Board - 1976 (guntur) -> Andhra Pradesh
• Marginal - 1 hekteyar se kam (sabse chhoti jot) -> shreni
• Small - 1–2 hekteyar (marginal ke baad) -> shreni
• Medium - 4–10 hekteyar (Punjab-Haryana mein) -> shreni
• Small + marginal - 89% (Economic Survey) -> kisan
• NFSA - 10 September 2013 (75% rural · 50% urban) -> khadya suraksha
• rashan - 5 kilo (per person prati mah) -> quantity
• daren - Rs 2 · Rs 3 · Rs 1 (gehun · chaval · mota grain) -> subsidy
• 3A - availability · accessibility · affordability (accountability nahi) -> aayam
• Bhilai - USSR (chhattisagadh) -> steel plant
• Durgapur - UK (pashchim Bengal) -> steel plant
• Rourkela - Germany (odisha) -> steel plant
• CDP - 2 aktubar 1952 (S.K. Dey) -> samudayik development
• MGNREGA - 100 din (kanoon 2005) -> employment guarantee
• PM POSHAN - 2021 (Mid-Day Meal 1995) -> naya naam

MCQ (answer neeche):

Q1. 1950 mein agriculture ka GDP mein hissa kitna tha?
A) 32% B) 42% C) 52% D) 62%
Q2. Bharat ki kitni abadi kheti par dependent hai?
A) 26% B) 36% C) 46% D) 56%
Q3. kis panchvarshiya yojana mein agriculture ne rinatmak growth darj ki?
A) pehli yojana B) doosri yojana C) tisri yojana (1961–65) D) panchavin yojana
Q4. chaval ka sabse bada utpadak rajya kaun hai?
A) uttar pradesh B) pashchim Bengal C) Punjab D) Andhra Pradesh
Q5. Bharat ka 70% kofi utpadan kis rajya se aata hai?
A) keral B) Karnataka C) tamilanadu D) Andhra Pradesh
Q6. Green Revolution (Green Revolution) kisse judi hai?
A) tilahan B) khadyann (gehun, chaval) C) matsy D) urvarak
Q7. “Marginal farmer” ki paribhasha kya hai?
A) 1 hekteyar se kam zamin B) 1–2 hekteyar C) 2–4 hekteyar D) 4–10 hekteyar
Q8. Coffee Board ki establishment kab aur kahan hui?
A) 1942 — bengaluru B) 1947 — kottayam C) 1954 — kolakata D) 1976 — guntur
Q9. Rubber Board ka headquarters kahan hai?
A) kochchi B) kottayam C) kolakata D) haidarabad
Q10. National Food Security Act kab implemented hua?
A) 10 September 2013 B) 2 aktubar 2014 C) 1 July 2017 D) 15 August 2015
Q11. NFSA ke tahat per person prati mah kitna grain milta hai?
A) 3 kilo B) 5 kilo C) 7 kilo D) 10 kilo
Q12. khadya suraksha ka aayam kaun-sa nahi hai?
A) Availability B) Accessibility C) Affordability D) Accountability
Q13. bhilai steel plant kis desh ki madad se bana?
A) USSR B) UK C) Germany D) japan
Q14. MGNREGA ke tahat kitne din ka guaranteed employment milta hai?
A) 50 din B) 100 din C) 125 din D) 150 din

Q1: C - 1950 mein 52%; ab lagbhag 20% rah gaya hai — lekin 46% abadi abhi bhi kheti par dependent hai.
Q2: C - lecture ke anusar lagbhag 46% abadi kheti par dependent hai — isliye agriculture reform seedhe poverty se juda hai.
Q3: C - tisri yojana (1961–65) mein agriculture ki rinatmak growth hui — chin aur Pakistan se yuddh aur sukhe ke kaaran; iske baad 1966 mein Green Revolution ai.

Q4: B - chaval — pashchim Bengal; gehun — uttar pradesh, dono ko ulatane wala vikalp jaal hai.
Q5: B - 70% kofi Karnataka se; vishv mein sabse bada utpadak desh brazil hai.
Q6: B - Green = khadyann; Yellow = tilahan; Blue = matsy; Grey = urvarak.
Q7: A - Marginal = 1 hekteyar se kam; Small = 1–2; Semi-medium = 2–4; Medium = 4–10; Large = 10 se zyada.
Q8: A - Coffee Board 1942, bengaluru. 1947 kottayam rabar bord hai, 1954 kolakata chay bord, 1976 guntur tanbaku bord.
Q9: B - Rubber Board 1947, kottayam (keral). Spices Board kochchi mein hai — dono keral mein hain, isliye bhram hota hai.
Q10: A - NFSA — 10 September 2013; 75% rural aur 50% urban abadi ko cover karta hai.
Q11: B - 5 kilo per person prati mah — gehun Rs 2, chaval Rs 3 aur mota grain Rs 1 prati kilo.
Q12: D - teen anivary aayam availability, accessibility aur affordability hain; accountability aayam nahi hai (utilization aur stability bhi aayam hain).
Q13: A - bhilai — USSR (chhattisagadh); durgapur — UK (pashchim Bengal); raurakela — Germany (odisha).
Q14: B - 100 din ka guaranteed employment; kanoon 2005 mein bana aur 2 February 2006 se implemented hua.

Batch 9

• HDI - 3 aayam (health · education · living standard) -> UNDP
• Bharat ki rank - 130 / 193 (HDR 2025) -> index
• GNH - bhutan 1972 (Jigme Singye Wangchuck) -> khushi
• ICDS - 1975 (bachchon aur mataon ka nutrition) -> health
• NHP - 1983 (pehli health policy) -> policy
• NRHM - 2005 (rural health mishan) -> mishan
